

This business meeting is open to the public. Space and facilities to accommodate members of the public are limited and people will be accommodated on a first-come, first-served basis. An agenda will be available from the Superintendent 1 week prior to the meeting. Attendees are encouraged to participate in these meetings. If you would like to address the committee, please contact the Superintendent by June 22, 2001, at the address or telephone number listed below requesting that your name be added to the agenda. Depending on the number of requests, the Superintendent has the right to limit the amount of time each participant is allowed to address this committee.

**FOR FURTHER INFORMATION CONTACT:** Steve Miller, Superintendent, Tallgrass Prairie National Preserve, P.O. Box 585, Cottonwood Falls, Kansas 66845; or telephone him at 620-273-6034.

**SUPPLEMENTARY INFORMATION:** The Tallgrass Prairie National Preserve was established by Public Law 104-333, dated November 12, 1996.

Dated: May 29, 2001.

**William W. Schenk,**

*Regional Director, Midwest Region.*

Send requests to be placed on the mailing list to Susan Kaynor, EIS Coordinator, Big Cypress National Preserve, HCR 61, Box 110, Ochopee, Florida 34141, telephone 941-695-2000.

**SUPPLEMENTARY INFORMATION:** The Oil and Gas Management Plan/Draft Environmental Impact Statement is needed to address the issues of how the National Park Service can protect its resources and values, ensure public safety, and minimize conflicts with visitors and park management while recognizing the rights of private mineral owners to develop their oil and gas resources. In the Oil and Gas Management Plan/Draft Environmental Impact Statement and its accompanying public involvement process, the National Park Service will formulate and evaluate the environmental impacts of a reasonable range of alternatives that will provide protection for resources and values at Big Cypress National Preserve while allowing for exploration and development of the private mineral estate. Distinct management issues include identifying which park resources and values are most sensitive to oil and gas exploration and development disturbances, defining impact mitigation requirements to protect such resources and values, establishing reasonable performance standards and providing pertinent information to oil and gas owners and operators that will facilitate operations planning.

A public scoping newsletter will be mailed in May 2001 to invite public participation in the scoping process and to describe the planning process. The general public and affected or interested parties are encouraged to provide comments and suggestions, and to identify issues and other reasonable alternatives that should be addressed in the Oil and Gas Management Plan/Draft Environmental Impact Statement.

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. If you wish for us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of
