Citral, Case Number 6314 .....	EPA-HQ-OPP-2022-0301	Susanne Cerrelli, <a href="mailto:cerrelli.susanne@epa.gov">cerrelli.susanne@epa.gov</a> , (202) 566-1516.
Heptyl butyrate, Case Number 6305 .....	EPA-HQ-OPP-2022-0402	Hannah Dean, <a href="mailto:dean.hannah@epa.gov">dean.hannah@epa.gov</a> , (202) 566-1531.
L-Carvone, Case Number 6306 .....	EPA-HQ-OPP-2022-0392	Susanne Cerrelli, <a href="mailto:cerrelli.susanne@epa.gov">cerrelli.susanne@epa.gov</a> , (202) 566-1516.
Sedaxane, Case Number 7065 .....	EPA-HQ-OPP-2022-0448	Christian Bongard, <a href="mailto:bongard.christian@epa.gov">bongard.christian@epa.gov</a> , (202) 566-2248.
Tebuconazole, Case Number 7004 .....	EPA-HQ-OPP-2015-0378	Tiffany Green, <a href="mailto:green.tiffany@epa.gov">green.tiffany@epa.gov</a> , (202) 566-2224.
Triadimefon and Triadimenol, Case Numbers 2700 and 7008.	EPA-HQ-OPP-2016-0114	Matthew B. Khan, <a href="mailto:khan.matthew@epa.gov">khan.matthew@epa.gov</a> , (202) 566-2212.

The registration review docket for a pesticide includes earlier documents related to the registration review case. For example, the review opened with a Preliminary Work Plan, for public comment. A Final Work Plan was placed in the docket following public comment on the Preliminary Work Plan.

The documents in the dockets describe EPA's rationales for conducting additional risk assessments for the registration review of the pesticides included in Table 1 in Unit IV., as well as the Agency's subsequent risk findings and consideration of possible risk mitigation measures. These proposed interim registration review decisions are supported by the rationales included in those documents. Following public comment, the Agency will issue interim or final registration review decisions for the pesticides listed in Table 1 in Unit IV.

The registration review final rule at 40 CFR 155.58(a) provides for a minimum 60-day public comment period on all proposed interim registration review decisions. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed interim decision. All comments should be submitted using the methods in **ADDRESSES** and must be received by EPA on or before the closing date. These comments will become part of the docket for the pesticides included in the Tables in Unit IV. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

The Agency will carefully consider all comments received by the closing date

and may provide a "Response to Comments Memorandum" in the docket. The interim registration review decision will explain the effect that any comments had on the interim decision and provide the Agency's response to significant comments.

Background on the registration review program is provided at: <https://www.epa.gov/pesticide-reevaluation>. Authority: 7 U.S.C. 136 *et seq.*

Dated: July 6, 2022.

## ENVIRONMENTAL PROTECTION AGENCY

[Petition IV-2021-5; FRL-9978-01-R4]

### Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Alabama Power Company—Barry Generating Plant (Mobile County, Alabama)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final Order on petition to object to state operating permit.

**SUMMARY:** The EPA Administrator signed an Order, dated June 14, 2022, granting in part and denying in part the petition submitted by Sierra Club and Greater-Birmingham Alliance to Stop Pollution (Petitioners) objecting to a proposed Clean Air Act (CAA) title V operating permit issued to Alabama Power Company for its Barry Generating Plant located in Mobile County,

Alabama. The Order responds to a March 30, 2021, petition requesting that EPA object to the final operating permit number 503-1001. The title V operating permit was issued by the Alabama Department of Environmental Management (ADEM). The Order constitutes a final action on the petition addressed therein.

**ADDRESSES:** Copies of the Order, the petition, and all pertinent information relating thereto are on file at the following location: EPA Region 4; Air and Radiation Division; 61 Forsyth Street SW; Atlanta, Georgia 30303-8960. The Order and petition are also available electronically at the following addresses: [https://www.epa.gov/system/files/documents/2022-06/APC%20Barry%20Order\\_6-14-22.pdf](https://www.epa.gov/system/files/documents/2022-06/APC%20Barry%20Order_6-14-22.pdf); <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

**FOR FURTHER INFORMATION CONTACT:** Art Hofmeister, Air Permits Section, EPA Region 4, at (404) 562-9115 or [hofmeister.art@epa.gov](mailto:hofmeister.art@epa.gov).

**SUPPLEMENTARY INFORMATION:** The CAA affords EPA a 45-day period to review and, as appropriate, the authority to object to operating permits proposed by state permitting authorities under title V of the CAA, 42 U.S.C. 7661-7661f. Section 505(b)(2) of the CAA and 40 CFR 70.8(d) authorize any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of EPA's 45-day review period if EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was

impracticable to raise these issues during the comment period or the grounds for the issues arose after this period. Pursuant to sections 307(b) and 505(b)(2) of the CAA, a petition for judicial review of those parts of the Order that deny issues in the petition may be filed in the United States Court of Appeals for the appropriate circuit within 60 days from the date this notice is published in the **Federal Register**.

Petitioners submitted a petition requesting that EPA object to proposed CAA title V operating permit number 503–1001 issued by ADEM to the Barry Generating Plant for the following reasons: the permit contained limits with the potential to exceed the National Ambient Air Quality Standard for sulfur dioxide, including inappropriate averaging limits for SO<sub>2</sub>, in contravention of applicable state implementation plan (SIP) provisions; the permit failed to include applicable SIP requirements to control fugitive emissions from the coal handling system and to ensure compliance with SIP opacity limit, including associated monitoring, recordkeeping, and reporting; the permit failed to include emission controls and work practice standards for the coal handling operations and ADEM failed to require that Alabama Power Company disclose all fugitive emissions from the coal handling system; ADEM failed to determine compliance of the facility; ADEM failed to require complete and accurate compliance certifications from Alabama Power Company in accordance with part 70; Alabama Power Company failed to include all applicable requirements in the application for a title V permit; and ADEM failed to provide a basis for granting a permit shield to the entire facility.

On June 14, 2022, the Administrator issued an Order granting in part and denying in part the petition. The Order explains EPA's bases for granting in part and denying in part the petition.

Dated: July 5, 2022.

## ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OW–2015–0613; FRL–9956–01–OW]

### Information Collection Request; Proposed Renewal; Comment Request; Implementation of Title I of the Marine Protection, Research, and Sanctuaries Act

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR) renewal, “Implementation of Title I of the Marine Protection, Research, and Sanctuaries Act,” (EPA ICR No. is 0824.08, OMB Control No. 2040–0008) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

**DATES:** Comments must be submitted on or before September 12, 2022.

**ADDRESSES:** Submit your comments, referencing Docket ID No. EPA–HQ–OW–2015–0613 (our preferred method), by email to: [OW-Docket@epa.gov](mailto:OW-Docket@epa.gov) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. All comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

**FOR FURTHER INFORMATION CONTACT:** Chris Laabs, Oceans, Wetlands, and Communities Division, mail code 4504T, Office of Wetlands, Oceans, and Watersheds, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202–566–1223; fax number: 202–566–1147; email address: [Laabs.Chris@epa.gov](mailto:Laabs.Chris@epa.gov).

**SUPPLEMENTARY INFORMATION:** Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at [www.regulations.gov](http://www.regulations.gov)

or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501 *et seq.*), EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If approved by OMB, renewals are typically granted a three-year extension.

**Abstract:** With limited exceptions, ocean dumping—the transportation of any material for the purpose of dumping material in ocean waters—is prohibited except in compliance with a permit issued under the Marine Protection, Research, and Sanctuaries Act (MPRSA). EPA is responsible for issuing ocean dumping permits for all materials except dredged material. The U.S. Army Corps of Engineers (USACE) is responsible for issuing ocean dumping permits for dredged material using EPA's environmental criteria, though for federal projects, the USACE may apply the environmental criteria directly in lieu of the permit process. All ocean dumping permits and federal projects involving ocean dumping of dredged material are subject to EPA review and concurrence. EPA is also responsible for designating and managing ocean sites for the disposal of materials and establishing Site Management and Monitoring Plans for ocean disposal sites. EPA collects or sponsors the collection of information for the purposes of permit issuance, reporting
