

Volume (IHPV) Challenge Program in the near future. The Agency is considering applying the general approach used in the HPV Challenge Program (sponsorship commitments, development of test plans, public review step, completion of data package, and submission to EPA) as well as the inorganics guidance developed by the Organization for Economic Cooperation and Development (OECD) for use in its HPV Program. Additional information on OECD's guidance on inorganics can be found at: http://www.oecd.org/document/7/0,3343,en_2649_34379_1947463_1_1_1_1,00.html.

It is anticipated that an IHPV Challenge Program, if started in 2008, could be completed by approximately 2011–2012. The 2011 IUR reporting cycle will include exposure/use data for inorganic HPV chemicals which would allow for EPA to consider both hazard and exposure elements and develop RBP's for these chemicals. An assessment approach similar to that for organic MPV chemicals could be applied to inorganic medium production volume (IMPV) chemicals at a later date.

The second new initiative concerns an effort to potentially "reset" the TSCA Inventory. The original TSCA Inventory was compiled in 1979 consisting of 62,000 chemicals. Since then approximately 21,000 new chemicals have been added to the TSCA Inventory. Under TSCA section 8(b), EPA is required to "compile, keep current, and publish a list of each chemical substance which is manufactured or processed in the United States." Pursuant to this authority, and in an effort to better understand the universe of chemicals actually in commerce at present, EPA is considering an effort to reset the TSCA Inventory. While there are a number of issues and questions that would need to be resolved if EPA does move forward with this effort it necessarily will need to obtain information on currently manufactured and/or imported chemicals. Additional information on ChAMP and EPA's current thinking can be found at: <http://www.epa.gov/CHAMP>.

C. Why is EPA Taking This Action?

EPA believes that ChAMP provides a sound basis for realizing further progress by EPA on assessing and managing chemicals. The SPP effort has great potential to achieve greater public health and environmental protection by promoting a more integrated approach to chemicals assessment and management in North America. By sharing information and the assessment

burden North America will be able to more quickly, efficiently, and cost-effectively determine the need for, and possibly take, risk management actions on a greater number of chemicals. Work done by the U.S. to meet its 2012 SPP commitment represents an important contribution to this effort and to meeting U.S. domestic chemical assessment and management needs. The two new initiatives being considered complement and strengthen ChAMP by expanding EPA's efforts to include inorganic HPV chemicals and an effort focused on resetting the TSCA Inventory.

III. How Can I Request to Participate in this Meeting?

You may submit a request to participate in this meeting to the technical person listed under **FOR FURTHER INFORMATION CONTACT**. Do not submit any information in your request that is considered CBI. Requests to participate in the meeting, identified by docket ID number EPA-HQ-OPPT-2008-0317, must be received on or before April 28, 2008.

List of Subjects

Environmental protection, Chemicals, European Union, Hazardous chemicals, High Production Volume (HPV) chemicals, Medium Production Volume (MPV) chemicals, TSCA Inventory.

Dated: April 11, 2008.

Wendy C. Hamnett,

Acting Director, Office Pollution Prevention and Toxics.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8555-3]

Public Water System Supervision Program Revision for the State of Arkansas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed approval.

SUMMARY: Notice is hereby given that the State of Arkansas is revising its approved Public Water System Supervision Program. Arkansas has adopted the Stage 2 Disinfectant and Disinfection Byproducts Rule (DDBPR) to increase public health protection by reducing the potential risk of adverse health effects associated with disinfection byproducts throughout the distribution system. In addition, the State of Arkansas has adopted the Long

Term 2 Enhanced Surface Water Treatment Rule (LT2ESWTR) to improve public health protection through the control of microbial contaminants by focusing on systems with elevated *Cryptosporidium* risk. EPA has determined that the proposed Stage 2 DDBPR and LT2ESWTR revisions submitted by Arkansas are no less stringent than the corresponding federal regulations. Therefore, EPA proposes to approve these program revisions.

DATES: All interested parties may request a public hearing. A request for a public hearing must be submitted by May 19, 2008 to the Regional Administrator at the EPA Region 6 address shown below. Requests for a hearing may be denied by the Regional Administrator. However, if a substantial request for a public hearing is made by May 19, 2008, a public hearing will be held. If no timely and appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on his own motion, this determination shall become final and effective on May 19, 2008. Any request for a public hearing shall include the following information: the name, address, and telephone number of the individual, organization, or other entity requesting a hearing; a brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and the signature of the individual making the request or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

ADDRESSES: All documents relating to this determination are available for inspection between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, at the following offices: Arkansas Department of Health, Division of Engineering, 4815 West Markham, Little Rock, Arkansas 72205; and the EPA Region 6, Drinking Water Section (6WQ-SD), 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202.

FOR FURTHER INFORMATION CONTACT: Amy Camacho, EPA Region 6, Drinking Water Section at the Dallas address given above or at telephone (214) 665-7175, or camacho.amy@epa.gov.

Authority: Section 1413 of the Safe Drinking Water Act, as amended (1996), and 40 CFR part 142 of the National Primary Drinking Water Regulations.

Dated: April 10, 2008.

Richard E. Greene,

Regional Administrator, Region 6.

FEDERAL COMMUNICATIONS COMMISSION

Sunshine Act Meeting

April 11, 2008.

FCC Announces April Open Meeting on Broadband Network Management Practices at Stanford University

The Federal Communications Commission (FCC) today announced that its April Open Meeting will be a public *En Banc* hearing to be hosted by Stanford Law School's Center for Internet and Society (CIS) at Stanford University in Palo Alto, California on Thursday, April 17, 2008.

The hearing information is as follows:

DATE: April 17, 2008.

TIME: 12 Noon (Pacific).

LOCATION: Dinkelspiel Auditorium, 471 Lagunita Drive, Stanford University, Palo Alto, California.

MAPS/DIRECTIONS: <http://campus-map.stanford.edu/index.cfm?ID=02-200>
<http://music.stanford.edu/Events/directions.html>.

Agenda

12 p.m.

Welcome/Opening Remarks

12:45 p.m.

Panel Discussion 1—Network Management and Consumer Expectations

2:15 p.m.

Break

3 p.m.

Panel Discussion 2—Consumer Access to Emerging Internet Technologies and Applications

4:30 p.m.

Public Comment

6:30 p.m.

Closing Remarks

7 p.m.

Adjournment

The Commission will hear from expert panelists regarding broadband network management practices and Internet-related issues. The hearing scheduled at Stanford University is the second such hearing on broadband network management practices and Internet-related issues to be held by the FCC and follows a similar hearing held at Harvard Law School last month (for more information: <http://www.fcc.gov/headlines.html>—go to February 25, 2008 headline: 'FCC *En Banc* Hearing on

Broadband Network Management Practices, Cambridge, Massachusetts'). The hearing at Stanford University is open to the public, and seating will be available on a first-come, first-served basis. Additional details on this hearing will be forthcoming.

The public may file comments or other documents with the Commission and should reference docket numbers 07-52 and 08-7 when filing by paper or submit your filing electronically by going to http://gulfoss2.fcc.gov/prod/ecfs/upload_v2.cgi and enter proceeding numbers 07-52 and 08-7. Electronic filers need to complete cover forms separately for each docket because the system accepts only one docket number per filing. Filing instructions are provided at <http://www.fcc.gov/cgb/ecfs/>.

Sign language interpreters and open captioning will be provided for this event. Other reasonable accommodations for people with disabilities are available upon request. Include a description of the accommodation needed, and include a way we can contact you if we need more information. Please make your request as early as possible. Last minute requests will be accepted, but may be impossible to fill. You may send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (Voice), 202-418-0432 (TTY).

For additional information about the hearing, please visit the FCC's Web site at <http://www.fcc.gov>. Press inquiries should be directed to Robert Kenny at 202-418-2668 or Clyde Ensslin at 202-418-0506.

Federal Communications Commission.

William F. Caton,

Deputy Secretary.

GENERAL SERVICES ADMINISTRATION

[GSA Bulletin FMR 2008-B2]

Real Property Federal Asset Sales

AGENCY: General Services Administration.

ACTION: Notice of Bulletin.

SUMMARY: In 2001, the President's Management Council selected the Federal Asset Sales (eFAS) initiative as one of the President's Electronic Government initiatives. The eFAS initiative is designed to make it easier for citizens and businesses to locate available Government assets, both real

and personal, from a single portal location. The attached Bulletin provides instructions to Federal agencies on the advertising and reporting of sales of Federally-owned real property in accordance with the eFAS initiative. The General Services Administration will be publishing the posting and reporting requirements described in the Bulletin in an amendment to the Federal Management Regulation shortly.

EFFECTIVE DATE: April 17, 2008.

FOR FURTHER INFORMATION CONTACT:

Stanley Langfeld, Director, Regulations Management Division, Office of Governmentwide Policy, on 202-501-1737, or by sending an e-mail message to stanley.langfeld@gsa.gov.

Dated: April 9, 2008.

Kevin Messner,

Acting Associate Administrator, Office of Governmentwide Policy.

Real Property

TO: Heads of Federal agencies

SUBJECT: Real Property Federal Asset Sales

1. *Purpose.* This Bulletin provides general information to Federal agencies concerning the sale of Federally-owned real property in accordance with the Federal Asset Sales (eFAS) initiative, one of the President's Electronic Government (E-Gov) initiatives. It contains instructions requiring Federal agencies to utilize the Federal Asset Sales portal (GovSales.gov) when advertising surplus real property and provides instructions to Federal agencies for reporting sales of real property.

2. *Expiration.* This Bulletin contains information of a continuing nature and will remain in effect until canceled.

3. *Background.* Each year, the Federal Government disposes of real and personal property. In 2001, the President's Management Council selected the eFAS initiative as one of the President's E-Gov initiatives. Prior to 2001, Federal agencies used multiple methods to market excess property, making it difficult for the public to locate and buy surplus Federal assets. This initiative strives to simplify locating government assets for sale, and to improve the promotion of Government sales through a centralized, citizen-centric web portal solution. The vision of the eFAS portal solution is to create a secure, efficient and effective online single-point of entry for the public to seek Federally-owned real and personal property assets available for sale.

In September 2005, representatives from the Department of Agriculture (USDA), the Department of Housing and Urban Development (HUD), the Department of Veterans Affairs (VA), and the General Services Administration's (GSA) Public Buildings Service developed and launched the Real Property Asset Listing Portal, a web-based entry point designed to facilitate the sale of surplus Government real property assets. In October 2006, the GovSales.gov website was launched as part of the eFAS Presidential E-Gov initiative.
