

application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project has two installation option alternatives; an in-stream method and a short diversion method. The in-stream option would consist of the following: (1) A gated water intake canal; (2) a 330-foot-long diversion canal; (3) a 30-foot-wide concrete diversion approximately 1,300 feet in length; (4) a 50-by-40-foot powerhouse and turbine structure enclosing one Kaplan turbine and generator; and (5) appurtenant facilities. The proposed project would have a total installed capacity of 2.2 megawatt and generate an estimated average annual energy production of 9,850 megawatt-hours by diverting existing stream flow into the diversion canal.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9798-8]

Clean Water Act: Availability of List Decisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice and initial request for public input.

SUMMARY: The Clean Water Act requires that States periodically submit, and EPA approve or disapprove, lists of waters (called "Section 303(d) lists") for which existing technology-based pollution controls are not stringent enough to attain or maintain State water quality standards and for which total maximum daily loads (TMDLs) must be prepared. Waters identified on Section 303(d) lists are called "water quality limited segments." This notice announces EPA's proposal to include in West Virginia's Section 303(d) list certain water quality limited segments and requests public comment.

On March 25, 2012 EPA partially approved West Virginia's 2012 Section 303(d) list of water quality limited segments and associated pollutants and partially disapproved West Virginia's submission to the extent that West Virginia did not identify certain water quality limited segments. EPA proposes to identify these additional water quality limited segments for inclusion on the State's 2012 section 303(d) list. The proposed water quality limited segments are identified in Enclosure 3
