B. Overview of This Information Collection

Title: 301 Exclusion Requests.

OMB Control Number: 0350-0015, which expires on December 31, 2019.

Form Number(s): 301 Exclusion Request/Response/Reply Form; Exclusion Extension Comment Form.

Description: Following a comprehensive investigation, the U.S. Trade Representative determined that the Government of China's acts, policies, and practices related to technology transfer, intellectual property, and innovation were actionable under section 301(b) of the Trade Act of 1974 (19 U.S.C. 2411(b)). The U.S. Trade Representative determined that appropriate action to obtain the elimination of China's acts, policies, and practices related to technology transfer, intellectual property, and innovation included the imposition of additional *ad valorem* duties on products from China classified in certain enumerated subheadings of the Harmonized Tariff Schedule of the United States (HTSUS).

For background on the proceedings in this investigation, please see the prior notices issued in the investigation, including 82 FR 40213 (August 23, 2017), 83 FR 14906 (April 6, 2018), 83 FR 28710 (June 20, 2018), 83 FR 32181 (July 11, 2018), 83 FR 33608 (July 17, 2018), 83 FR 40823 (August 16, 2018), 83 FR 47236 (September 18, 2018), 83 FR 47974 (September 21, 2018), 83 FR 49153 (September 28, 2018), 83 FR 65198 (December 19, 2018), 83 FR 67463 (December 28, 2018), 84 FR 7966 (March 5, 2019), 84 FR 11152 (March 25, 2019), 84 FR 16310 (April 18, 2019), 84 FR 20459 (May 9, 2019), 84 FR 21389 (May 14, 2019), 84 FR 21892 (May 15, 2019), 84 FR 22564 (May 17, 2019), 84 FR 23145 (May 21, 2019), 84 FR 25895 (June 4, 2019), 84 FR 26930 (June 10, 2019), 84 FR 29576 (June 24, 2019), 84 FR 32821 (July 9, 2019), 84 FR 37381 (July 31, 2019), 84 FR 38717 (August 7, 2018), 84 FR 43304 (August 20, 2019), 84 FR 43853 (August 22, 2019), 84 FR 45821 (August 30, 2019), 84 FR 46212 (September 3, 2019), 84 FR 49591 (September 20, 2019), 84 FR 49564 (September 20, 2019), 84 FR 49600 (September 20, 2019), 84 FR 52567 (October 2, 2019), 84 FR 52553 (October

2, 2019), and 84 FR 57144 (October 24, 2019).

On May 15, 2019, USTR submitted a request to OMB for emergency processing of this ICR. OMB approved the emergency processing request on June 20, 2019, and assigned Control Number 0350-0015, which expires on December 31, 2019.

On June 24, 2019 (84 FR 29576), the U.S. Trade Representative established a process by which U.S. stakeholders could request the exclusion of particular products classified within a covered tariff subheading from the additional duties that went into effect as a result of this Section 301 investigation.

On June 30, 2019, USTR opened an electronic portal for submission of exclusion requests—<http://exclusions.ustr.gov>—using the approved ICR. Requests for exclusion have to identify a particular product and provide supporting data and the rationale for the requested exclusion. Within 14 days after USTR posts a request for exclusion, interested persons can provide a response with the reasons they support or oppose the request. Interested persons can reply to the response within 7 days after it is posted.

On August 22, 2019, USTR requested comments regarding its intent to seek a three-year renewal of the OMB control number for this ICR. See 84 FR 43853. As discussed further below, USTR received three submissions in response to the notice.

USTR also anticipates using the ICR to establish a process by which U.S. stakeholders can request and comment on the extension of particular exclusions granted under the December 2018 product exclusion notice.

As indicated above, USTR received three comments regarding the renewal of the ICR. Two comments requested that USTR add additional questions to the ICR; two comments requested the addition of clarifying language to certain questions; one comment identified a question as burdensome; one comment suggested improvements to the user experience for submitting the ICR through the online 301 exclusions portal; and one comment concerned the burden estimate.

USTR is revising the USTR after considering these comments and USTR's experience to date in administering the exclusion process. USTR added a new question (question 3) that asks if the product is subject to an antidumping or countervailing duty order issued by the U.S. Department of Commerce. USTR also added additional clarifying language to question 4, indicating that requestors, if necessary, may provide a range of unit values

when describing the product at issue. In addition, USTR updates the 301 portal to reduce the burden on submitters and currently is working to improve the user experience by increasing the character limit for certain fields to allow requestors additional space for their comments.

USTR also has created a condensed version of the ICR—the Exclusion Extension Comment Form (Annex B)—that interested parties will use to comment on whether to extend particular exclusions granted in December 2018. The condensed ICR reduces the number of data points in the 301 Exclusion Request/Response/Reply Form (Annex A).

The condensed ICR is comprised of Part A, which collects information that USTR will post for public inspection via *regulations.gov*, and Part B, which collects business confidential information (BCI) via email and will not be publicly available. The condensed ICR updates the collecting period for specific data to the most recent relevant period (*i.e.*, 2018, the first half of 2018, and the first half of 2019 or since 2018).

Part A includes language clarifying that for questions 4 and 5 commenters should “include information concerning any changes in the global supply chain since July 2018 with respect to the particular product.” The condensed ICR includes three new questions in Part A. Question 2 asks commenters to provide information necessary to identify the exclusion at issue, including the date of the **Federal Register** notice containing the exclusion, the 10-digit subheading of the HTSUS applicable to the exclusion, and the full article description for the exclusion. Question 3 asks commenters whether they support extending the exclusion and asks that they provide a public version

of their rationale. Question 6 asks commenters whether they will submit Part B of the questionnaire.

Part B adds two new questions, asking commenters to discuss whether Chinese suppliers have lowered their prices for products covered by the exclusion following the imposition of the duties and to provide any additional information in support of their comments taking into account the instructions provided in the **Federal Register** notice.

The revised ICR is included as Annex A to this notice. The condensed ICR for exclusion extension comments is included as Annex B.

Affected Public: U.S. stakeholders who want to request, or comment on a request, to exclude particular products from the additional duties on products from China classified in certain enumerated subheadings of the HTSUS and U.S. stakeholders who want to comment regarding the extension of the December 2018 product exclusions.

Frequency of Submission: One submission per request, response, reply, or comment.

Respondent Universe: U.S. stakeholders.

Reporting Burden:

Total Estimated Responses: 45,000 requests to exclude a particular product and/or comments to extend the December 2018 product exclusions; 5,250 responses to a product exclusion request; and 2,250 replies to a response.

Total Estimated Annual Burden: USTR estimates that preparing and submitting a request to exclude a particular product or commenting regarding an exclusion extension will take approximately 120 minutes and will cost about \$200 per submission. The total time burden for requests is 90,000 hours and the estimated total cost is \$9,000,000.

USTR estimates that preparing and submitting a response to a product exclusion request will take approximately 60 minutes, and will cost about \$100 per submission. The total time burden for responses is approximately 5,250 hours at an estimated total cost of \$525,000.

USTR estimates that preparing and submitting a reply will take approximately 30 minutes, and will cost about \$50 per submission. The total time burden for replies is approximately 1,125 hours and the estimated total cost is \$56,250.

USTR estimates that the cost to the Federal government to evaluate each request, and response or reply, if any, is 2.5 hours, for a total time burden of 112,500 hours at an estimated total cost of \$6,200,000. The \$6.2 million total cost estimate includes the average annual salary plus benefits, for the federal employees and contractors expected to work on the exclusion process. USTR estimates that it will take approximately one year to complete the process.

Status: Pursuant to the PRA and its implementing regulations, USTR is submitting a request to OMB to renew approval of this ICR for three years.
