

is administrative in nature, and does not involve any changes in the types or increase in the amounts of any effluents that may be released offsite.

Requirements in 10 CFR 51.22(c)(25)(iii):

There is no significant increase in individual or cumulative public or occupational radiation exposure. Since the proposed action involves only a schedule change, which is administrative in nature, it does not contribute to any significant increase in individual or cumulative public or occupational radiation exposures.

Requirements in 10 CFR 51.22(c)(25)(iv):

There is no significant construction impact. Since the proposed action involves only a schedule change related to the timing for submittal of UFSAR updates, which is administrative in nature, it does not involve any construction impact.

Requirements in 10 CFR 51.22(c)(25)(v):

There is no significant increase in the potential for or consequences from radiological accidents. The proposed action involves only a schedule change related to the timing for submittal of UFSAR updates, which is administrative in nature and does not impact the potential for or consequences from radiological accidents.

Requirements in 10 CFR 51.22(c)(25)(vi):

The requirements from which the exemption is sought involve recordkeeping, reporting, scheduling, or other requirements of an administrative, managerial, or organizational nature. The proposed action involves recordkeeping, reporting, and scheduling requirements, and other requirements of an administrative, managerial, or organizational nature because it is associated with the schedule for submittal of UFSAR updates pursuant to 10 CFR 50.71(e)(4), and meets that regulation's requirement that the interval between successive updates does not exceed 24 months.

Based on the previously noted requirements, the NRC staff concludes that the proposed exemptions meet the eligibility criteria for the categorical exclusion set forth in 10 CFR 51.22(c)(25). Therefore, in accordance with 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared in connection with the NRC's issuance of these exemptions.

IV. Conclusions

Accordingly, the Commission has determined that, pursuant to 10 CFR part 50.12, the requested exemptions are

authorized by law, will not present an undue risk to public health and safety, and are consistent with the common defense and security. Also, special circumstances, pursuant to 10 CFR 50.12(a)(2)(ii), are present. Therefore, the NRC hereby grants SNC an exemption from the requirements of 10 CFR 50.71(e)(4) to allow SNC to file its periodic updates to the Farley, Units 1 and 2, UFSAR by October 31 of odd-numbered years, not to exceed 24 months from the last submittal, and to the Vogtle, Units 1 and 2, UFSAR by October 31 of even-numbered years, not to exceed 24 months from the last submittal.

The exemptions are effective upon issuance.

Dated: August 4, 2021.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-341; NRC-2020-0110]

Issuance of Exemption in Response to COVID-19 Public Health Emergency

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) issued one exemption in June 2021 in response to a request from one licensee for relief due to the coronavirus 2019 disease (COVID-19) public health emergency (PHE). The exemption affords the licensee temporary relief from certain requirements under NRC regulations.

DATES: On June 17, 2021, the NRC granted one exemption in response to a request submitted by one licensee on May 17, 2021.

ADDRESSES: Please refer to Docket ID NRC-2020-0110 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2020-0110. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical

questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

- *Attention:* The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request for copies of documents to the PDR via email at pdr.resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

James Danna, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-7422, email: James.Danna@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

On June 17, 2021, the NRC granted one exemption in response to a request submitted by one licensee dated May 17, 2021. The exemption temporarily allows the licensee to deviate from certain requirements of chapter I of title 10 of the *Code of Federal Regulations* (10 CFR), appendix E, "Emergency Planning and Preparedness for Production and Utilization Facilities," section IV.F., "Training."

The exemption grants DTE Electric Company (for Fermi, Unit 2), a schedular exemption from the offsite biennial emergency preparedness exercise requirement, allowing it to postpone the calendar year 2020 full-participation biennial emergency preparedness (EP) exercise until the end of calendar year 2021. The exemption affords this licensee temporary relief from the requirements of 10 CFR part 50, appendix E, regarding offsite response organization (ORO) participation in the biennial emergency preparedness exercise. The exemption will not adversely affect the emergency response capability of the facility because the licensee has conducted numerous drills, exercises, and other

training activities that have exercised the licensee's emergency response strategies since the last evaluated biennial emergency preparedness exercise and that State, county and local OROs have participated therein.

The table in this notice provides transparency regarding the number and type of exemptions the NRC has issued. Additionally, the NRC publishes tables

of approved regulatory actions related to the COVID-19 PHE on its public website at <https://www.nrc.gov/about-nrc/covid-19/reactors/licensing-actions.html>.

II. Availability of Documents

The table in this notice provides the facility name, docket number, document description, and ADAMS accession

number for the exemption issued. Additional details on the exemption issued, including the exemption request submitted by the licensee and the NRC's decision, are provided in the exemption approval listed in the table in this notice. For additional directions on accessing information in ADAMS, see the **ADDRESSES** section of this document.

FERMI, UNIT 2

[Docket No. 50-341]

Document Description	ADAMS Accession No.
Fermi, Unit 2—Request for Exemption from 10 CFR part 50, appendix E, Biennial Emergency Preparedness Exercise Requirements due to the COVID-19 Pandemic, dated May 17, 2021	ML21137A234
Fermi, Unit 2—Temporary Exemption from Biennial Emergency Preparedness Exercise Frequency Requirements of 10 CFR part 50, appendix E, sections IV.F.2.B and IV.F.2.C (EPID L-2021-LLE-0029 [COVID-19]), dated June 17, 2021	ML21159A054

Dated: August 6, 2021.

BILLING CODE 7590-01-P

POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service™.

ACTION: Notice of a modified system of records.

SUMMARY: The United States Postal Service® (Postal Service) is proposing to modify a General Privacy Act System of Records (SOR) to support the implementation of an online tool that will be used by the Government Relations and Public Policy department within the Postal Service to more effectively manage relationships with Congressional, federal, and state officials.

DATES: These revisions will become effective without further notice on September 10, 2021, unless, in response to comments received on or before that date result in a contrary determination.

ADDRESSES: Comments may be submitted via email to the Privacy and Records Management Office, United States Postal Service Headquarters (privacy@usps.gov). To facilitate public inspection, arrangements to view copies of any written comments received will be made upon request.

FOR FURTHER INFORMATION CONTACT: Janine Castorina, Chief Privacy and Records Management Officer, Privacy

and Records Management Office, 202-268-3069 or privacy@usps.gov.

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Privacy Act requirement that agencies publish their systems of records in the **Federal Register** when there is a revision, change, or addition, or when the agency establishes a new system of records. The Postal Service is proposing revisions to an existing system of records (SOR) to support the implementation of an online tool that will be used to track meetings and interactions for the Government Relations and Public Policy department within the Postal Service.

I. Background

The Government Relations and Public Policy (GRPP) department is responsible for managing public policy issues at all levels. This includes legislation and other policies affecting the Postal Service, as well as developing public policy strategy, tactics and messaging, and serving as the primary representative with Congress, the Executive Branch, and other government leaders. GRPP is implementing the use of an online tool used by public policy professionals across all industries to manage relationships with Congressional, federal, and state officials. The online tool also provides public policy professionals with enhanced legislative and public policy research and analysis tools. GRPP will primarily use the online tool to research and track legislative and public policy actions of members of Congress and Congressional committees to determine if such action could impact the Postal Service. Additionally, GRPP will use the communications features of the tool to send educational and advocacy

information to members of Congress and their staff, and to track the number of engagements with members of Congress and their staff for internal reporting purposes. GRPP will also enter notes in the tool to memorialize details of engagements with members of Congress and Congressional staff that will be maintained to provide historical perspectives to all GRPP personnel who may be involved in future engagements with the same officials.

II. Rationale for Changes to USPS Privacy Act Systems of Records

The Postal Service is proposing to modify USPS SOR 100.200 Employee Performance Records to support the implementation of an online tool by the GRPP department that will be used to more effectively manage relationships with Congressional, federal, and state officials. Implementation of the use of the online tool is expected to enhance legislative and public policy research, tracking and analysis capabilities, gain better insights on GRPP's Congressional engagements, and to enhance the ability for more centralized and trackable delivery of information to Congress.

A new Purpose is being added to SOR 100.200, Employee Performance Records, along with a new Category of Records and record retention and disposal policy that pertain to records maintained by the online tool. The Postal Service is also proposing administrative changes for system managers within the SOR to reflect recent organizational changes.

III. Description of the Modified System of Records

Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments on
