

planned pile driving sessions, during pile driving sessions, and for a minimum of 1 hour after pile driving or other work is completed.

On-site biological monitor(s) are required to collect the following information related to harbor seals: (1) date; (2) time of arrival/departure of monitor(s) and work crew; (3) number of harbor seals on the beach; (4) number of harbor seals in the water; (5) number of adults, subadults, and pups; (6) number of molting seals; (7) disturbance reactions observed; and (8) Concurrently, the monitor(s) will record type of repair activity (including specific equipment used), location of activity, and duration of activity. The monitor(s) will also collect the following information related to environmental conditions: (1) date; (2) time; (3) cloud cover; (4) visibility; (5) wind direction; (6) wind velocity; (7) swell direction; (8) swell height; and (9) tidal stage. The presence of other marine mammal species on the beach and in the water is also a requirement.

The NMFS-approved biological monitor has the authority under the IHA to prevent pile driving operations from commencing if a harbor seal pup is sighted on the beach. If a harbor seal pup is sighted after pile driving has begun, then the monitor is required to notify Venoco, who must stop pile driving as soon as operationally practicable and consult immediately with NMFS' Southwest Regional Office.

Reporting

During periods of operation, Venoco will provide weekly reports to NMFS' Southwest Regional Administrator, including a summary of the previous week's monitoring activities and an estimate of the number of seals that may have been disturbed as a result of repair activities. A description of the repair activities at the time of observation will also be provided.

An interim report must be submitted to the Southwest Regional Administrator on or about July 30, 2001. This report will contain a description of the methods, results, and interpretation of all monitoring tasks. A draft final report is due 90 days after expiration of the IHA. If comments are received from the Regional Administrator on the draft final report, then the final report must be submitted to the Southwest Regional Administrator within 30 days after receiving comments. If no comments are received from the Southwest Regional Administrator, the draft final report will be considered the final report.

Endangered Species Act (ESA) Consultation

This proposed authorization would not allow the take of any species listed as endangered or threatened under the ESA; therefore, no ESA Section 7 consultation was necessary for issuance of the IHA.

Coastal Zone Management Act Consistency

On November 19, 2001, the California Coastal Commission issued a conditioned emergency permit to Venoco, Inc. to begin repair activities on the Carpinteria pipeline. The determination to issue an emergency permit was based on the conclusion of the Commission that an imminent threat to the nearby seal haul-out and the marine environment will exist if repairs to the pipeline are not made due to inadequate support of the pipeline during the winter storm season. The Commission's emergency permit contains conditions similar to NMFS' IHA designed to prevent the "take" of marine mammals during the course of Venoco's activities. All of the marine mammal conditions were added to the Coastal Commission's permit in close consultation with NMFS.

Conclusions

NMFS has determined that the impact of conducting repair activities at the Carpinteria Oil and Gas Processing Facility in Carpinteria, CA, will have a negligible impact on Pacific harbor seal stocks in California. While behavioral modifications may be made by individuals to avoid the resultant noise and activities, the avoidance of the area is not reasonably expected to, and is not reasonably likely to, adversely affect the annual rates of recruitment or survival of the stock.

The number of potential harassment takings is estimated to be small. In addition, no take by injury or death is anticipated, and the potential for such taking will be avoided through the incorporation of the mitigation measures mentioned in this document and in the IHA. Haul-out sites, rookeries, mating grounds, areas of concentrated feeding, and other areas of special significance for harbor seals within or near the planned area of operations will be avoided in order to minimize any potential impacts.

Authorization

NMFS has issued an IHA for repair activities at the Carpinteria Oil and Gas Processing Facility in Carpinteria, CA from November 28, 2001, until November 28, 2002, provided the mitigation, monitoring, and reporting

requirements defined by NMFS in the IHA are implemented successfully. NMFS has determined that the proposed activity would result in the harassment of only small numbers of Pacific harbor seals and would have a negligible impact on stocks of harbor seals in California waters.

BILLING CODE 3510-22-S

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Announcement of Import Restraint Limits for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in Pakistan

December 4, 2001.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing limits.

EFFECTIVE DATE: January 1, 2002.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927-5850, or refer to the U.S. Customs website at <http://www.customs.ustreas.gov>. For information on embargoes and quota re-openings, refer to the Office of Textiles and Apparel website at <http://otexa.ita.doc.gov>.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The import restraint limits for textile products, produced or manufactured in Pakistan and exported during the period January 1, 2002 through December 31, 2002 are based on limits notified to the Textiles Monitoring Body pursuant to the Uruguay Round Agreement on Textiles and Clothing (ATC).

Pursuant to the provisions of the ATC, the third stage of the integration of textile and apparel products into the General Agreement on Tariffs and Trade 1994 will take place on January 1, 2002

(see 60 FR 21075, published on May 1, 1995). Accordingly, certain previously restrained categories have been modified and their limit has been revised, and other limits have been eliminated. Integrated products will no longer be subject to quota.

In the letter published below, the Chairman of CITA directs the Commissioner of Customs to establish the 2002 limits.

Carryforward that has been applied to the 2001 limits is being deducted from the 2002 limits.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 65 FR 82328, published on December 28, 2000). Information regarding the availability of the 2002 CORRELATION will be published in the **Federal Register** at a later date.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

December 4, 2001.

Commissioner of Customs,

⁵ Category 369-S: only HTS number 6307.10.2005.

⁶ Category 666-P: only HTS numbers 6302.22.1010, 6302.22.1020, 6302.22.2010, 6302.32.1010, 6302.32.1020, 6302.32.2010 and 6302.32.2020.

⁷ Category 666-S: only HTS numbers 6302.22.1030, 6302.22.1040, 6302.22.2020, 6302.32.1030, 6302.32.1040, 6302.32.2030 and 6302.32.2040.

The limits set forth above are subject to adjustment pursuant to the provisions of the ATC and administrative arrangements notified to the Textiles Monitoring Body.

Products in the above categories exported during 2001 shall be charged to the applicable category limits for that year (see directive dated November 2, 2000) to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such products shall be charged to the limits set forth in this directive.

Products to be integrated into the General Agreement on Tariffs and Trade 1994 on January 1, 2002 (listed in the **Federal Register** notice published on May 1, 1995, 60 FR 21075) which are exported during 2001 shall be charged to the applicable 2001 limits to the extent of any unfilled balances. After January 1, 2002, should those 2001 limits be filled, such products shall no longer be charged to any limit.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

D. Michael Hutchinson,
Acting Chairman, Committee for the Implementation of Textile Agreements.
