

hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: NSF Small Business Innovation Research (SBIR) Program Phase I, NSF Small Business Technology Transfer (STTR) Program Phase I, and NSF Fast-Track Pilot Pre-submission Project Pitch Form.

OMB Control No.: 3145–NEW.

Expiration Date of Approval: Not applicable.

Abstract: The NSF Small Business Innovation Research Program (SBIR) Phase I, Small Business Technology Transfer Program (STTR) Phase I, and SBIR/STTR Fast-Track Pilot Project Pitch is an NSF SBIR/STTR pre-submission process that conveys information needed to direct the proposed SBIR/STTR project to the appropriate NSF Program Director (PD) for review and possible proposal submission invitation. The Project Pitch is to be submitted by the applying small business concern (as “proposer”) to the relevant NSF SBIR/STTR Phase I or Fast-Track Pilot technology topic. The Project Pitch outlines solicitation-specific aspects of the project (such as the proposed technology innovation)) and captures the same requested information, as outlined in the NSF SBIR/STTR Phase I and Fast-Track Program solicitations, but all within one secure, web-based form. Specifically, the form collects the submitting proposer company and team information, the proposed technology innovation; the technical objectives and challenges, and the market opportunity. The form also allows the proposer to choose (from a drop-down menu) the most relevant NSF SBIR/STTR Phase I and Fast-Track Pilot technical topic area, ensuring that the submitted Project Pitch goes to the most appropriate Program Director. For the SBIR/STTR Fast-Track Pilot submission, the Project Pitch encompasses the same questions as outlined in the Phase I Project Pitch but also seeks responses to three key eligibility requirements: NSF lineage, customer-discovery experience, and confirmation that the team members are currently employed by the company. These requirements expand on the details of the previously required information on the proposed technology innovation, the market opportunity, and the company and team, respectively.

Respondents: Small business concerns who submit proposals to NSF’s SBIR/STTR Phase I and Fast-Track Pilot Programs.

Estimated Number of Annual Respondents: 2500.

Burden on the Public: 3 hours (per response) for an annual total of 7500 hours.

Dated: June 13, 2024.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555–01–P

NATIONAL SCIENCE FOUNDATION**Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978**

AGENCY: National Science Foundation.

ACTION: Notice of permit applications received.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by July 18, 2024. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314 or ACApermits@nsf.gov.

FOR FURTHER INFORMATION CONTACT: Andrew Titmus, ACA Permit Officer, at the above address, 703–292–4479.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541, 45 CFR 671), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas as requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Application Details

Permit Application: 2025–002

1. *Applicant:* Jesse Naiman, Pathfinder Aviation, 1936 Merrill Field Drive, Anchorage, AK 99501.

Activity for Which Permit is Requested: Enter Antarctic Specially Protected Area. The applicant requests an ACA permit to enter ASPA 124—Cape Crozier using a helicopter, below 2,000 feet, should weather require. The flights are required to support U.S. Antarctic Program science and management activities in the Cape Crozier area. Helicopter flights would not occur in the vicinity of wildlife at Cape Crozier, and all activities would be consistent with the management plan for the ASPA. Up to a total of 20 flights under 2,000 ft are requested per year.

Location: ASPA 124—Cape Crozier.

Dates of Permitted Activities: October 1, 2024–March 1, 2026.

Permit Application: 2025–001

2. *Applicant:* Link Olson, University of Alaska Museum Mammal Collection, 1962 Yukon Drive, Fairbanks, AK 99775.

Activity for Which Permit is Requested: Export From USA. The applicant requests a permit to export 6 crabeater seal (*Lobodon carcinophaga*) blood samples. The samples are part of the archived specimens in the University of Alaska Museum Mammal collection and would be exported to a science collaborator at the Bielefeld University, Germany for genetic analysis. The permit applicant currently holds a Marine Mammal Protection Act permit to receive, possess, import and export the samples in their possession.

Location: None.

Dates of Permitted Activities: July 1, 2024–December 31, 2024.

Kimiko S. Bowens-Knox,

Program Analyst, Office of Polar Programs.
