

a national securities exchange¹⁶ and, in particular, the requirements of Section 6 of the Act.¹⁷ Specifically, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹⁸ which requires, among other things, that the rules of a national securities exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Commission believes that the reduced alternate fee structure available through the Enterprise License Fee to eligible market data recipients should help to encourage a wider distribution of market data, especially to non-professional customers. The Commission notes that other industry organizations have similar fee structures which make various market data available to non-professional subscribers for a discounted fee relative to professional subscribers. For example, the Nasdaq Stock Market, Inc. ("Nasdaq") has fees schedules that are higher for professional or corporate subscribers than for non-professional subscribers for UTP Level 1 fees, TotalView fees, and Nasdaq MAX fees.¹⁹ The Options Price Reporting Authority ("OPRA"), a national market system plan, also offers a reduced fee to nonprofessional subscribers, which is not available to professional options data subscribers.²⁰

The Commission also believes that Phlx's eligibility standards in determining the type of retail broker-dealers who can use the new Enterprise License Fee appears to be reasonably related to its purpose of providing a discount to those retail broker-dealers who have primarily a proprietary Internet based business to non-professional users.²¹ As noted above,

eligible firms are also free to pay, as an alternative, the device fee or snapshot fee should they so choose.

Based on the above, the Commission believes that the proposal is consistent with Section 6(b)(4) of the Act,²² in that the proposed rule change provides for the equitable allocation of reasonable dues, fees, and other charges among the Exchange's members and issuers and other persons using its facilities. The Commission also continues to believe that PBOT's MDDN fee structure is consistent with Rule 603 under the Act²³ regarding the distribution, consolidation, and display of information with respect to quotations for and transactions in NMS stocks.

The Commission finds good cause for approving Amendment No. 3 to the proposed rule change prior to the thirtieth day after the notice is published for comment in the **Federal Register** pursuant to Section 19(b)(2) of the Act.²⁴ Amendment No. 3 clarifies the Exchange's proposal and does not raise any new regulatory issues. Further, the materiality standard in the Eligible Firm definition drafted into the fee schedule pursuant to Amendment No. 3 was the same standard published for comment with the filing and no comments were received. Finally, the Commission believes that it is appropriate to accelerate approval of the proposed rule change so that the Exchange can immediately provide the discounted fee to eligible firms that will disseminate the index values of Phlx's proprietary index options. Accordingly, the Commission finds good cause to approve Amendment No. 3 prior to the thirtieth day after the notice is published for comment in the **Federal Register**.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²⁵ that the proposed rule change (SR-Phlx-2006-63), as amended, be, and it hereby is, approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²⁶

Florence E. Harmon,

Deputy Secretary.

6. *Cost Reimbursable Research Request—0960-NEW.*

Background

The Social Security Administration (SSA) is responsible for administering two cash benefit programs, notably the Old-Age, Survivors, and Disability Insurance (OASDI) and SSI programs. To carry out this task, SSA maintains a number of files with detailed information on individuals and their characteristics, such as demographics, employment, earnings, assets, disability

diagnosis, location, and other information. While designed for SSA to carry out its administrative tasks, the data files offer great informational depth to researchers interested in SSA's programs and other research areas. As a result, SSA provides qualified researchers needing agency administrative data for a variety of projects.

SSA's data files are governed by strict confidentiality restrictions and are not publicly accessible. Therefore, SSA has charged the Office of Research,

Evaluation, and Statistics (ORES) as the primary interface for researchers, either within SSA or outside of it, who seek access to SSA's program files. To safeguard the information and the public trust, ORES has established comprehensive unified application process procedures for obtaining program data for research use.

The Cost Reimbursable Research Request

To request SSA program data for research, the researcher must submit a

completed research application for SSA's evaluation. In the application, the requesting researcher must provide required basic project information and describe the way in which the proposed project will further SSA's mission to promote the economic security of the nation's people through its administration of the OASDI programs, and/or the SSI program. Depending on the type of research data needed, the requesting researchers may be required to provide SSA with up to 14¹ prescribed project information elements to properly assess their data request.

Once the application is reviewed and approved by ORES a Reimbursable Conditions of Use Agreement is signed with the requestor which outlines the conditions and safeguards agreed to for the research project data exchange. The requestor may use the data for research and statistical purposes only. This is a reimbursable service and SSA recovers all expenses incurred in providing this information. The respondents to this information collection are the qualified researchers that request SSA administrative data for a variety of projects. These applicants include but are not limited to Federal and State government agencies and/or their contractors, private entities, and colleges/universities.

Type of Request: Collection in use without OMB Control Number.

Number of Respondents: 15.

Frequency of Response: 1.

Average Burden per Response: 240 minutes.

Estimated Annual Burden: 60 hours.

The total average annual cost for all respondents to use this service is approximately \$112,500 or an average of \$7,500 to complete a single request. This cost projection is an estimate of SSA's administrative and systems costs to analyze and provide the requested research data. Since this is a reimbursable, service all associated cost are borne by the requesters.

7. Notice Regarding Substitution of Party On Death of Claimant-Reconsideration of Disability Cessation—20 CFR 404.917–404.921 and 416.1407–416.1421—0960–0351. Form SSA–770 is used when a claimant dies before a determination is made on that person's request for reconsideration on his/her disability cessation. SSA seeks a qualified substitute party to pursue the appeal. If the qualified substitute party is located, the SSA–770 is used to collect information regarding whether to pursue or withdraw the reconsideration request. The

information collected on the SSA–770 forms the basis of the decision to continue or discontinue the appeals process. Respondents are substitute applicants who are pursuing a reconsideration request for a deceased claimant.

Type of Request: Extension of an OMB-approved information collection.

Number of Respondents: 1,200.

Frequency of Response: 1.

Average Burden Per Response: 5 minutes.

Estimated Annual Burden: 100 hours.

II. The information collections listed below have been submitted to OMB for clearance. Your comments on the information collections would be most useful if received by OMB and SSA within 30 days from the date of this publication. You can obtain a copy of the OMB clearance packages by calling the SSA Reports Clearance Officer at 410–965–0454, or by writing to the address listed above.

1. Response to Notice of Revised Determination—20 CFR 404.913–.914 and 992(b), 416.1413–.1414 and 1492—0960–0347. Form SSA–765 is used by claimants to request a disability hearing and/or to submit additional evidence before a revised reconsideration determination is issued. The respondents are claimants who file for a disability hearing in response to a notice of revised determination for disability under the OASDI and SSI programs.

Type of Request: Extension of an OMB-approved information collection.

The information collected on the SSA–7163 is needed to determine whether work performed by beneficiaries outside the United States is cause for deductions from their monthly Social Security Title II benefits; to determine which of two work tests (foreign test or regular test) is applicable; and to determine the months, if any, for which deductions should be imposed. The respondents are Title II beneficiaries living and working outside the United States.

Type of Request: Extension of an OMB-approved information collection.

Number of Respondents: 20,000.

Frequency of Response: 1.

Average Burden Per Response: 12 minutes.

Estimated Annual Burden: 4,000 hours.

3. Medical Permit Parking Application—41 CFR 101–20.104–2—0960–0624. SSA issues medical parking assignments at SSA-owned and -leased facilities to individuals who have a medical condition which meets the criteria for medical parking. In order to issue a medical parking permit, SSA must obtain medical evidence from the applicant's physician. Form SSA–3192-F4 is used to collect this information.

SSA then uses the information to determine whether the individual qualifies for a medical parking permit and whether or not to issue the permit. The respondents are physicians of applicants for medical parking permits.

Type of Request: Extension of an OMB-approved information collection.

Number of Respondents: 800.

Frequency of Response: 1.

Average Burden Per Response: 60 minutes.

Reporting Changes that Affect Your Social Security Payment—20 CFR 404.301–305, .310–311, .330–.333, .335–.341, .350–.352, .370–.371, 401–.402, .408(a), .421–.425, .428–.430, .434–.437, .439–.441, .446–.447, .450–.455, .468—0960–0073. SSA uses the information collected on Form SSA–1425 to determine continuing entitlement to Title II Social Security benefits and to determine the proper benefit amount. The respondents are Social Security beneficiaries receiving SSA retirement, disability or survivor's auxiliary benefits who need to report an event that could affect payments.

Type of Request: Revision of an OMB-approved information collection.

Number of Respondents: 70,000.

Frequency of Response: 1.

Average Burden Per Response: 5 minutes.

Estimated Annual Burden: 5,833 hours.

5. Disability Hearing Officer's Decision—20 CFR 404.917 and 416.1417—0960–0441. The Social Security Act requires that SSA provide an evidentiary hearing at the reconsideration level of appeal for claimants who have received an initial or revised determination that a disability did not exist or has ceased. Based on the hearing, the disability hearing officer (DHO) completes form SSA–1207 and all applicable supplementary forms (which vary depending on the type of claim). The DHO uses the information in documenting and preparing the disability decision. The form will aid the DHO in addressing the crucial elements of the case in a sequential and logical fashion. The respondents are DHOs in the State DDSs.

¹ The complete application process is described in SSA's Program Data User Manual.

Type of Request: Extension of an OMB-approved information collection.
Number of Respondents: 65,000.
Frequency of Response: 1.

Estimated Annual Burden: 48,750 hours.
 6. *Statement for Determining Continuing Eligibility, Supplemental*

Security Income Payment(s)—20 CFR Subpart B, 416.204—0960-0416. SSA uses the information collected on form SSA-8203-BK for high-error-profile (HEP) redeterminations of disability to determine whether SSI recipients have met and continue to meet all statutory and regulatory requirements for SSI eligibility and whether they have been, and are still receiving, the correct

payment amount. The information is normally completed in field offices by personal contact (face-to-face or telephone interview) using the automated Modernized SSI Claim System (MSSICS). The respondents are recipients of Title XVI benefits.

Type of Request: Revision of an OMB-approved information collection.

This information is divided into the Consultative Examination (CE) and Medical Evidence

of Record (MER) categories. There are three types of CE evidence: (a) Medical evidence from CE providers, in which DDSs use CE medical evidence to make disability determinations when the claimant's own medical sources cannot or will not provide the required information, (b) CE claimant completion of a response form where claimants indicate if they intend to keep their CE appointment, and (c) CE claimant completion of a form indicating whether they want the CE report to be sent to their doctor. In the MER category, the DDSs use MER information to determine

a person's physical and/or mental status prior to making a disability determination. Please note that for the first time, some of the information included in this collection can be submitted electronically through the new Electronic Records Express (ERE) systems. The respondents are medical providers, other sources of MER, and disability claimants.

Type of Collection: Revision to an existing OMB-approved collection.
