

attempted to limit the appeal to fewer than all of the rejected claims by submitting an identification of claims being appealed that did not include these rejected claims in the notice of appeal or the appeal brief.”

37 CFR 41.31 does not provide for an identification of the claims whose rejection is being appealed. A notice of appeal that does not identify any claims would be accepted as an appeal of all of the rejected claims, unless the appeal brief indicates otherwise. Therefore, if appellant files a notice of appeal and appeal brief that do not clearly limit the appeal to fewer than all of the rejected claims, all of the rejected claims would be considered to be on appeal. The BPAI will have the jurisdiction to review the examiner's decision as to all of the rejected claims and all of the grounds of rejection set forth by the examiner.

If a notice of appeal does not identify the claims on appeal and its appeal brief contains inconsistency regarding whether all of the rejected claims are being appealed (*e.g.*, appellant lists fewer than all of the rejected claims in the status of claims section of the appeal brief and then lists all of the rejected claims in the grounds of rejection to be reviewed on appeal section, or other sections, of the appeal brief), all of the rejected claims would be considered to be on appeal. If a notice of appeal does not identify the claims on appeal and all of the sections of its appeal brief consistently identify fewer than all of the rejected claims being appealed, then the appeal brief has clearly limited the appeal to fewer than all of the rejected claims and the non-appealed rejected claims will be deemed canceled by operation of the filing of such an appeal brief as of the date on which the appeal brief is filed.

The proposed procedure will apply to notices of appeal and appeal briefs filed under 37 CFR 41.31 and 41.37.

Similarly, the proposed procedure will also apply to notices of appeal or cross appeal and appeal briefs filed by patent owners in *ex parte* and *inter partes* reexamination proceedings.

SUPPLEMENTARY INFORMATION: Section 702 of the Trade Agreements Act of 1979 (as amended) (“the Act”) requires the Department of Commerce (“the Department”) to determine, in consultation with the Secretary of Agriculture, whether any foreign government is providing a subsidy with respect to any article of cheese subject

to an in-quota rate of duty, as defined in section 701(c)(1) of the Act, and to publish an annual list and quarterly updates to the type and amount of those subsidies. We hereby provide the Department's quarterly update of subsidies on articles of cheese that were imported during the period July 1, 2009, through September 30, 2009.

The Department has developed, in consultation with the Secretary of Agriculture, information on subsidies (as defined in section 702(h)(2) of the Act and section 771(5) of the Tariff Act of 1930, as amended (“Tariff Act”), being provided either directly or indirectly by foreign governments on articles of cheese subject to an in-quota rate of duty. The Department will incorporate additional programs which are found to constitute subsidies, and additional information on the subsidy programs listed, as the information is developed.

The Department encourages any person having information on foreign government subsidy programs which benefit articles of cheese subject to an in-quota rate of duty to submit such information in writing to the Assistant Secretary for Import Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., NW, Washington, DC 20230.

This determination and notice are in accordance with section 702(a)(2) of the Act.
