SUPPLEMENTARY INFORMATION: AC21 members serve staggered 2-year terms, with terms for half of the Committee members expiring in any given year. Nominations are being sought for open Committee seats. The terms of 9 members of the AC21 will expire in early 2004. The AC21 Charter allows for flexibility to appoint up to a total of 11 members. Members can be reappointed to serve up to 6 consecutive years. Equal opportunity practices, in line with USDA policies, will be followed in all membership appointments to the Committee. To ensure that the recommendations of the Committee have taken into account the needs of the diverse groups served by USDA, membership shall include, to the extent practicable, individuals with demonstrated ability to represent minorities, women, and persons with disabilities.

Nominees of the AC21 should have recognized expertise in one or more of the following areas: recombinant-DNA (rDNA) research and applications using plants; rDNA research and applications using animals; rDNA research and applications using microbes; food science; silviculture and related forest science; fisheries science; ecology; veterinary medicine; the broad range of farming or agricultural practices; weed science; plant pathology; biodiversity; applicable laws and regulations relevant to agricultural biotechnology policy; risk assessment; consumer advocacy and public attitudes; public health/epidemiology; ethics, including bioethics; human medicine; biotechnology industry activities and structure; intellectual property rights systems; and international trade. Members will be selected by the Secretary of Agriculture in order to achieve a balanced representation of viewpoints to address effectively USDA biotechnology policy issues under consideration.

Nominations for AC21 membership must be in writing and provide the appropriate background documents required by USDA policy, including background disclosure form AD-755.

The AC21 meets in Washington, DC, up to four (4) times per year. The function of the AC21 is solely advisory. Members of the AC21 and its subcommittees serve without pay, but with reimbursement of travel expenses and per diem for attendance at AC21 and subcommittee functions for those AC21 members who require assistance in order to attend the meetings. While away from home or their regular place of business, those members will be eligible for travel expenses paid by REE, USDA, including per diem in lieu of subsistence, at the same rate as a person employed intermittently in the government service is allowed under Section 5703 of Title 5, United States Code.

Submitting Nominations: Nominations should be typed and include the following:

1. A brief summary of no more than two (2) pages explaining the nominee's suitability to serve on the AC21.
2. A resume or curriculum vitae.
3. A completed copy of form AD-755. Nominations should be sent to Michael Schechtman at the address listed above, and be post marked no later than [the date set forth above].

Dated: October 15, 2003.

SUPPLEMENTARY INFORMATION:

Title: Cooperative Agricultural Pest Survey.

OMB Number: 0579-0010.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Plant Protection Act (7 U.S.C. 7701-7772), the Secretary of Agriculture is responsible for preventing the introduction and interstate spread of plant pests and noxious weeds that are new to or not widely distributed within the United States.

To this end, the Animal and Plant Health Inspection Service, Plant Protection and Quarantine (PPQ) program, has joined forces with the States and other agencies to create a program called the Cooperative Agricultural Pest Survey (CAPS). The CAPS program collects and manages

data on plant pests, weeds, and biological control agents, which may be used to control plant pests or noxious weeds.

This program allows the States and PPQ to conduct surveys to detect and measure the presence of exotic plant pests and weeds and to enter survey data into a national computer-based system known as the National Agricultural Plant Information System (NAPIS). This, in turn, allows APHIS to obtain a more comprehensive picture of pest conditions in the United States as well as detect, in collaboration with the National Plant Diagnostic Network and the U.S. Department of Agriculture's Cooperative State Research, Education, and Extension Service (CSREES), population trends that could indicate an agricultural bioterrorism act.

The information generated by this program is used by States to predict potential pest situations in the United States and by Federal interests (e.g., PPQ and CSREES) to promptly detect and respond to the occurrence of new exotic pests and to provide documentation on plant pests to facilitate and record the location of those pest incursions that could directly hinder the export of U.S. farm commodities. The system also provides data management support for PPQ pest programs such as imported fire and gypsy moth.

The CAPS program entails the use of several information collection activities, including a cooperative agreement and a Specimens for Determination Form (PPQ Form 391).

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g.,

permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.1091824 hours per response.

Respondents: State cooperators participating in the Cooperative Agricultural Pest Survey.

Estimated annual number of respondents: 103.

Estimated annual number of responses per respondent: 352.932.

Estimated annual number of responses: 36,352.

Estimated total annual burden on respondents: 3,969 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 17th day of October, 2003.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Veterinary Services User Fees for Permit Applications.

OMB Number: 0579-0167.

Type of Request: Extension of approval of an information collection.

Abstract: The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture charges applicants a fee for processing applications for permits to import animals and animal products (including byproducts, organisms, vectors, and germ plasm). Regulations regarding user fees to reimburse APHIS for processing permit applications and for providing other import- and export related services for live animals and birds and animal products are contained in the Code of Federal Regulations, title 9, part 130. Veterinary Services, APHIS, is responsible for reviewing the import applications and issuing permits.
