Projects Abstract Summary, OMB Control No. 4040-0019

Description of the need for the information and proposed use: HUD is required by 2 CFR 200.204 to publicly announce the availability of discretionary awards that are competed. To ensure grants and cooperative agreements are awarded to applicants best suited to perform the functions of the awards, applicants are generally

required to perform two pre-award steps, the submission of the application and the negotiation of the individual award terms. The first part of HUD's funding applications consists of submitting the Standard Form 424 (SF-424), "Application for Federal Assistance" along with mandatory and optional standard government-wide and HUD forms. The burden associated with these government-wide forms are reflected in separate OMB-sponsored government-wide information collections and are not reflected in this collection.

After the applicants have been selected as part of an objective competition process, HUD usually requires negotiation between HUD and the selected applicant to determine the terms of the award. A technical proposal (or technical submission) is required during the negotiation process. The technical proposal demonstrates the selected applicant's capabilities in accordance with the application or statement of work submitted with the application and/or selection criteria and other related information as specified in the funding announcement.

The provisions of 2 CFR 200.207 instruct Federal agencies to comply

with the requirements of 5 CFR part 1320, "Controlling Paperwork Burdens on the Public," with regard to all forms or collection of additional information used by HUD in place of or as a supplement to the SF-424 series.

Respondents: Applicants for HUD's competitively funded financial assistance programs.

Information Collection/Form Number: SF 424 (4040-0004); SF-424B (4040-0007); SF-424D (4040-0009); SF 424A (4040-0006); SF-424C (4040-0008); SF LLL (4040-0013); Lobbying Form (4040-0013); Project Abstract Summary (4040-0019); HUD-424B; HUD-424CB; HUD-424CBW; HUD-424M; HUD-2880; HUD-50070; Rural Cert; HUD 50153; HUD 2991; HUD 2993; Program specific requirements and rating factors (narrative and other attachments)

Estimated Number of Respondents: HUD bases the following estimates on historical experience. HUD's average of 45 funding announcements per fiscal year will fall under this generic request, plus an expected average of 10 NOFOs derived from supplemental funding enacted outside of the regular appropriations process. Additionally, the Department projects that it will

receive approximately 30,000 applications annually.

Frequency of Response: Refer to Table 1.

Responses per Annum: Refer to Table 1.

Average Burden Hours per Response: HUD estimates it takes an average of 40 working hours to prepare and submit an application in *grants.gov* in response to a funding announcement. For applications submitted through *esnaps.gov*, HUD estimates it takes an average of 100 working hours, including completing the registration in *esnaps.hud.gov*, preparing and submitting an application and technical submission, and proper storage of records.

Total Estimated Burdens: For purposes of this information collection request, the HUD has used the average hourly earnings of a Project Management Specialist (\$48.85 per hour) to monetize the value of respondent time. Therefore, the burden for these reporting activities is as follows using average response times:
 30,000 applications * 140 hours * 1.2 frequency = 5,040,000 hours
 5,040,000 hours * \$48.85 = \$246,204,000

HUD bases the following estimates on historical experience. HUD estimates it takes an average of 30 working hours for HUD to complete its pre-award activities associated with competitive applications, including parts 1 and 2 of the pre-award process. This includes activities related to proper storage of related records. For purposes of this information collection request, HUD has used a GS 13 step 5 rate (\$51.25 per

hour) to monetize the value of HUD time. Therefore, the burden for pre-award activities is as follows using average response times:

30,000 applications * 30 hours * 1.2 frequency = 1,080,000 hours
 1,080,000 hours * \$51.25 = \$55,350,000

If the Department incurs any unique start-up or operational and maintenance costs with the collection of information

covered by this ICR, HUD will include them on the request to OMB.

Endangered and Threatened Species; Receipt of Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits to conduct activities intended to enhance the propagation or survival of endangered or threatened species under the Endangered Species Act. We invite the

public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments on or before November 6, 2023.

ADDRESSES: Document availability and comment submission: Submit requests for copies of the applications and related documents and submit any comments by one of the following methods. - *U.S. Mail:* Susie Tharratt, Regional Recovery Permit Coordinator, U.S. Fish and Wildlife Service, 2800 Cottage Way, Room W-2606, Sacramento, CA 95825.

FOR FURTHER INFORMATION CONTACT: Susie Tharratt, via phone at 916-414-6561, or via email at permitsR8ES@fws.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the applicants to conduct activities intended to promote recovery of species that are listed as endangered or threatened under the ESA.

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activity. The ESA's definition of "take" includes such activities as pursuing, harassing, trapping, capturing, or collecting, in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. These activities often include such prohibited actions as capture and collection. Our regulations implementing section 10(a)(1)(A) for these permits are found in the Code of Federal Regulations at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild. The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies.
