SUPPLEMENTARY INFORMATION:

Purpose: As outlined in its Charter, the National Committee on Vital and Health Statistics assists and advises the Secretary of HHS on health data, data standards, statistics, privacy, national health information policy, and the Department's strategy to best address those issues. This includes the adoption and implementation of transaction standards, unique identifiers, operating rules and code sets adopted under the Health Insurance and Portability Act of 1996 (HIPAA).¹

At this meeting, the Committee will discuss two letters for approval, each containing a set of recommendations for HHS action. The first set conveys recommendations regarding privacy, confidentiality, and security considerations for data collection and use during a public health emergency. The second set conveys recommendations regarding standards for prior authorization, attachments, and HIPAA-designated transactions in general to support the goal to improve data sharing among patients, providers, payers, public health systems, and other actors in health care.

The Committee will reserve time for public comment toward the end of the agenda. Meeting times and topics are subject to change. Please refer to the agenda posted at the NCVHS website for this meeting at: <https://ncvhs.hhs.gov/meetings/full-committee-meeting-10/> for updates.

Sharon Arnold,

Associate Deputy Assistant Secretary, Science and Data Policy, Office of the Assistant Secretary for Planning and Evaluation.
