SUPPLEMENTARY INFORMATION:

I. Abstract

EDA administers the Trade Adjustment Assistance for Firms (TAAF) Program, which is authorized under chapters 3 and 5 of title II of the Trade Act of 1974, as amended (19 U.S.C. 2341-2356) (Trade Act), through a national network of non-profit and university-affiliated Trade Adjustment Assistance Centers (TAACs), each of which serves a different geographic region. EDA certifies firms as eligible to participate in the TAAF Program and provides funding to allow eligible client-firms to receive adjustment assistance through the TAACs. The information collected on Form ED-840P, and relevant supporting documentation is used to determine whether a firm is eligible to participate in the TAAF Program. In accordance with the Trade Act and EDA's regulations as set out at 13 CFR part 315, EDA must verify that the following have occurred: (1) A significant reduction in the number or proportion of the workers in the firm, a reduction in the workers' wage or work hours, or an imminent threat of such reductions; (2) sales or production of the firm have decreased absolutely, or sales or production, or both, of any article or service accounting for at least 25 percent of the firm's sales or production has decreased absolutely; and (3) an increase in imports of articles or services like or directly competitive with those produced or provided by the petitioning firm, which has contributed importantly to the decline in

employment and sales or production of that firm. Additionally, to document the connection of increased imports to declining employment and sales or production, the firm must demonstrate that its customers have reduced purchases from the firm in favor of buying items or services from foreign suppliers. The use of Form ED-840P standardizes and limits the information collected as part of the certification process and eases the burden on applicants and reviewers alike.

In addition, after being certified as eligible for TAAF Program assistance following submission of Form ED-840P, firms must create an EDA-approved adjustment proposal in order to receive financial assistance under the TAAF Program. The adjustment proposal is each firm's business plan to remain competitive in the current global economy. Each adjustment proposal must meet certain requirements as set out in the Trade Act and EDA's regulation at 13 CFR 315.11. This notice also includes an estimate of the amount of time a firm spends to research and compile information for adjustment proposals.

Finally, the statutory authorization for the TAAF program is sunseting in two stages. First, on July 1, 2021, the TAAF program reverted to more limited eligibility criteria. Second, as of June 30, 2022, assistance may not be provided to new firms. After that date, assistance may only be provided to firms that have previously submitted a petition under the TAAF program. EDA wishes to extend the current information collection for the TAAF program so that EDA may continue to review and approve adjustment proposals from certified firms, and in case the TAAF program is re-authorized by Congress.

II. Method of Collection

Form ED-840P may be obtained in Portable Document Format (PDF) from EDA or the TAACs upon request. TAACs are responsible for preparing the petition for certification on the firm's behalf. Although there is no form associated with adjustment proposals, they must meet the requirements for adjustment proposals set out in EDA's regulation at 13 CFR 315.11. Both petitions for certification on Form ED-840P and adjustment proposals may be submitted electronically or via email to taac@eda.gov.
