**SUPPLEMENTARY INFORMATION:** The Gulf, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NMFS and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop, and (2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf, South Atlantic, and Caribbean Fishery Management Councils and NMFS Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen,

environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the SEDAR 90 Post Data Workshop Webinar 2 are as follows:

- Review any data issues remaining.
- Finalize any data decisions remaining.
- Continue discussion on modelling issues and decisions.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

**Special Accommodations**

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

**SUPPLEMENTARY INFORMATION:** The Hydrographic Services Improvement Act of 1998, as amended (HSIA; 33

The HSRP invites NOAA stakeholder feedback on NOAA’s navigation, observations, and positioning data, science, products, and services for the National Ocean Service’s Center for Operational Oceanographic Products and Services, National Geodetic Survey, and Office of Coast Survey, and the NOAA/University of New Hampshire Joint Hydrographic Center.
