### O.L.S. Energy-Chino; Notice of Amendment To Application for Commission Recertification of Qualifying Status of a Cogeneration Facility

July 19, 2000.

Take notice that on July 13, 2000, O.L.S. Energy-Chino, c/o Delta Power Company, LLC, 89 Headquarters Plaza, North Tower, 14th Floor, Morristown, NJ 07960 filed with the Federal Energy Regulatory Commission revised pages to its application for recertification of a facility as a qualifying cogeneration facility pursuant to § 292.207(b) of the Commission's regulations, as well as an ownership chart.

The Facility is a topping cycle cogeneration facility consisting of one GE Model LM2500 gas turbine in combined cycle configuration. The Facility is interconnected with, sells power to and receives backup and maintenance power from Southern California Edison Company. Recertification of the Facility is being requested by Applicant to reflect recent changes in the ownership structure of the Facility.

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before August 14, 2000. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This

filing may also be viewed on the Internet at http://www.ferc.fed.us/online/rims.htm (call 202–208–2222) for assistance).

### Panda-Brandywine, L.P.; Notice of Application for Commission Determination of Exempt Wholesale Generator Status

July 19, 2000.

Take notice that on July 14, 2000, Panda-Brandywine, L.P., (Applicant), 4100 Spring Valley Road, Suite 1001, Dallas, Texas 75244, filed with the Federal Energy Regulatory Commission an application for determination of exempt wholesale generator status pursuant to Part 365 of the Commission's regulations.

Applicant owns and operates a nominal 253 MW electric generating facility located near Brandywine, Maryland. The facility's electricity is sold exclusively at wholesale.

Any person desiring to be heard concerning the application for exempt wholesale generator status should file a motion to intervene or comments with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). The Commission will limit its consideration of comments to those that concern the adequacy or accuracy of the application. All such motions and comments should be filed on or before August 9, 2000, and must be served on the applicant. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection or on the Internet at http://www.ferc.fed.us/ online/rims.htm (please call (202) 208-2222 for assistance).

## Federal Energy Regulatory Commission

[Docket No. CP99-163-000; CA Clearinghouse No. SCH99041103]

Federal Energy Regulatory
Commission and California State
Lands Commission: Questar Southern
Trails Pipeline Company; Notice of
Completion and Availability of the
Final Environmental Impact Statement/
Environmental Impact Report for the
Proposed Southern Trails Pipeline
Project

July 21, 2000.

The staffs of the Federal Energy Regulatory Commission (FERC) and the California State Lands Commission (CSLC) have completed work on a joint Final Environmental Impact Statement/ Environmental Impact Report (FEIS/R) on natural gas pipeline facilities proposed by Questar Southern Trails Pipeline Company (QST) in the abovereferenced docket.

The FEIS/R was prepared as required by the National Environmental Policy Act and the California Environmental Policy Act. Its purpose is to inform the public and the permitting agencies about the potential adverse and beneficial environmental impacts of the proposed project and its alternatives, and recommend mitigation measures which would reduce any significant adverse impacts to the maximum extent possible and, where feasible, to a lessthan-significant level. The staffs conclude that approval of the proposed project, with appropriate mitigating measures as recommended, would have limited adverse environmental impact.

The Southern Trails Pipeline Project involves the conversion of an existing crude oil pipeline (known as the ARCO Four Corners Pipeline Line 90 System) to natural gas service, and the construction of new pipeline and seven compressor stations. The FEIS/R assesses the potential environmental effects of the conversion, construction, and operation of the following facilities in California, Arizona, Utah, and New Mexico:

- About 675 miles of existing pipeline to be converted from crude oil to natural gas service (592 miles of 16-inch, 80 miles of 12-inch, and 3 miles of 22-inch-diameter pipeline);
- Five new pipeline extensions totaling about 43.2 miles;
- Four reroutes/realignments of the existing pipeline totaling about 9.3 miles;
