## I. Background on the West Virginia Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its approved State program includes, among other things, State laws and regulations that govern surface coal mining and reclamation operations in accordance with the Act and consistent with the Federal regulations. See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the West Virginia program on January 21, 1981. You can find additional background information on the West Virginia program, including the Secretary’s findings, the disposition of comments, and conditions of approval of the West Virginia program in the January 21, 1981, **Federal Register** (46 FR 5915–5956). You can also find later actions concerning West Virginia’s program and program amendments at 30 CFR 948.10, 948.12, 948.13, 948.15, and 948.16.

## II. Description of the Proposed Amendment

By letter dated August 23, 2021 (Administrative Record No. 1658), we required WVDEP to submit a program amendment to ensure appropriate tracking of existing reclamation liabilities (including water treatment) at coal mining operations. This tracking must ensure that reclamation liabilities are accurate and up-to-date. Tracking will enable an accurate assessment of West Virginia’s alternative bonding system’s reclamation liabilities so that solvency of the State’s Special Reclamation Fund and the Special Reclamation Water Trust Fund can be determined. To comply with our request, West Virginia, by letter dated March 29, 2022 (Administrative Record No. 1666), sent us an amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*). The State seeks to amend its statutory program to develop and maintain a database to track reclamation liabilities in the WVDEP Special Reclamation Program.

House Bill 4758 (HB 4758) was signed by the Governor on March 28, 2022, and will become effective under State Law on June 6, 2022. HB 4758 amends WVSMCRA at WV 22–3–11(i)(2) and proposes to develop and maintain a database to track existing reclamation liabilities, including water treatment, at coal mining operation in the state of West Virginia that were permitted after August 3, 1977. This information is to

be updated on a quarterly basis beginning July 2022, to ensure that actuarial studies of the special reclamation fund and special reclamation water trust fund are informed by current data.

The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES** or at [www.regulations.gov](http://www.regulations.gov).

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the State program.
