SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Survey on the Strengths and Challenges of Military Relationships; OMB Control Number 0704–SCMR.

Needs and Uses: This collection is a DoD-sponsored comprehensive research study on the military-specific risk factors for domestic abuse and the best approaches across the coordinated community response to mitigate those factors. This collection is necessary to identify sustainable solutions to decreasing incidents and preventing violence before it occurs. This project is required by statute and will support (a) the programmatic needs of the sponsoring office: The Family Advocacy Program with Military Community and Family Policy, (b) Congressional requirements per SEC. 549C of the FY21 National Defense Authorization Act, (c) the current administration's priority to address gender-based violence, and (d) implementation of some recommendations contained in the U.S.

Government Accountability Office Report 21–289, released May 6, 2021.

Domestic abuse can result in devastating personal consequences and societal costs, is incompatible with military values, and reduces mission readiness. The (OUSD(P&R)) Strategy for 2030 identifies a goal of resilient and adaptive total force. Without this study, the DoD risks continued incidents of domestic abuse across the armed forces. This survey will be fielded with active-duty married service members, active-duty unmarried service members in romantic relationships, and spouses of active-duty service members. Respondents will provide information, currently not available from other sources, to help DoD understand the strengths and challenges facing military couples, and in particular, the risk factors for and outcomes of military domestic abuse. Survey results will be used by the sponsor to improve the domestic abuse prevention and response system to better serve the needs of today's military couples.
