POSTAL SERVICE

Privacy Act of 1974, System of Records

AGENCY: Postal Service.

ACTION: Notice of new system of records.

SUMMARY: The purpose of this document is to publish notice of a new Privacy Act system of records, USPS 400.010, eServices Customer Program Records—USPS eServices Registration System (eRS). The new system contains records about individuals and companies who register to use Postal Service Internet-based services.

DATES: Any interested party may submit written comments on the proposed new system of records. This proposal will become effective without further notice on May 9, 2001, unless comments received on or before that date result in a contrary determination.

ADDRESSES: Written comments on this proposal should be mailed or delivered to Finance Administration/FOIA, United States Postal Service, 475 L'Enfant Plaza SW., Rm 8141, Washington, DC 20260–5202. Copies of all written comments will be available at the above address for public inspection and photocopying between 8 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Robert J. Faruq at (202) 268–2608.

SUPPLEMENTARY INFORMATION: The United States Postal Service (USPS) is developing a variety of services that have an Internet-based customer interface and/or service capability. USPS eServices Registration provides a centralized infrastructure platform and method for customers to register with the USPS in order to use these services. This notice establishes a new Privacy Act system of records, USPS 400.010, the USPS eServices Registration System, to cover records collected and maintained as a result of customers registering for USPS Internet-based services.

To register, a customer is required to fill out an e-Form presented via the eServices Registration portion of the USPS Web site (<http://www.usps.com>).

The USPS eServices Registration System standardizes a customer's registration process for all services that use it as a registration interface. It provides a customer the ability to register through one interface, making the registration process for various USPS applications convenient and efficient. While capturing application-specific user information for each online service offered by the USPS, the
