

conduct well-designed, rigorous research and portfolio evaluation studies.

Burden on the Public: Estimated at 82 hours per award for 102 awards for a total of 8,364 hours (per year).

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: April 30, 2021.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NATIONAL SCIENCE FOUNDATION

Notice of Networking and Information Technology Research and Development Science, Technology, Engineering, and Math (STEM) Portal

AGENCY: Networking and Information Technology Research and Development (NITRD) National Coordination Office (NCO), National Science Foundation.

ACTION: Notice.

SUMMARY: The Networking and Information Technology Research and Development Program is announcing a Science, Technology, Engineering, and Math (STEM) Portal that provides a one-stop resource for Federal cyberlearning, computational literacy, and information technology training opportunities at all education levels to champion a diverse, inclusive, and well-trained workforce capable of future innovations. The resource provides details on programs targeting all levels of education and experience.

DATES: The guidance portal is accessible by the public on May 6, 2021.

ADDRESSES: NITRD's STEM Portal is available at <https://www.nitrd.gov/STEM4ALL/>.

FOR FURTHER INFORMATION CONTACT:

Adrian Baranyuk, nco@nitrd.gov, or 202-459-9687.

SUPPLEMENTARY INFORMATION: Increasing the availability of STEM opportunities is a priority in the Biden-Harris Administration. Computational literacy is critical for America to maintain leadership in science and technology. NITRD and its participating agencies are prioritizing STEM education at all levels, to champion a diverse, inclusive, and well-trained workforce capable of future innovation. This portal was developed to cultivate STEM engagement and training; it provides the entry into an exciting and dynamic career.

This STEM Portal provides programs targeted to all levels of experience so there is something for everyone interested in technology careers and advanced training. It gives in one location a searchable database of opportunities at Federal agencies for internships, scholarships, and other training programs. Each listing includes the description, link, and contact information for the program. The search filters provide flexibility to target the opportunities of interest. The pull-down menu for *Education Level Eligibility* provides opportunities for community college students, undergraduates and graduates, postdoctoral fellows, early career researchers, K-12 Educators, and K-12 students.

Submitted by the National Science Foundation in support of the Networking and Information Technology Research and Development (NITRD) National Coordination Office (NCO) on May 3, 2021.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NUCLEAR WASTE TECHNICAL REVIEW BOARD

Virtual Public Board Meeting To Review the U.S. Department of Energy's Activities To Evaluate Advanced Nuclear Fuels

Board meeting: May 12-13, 2021—The U.S. Nuclear Waste Technical Review Board will hold a virtual public meeting to review information on the U.S. Department of Energy's (DOE) activities to evaluate advanced nuclear fuels including accident tolerant fuels for light water reactors and the impact of these fuels on spent nuclear fuel management and disposal.

Pursuant to its authority under section 5051 of Public Law 100-203, Nuclear Waste Policy Amendments Act (NWPAA) of 1987, the U.S. Nuclear Waste Technical Review Board will hold a virtual public meeting on Wednesday, May 12, 2021, and Thursday, May 13, 2021, to review information on the U.S. Department of Energy's (DOE) activities to evaluate advanced nuclear fuels including accident tolerant fuels for light water reactors and the impact of these fuels on spent nuclear fuel (SNF) management and disposal.

The meeting will begin on both days at 12:00 p.m. Eastern Daylight Time (EDT) and is scheduled to adjourn at 5:00 p.m. EDT on both days. On May 12, speakers representing the DOE Office of Nuclear Energy and the national laboratories conducting the work for DOE will report on DOE's activities to support and evaluate these fuels both prior to, and after, their use in nuclear reactors. Speakers will describe DOE's program, including its purpose, scope, goals, and technical approach for obtaining information that may be needed for managing the advanced nuclear fuels including accident tolerant fuels once removed from the reactors and disposing of the SNF. A representative from the nuclear industry will also discuss efforts to develop new metallic fuel for light water reactors. Speakers from the U.S. Nuclear Regulatory Commission will describe their plans and progress to assess the regulatory implications of accident tolerant fuels and their potential impact on storage, transportation, and disposal. On May 13, speakers from Switzerland, Sweden, and the United Kingdom will describe their respective efforts to address the introduction and use of advanced nuclear fuels including accident tolerant fuels for light water reactors and the impact of these fuels on SNF management and disposal. The meeting will end with a panel discussion of speakers from both days of the meeting. A detailed meeting agenda will be available on the Board's website at www.nwtrb.gov approximately one week before the meeting.

The meeting will be open to the public, and opportunities for public comment will be provided. Details on how to submit public comments during the meeting will be provided on the Board's website along with the details for viewing the meeting. A limit may be set on the time allowed for the presentation of individual remarks. However, written comments of any length may be submitted to the Board staff by mail or electronic mail. All comments received in writing will be
