#### Endangered and Threatened Wildlife and Plants; Permit Application, Northern Spotted Owl, Oregon

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Reopening of public comment period.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), announce the reopening of the public comment period for the Oregon Department of Forestry's (ODF) enhancement of survival permit (permit) application under the Endangered Species Act of 1973, as amended. The permit application includes a proposed programmatic safe harbor agreement (Agreement) between ODF, the U.S. Department of Agriculture—Natural Resources Conservation Service (NRCS), and the Service. The requested permit would authorize ODF to extend incidental take coverage with assurances through issuance of Certificates of Inclusion to eligible landowners willing to carry out habitat management measures expected to benefit the northern spotted owl (*Strix occidentalis caurina*), which is federally listed as threatened. We are reopening the comment period for 30 days. The original notice of availability was published in the **Federal Register** on July 21, 2009 (74 FR 35883), and contains additional information regarding the permit application. Previous comments need not be resubmitted.

**DATES:** To ensure consideration, please send your written comments by November 9, 2009.

**ADDRESSES:** You may submit your written comments to State Supervisor (see **SUPPLEMENTARY INFORMATION** below). Include your name and address in your comments and refer to the

“Spotted Owl Programmatic Safe Harbor Agreement.”

#### Federal Sport Fish Restoration; California Department of Fish and Game Fish Hatchery and Stocking Program

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability and request for comments: draft environmental impact report/environmental impact statement (EIR/EIS).

**SUMMARY:** The U.S. Fish and Wildlife Service (FWS) announces the availability of the draft EIR/EIS for the California Department of Fish and Game's (CDFG) Fish Hatchery and Stocking Program (Program). FWS is lead agency, under the National Environmental Policy Act (NEPA) of 1969, as amended, for the draft EIR/EIS jointly prepared with CDFG. Under the Sport Fish Restoration Act (SFRA), FWS proposes to fund actions associated with the operation of CDFG's 14 trout hatcheries and the Mad River Hatchery for the anadromous steelhead, and stocking from the 15 hatcheries. The Federal action does not include funding CDFG's other anadromous fish hatcheries and associated stocking, nor its issuance of private stocking permits. SFRA funding may also support CDFG's Fishing in the City and Classroom Aquarium Education Programs. CDFG is the lead agency under the California Environmental Quality Act (CEQA) and proposes to implement hatchery operations and stocking funded by FWS, as well as all other components of the CDFG Program, including anadromous fish hatchery operations and associated stocking, and issuance of stocking permits to private parties seeking to stock fish in California's inland waters. We invite and encourage interested persons to review the draft EIR/EIS and submit written comments regarding alternatives addressed in the document.

**DATES:** We must receive written comments at the address below on or before November 30, 2009. We will hold
