SUPPLEMENTARY INFORMATION:

Title: Nutrition Education Materials for FNS Population Groups.

OMB Number: Not yet assigned.

Expiration Date: N/A.

Type of Request: New collection.

Abstract: Diet has a significant impact on the health of citizens and is linked to four leading causes of disease and premature death. Diet also plays a role in the development of other health conditions, which can reduce the quality of life and contribute to premature death. One of FNS' goals

includes improving the nutrition of children and low-income families by providing access to program benefits and nutrition education in a manner that supports American agriculture and inspires public confidence.

Materials in support of nutrition education goals will be developed by FNS. Eat Smart. Play Hard.TM (ESPH) is a project geared particularly towards children, including their caregivers, who are eligible for FNS nutrition assistance programs. Components already completed for ESPH consist of a spokes character with accompanying posters, brochures, activity sheets, and a kit of promotional materials.

As part of the Phase II development of ESPH, FNS will develop the following:

1. Additional messages and materials for a subsection of the children and caregivers group, materials for Hispanic children and caregivers as well as public service announcements (PSA's); and

2. An interactive Internet Web site.

In addition to ESPH Phase II, FNS will also develop materials to include:

1. Low-literacy education materials and tools to communicate and promote the implementation of the Dietary Guidelines for Americans; and

2. The conversion of existing English nutrition education materials to appropriate language and culture for the Hispanic audiences.

The materials will be tested using focus groups, short semi-structured interviews, and web-based tools to test the interactive Web site. The groups tested will provide information regarding the acceptability of materials and products during both the developmental process and during the final product development stage. Semi-structured short interviews will be conducted with FNS program recipients, staff, stakeholders and consumer volunteers at the State and local levels to determine acceptability and efficacy of materials and products developed. Interviews will be integrated into other program activities as appropriate.

FNS will also collect information regarding effective nutrition education initiatives being implemented by State agencies that administer nutrition assistance programs to address critical nutrition issues.

Respondents: Recipients of and those persons eligible for FNS nutrition assistance programs, State and local staff administering FNS programs, FNS stakeholders and consumers.

Estimated Number of Respondents: (including padding for variables of recruitment, site activity, etc.)

Phase II of ESPH

Child intercepts—200 respondents × 4 locations = 800 respondents (padded to 1000)

Adult intercepts—200 respondents × 4 locations = 800 respondents (padded to 1000)

Child focus groups—24 grps × 12 respondents/grp = 288 respondents (padded to 300)

Adult focus groups—32 grps × 12 respondents/grp = 384 respondents (padded to 400)

Professional staff—120 respondents
Total = 2272 respondents (padded up to 2700)

Phase II of ESPH Web Site Development

Total = 300 respondents

Dietary Guidelines Low-Literacy Materials

English-speaking intercepts—80 respondents (padded to 100)

Spanish-speaking intercepts—80 respondents (padded to 100)

English-speaking focus groups—12 groups × 10 respondents = 120 respondents

Spanish-speaking focus groups—12 groups × 10 respondents = 120 respondents

Professional staff—30 respondents (padded to 60)

Total = 430 respondents (padded up to 500)

Spanish Conversion

Spanish focus groups—12 groups × 10 respondents = 120 respondents

Spanish intercepts—112 respondents (padded to 130)

Total = 232 respondents (padded to 250)

Grand Total = 3750 respondents.

Number of Responses per

Respondent: 15.

Estimated Time per Response:

Total Interviews (one on one interviews) = 2810 × 30 min (per contractor) = 84,300/60 = 1405 hours.

Total Focus Groups = 1060 × 2 hrs (per contractor) = 2120 hours.

Total Estimated Hours of Burden not to exceed = 3525 hours.

Estimated Total Annual Burden on Respondents: Public reporting burden for this collection of information is estimated to average 3750 respondents with a total estimated burden of 3525 hours.

Dated: December 5, 2001.

Salmon-Challis National Forest Noxious Weed Environmental Impact Statement; Intent To Prepare a Draft Environmental Impact Statement (DEIS) for a Proposed Forest-Wide Noxious Weed Management Program

AGENCY: Forest Service, USDA.

ACTION: Notice of intent.

SUMMARY: The USDA, Forest Service is gathering information and preparing an Environmental Impact Statement (EIS) for a forest-wide noxious weed management program. The intent of this program is to: Protect the natural condition and biodiversity of ecosystems by preventing and/or limiting the introduction and subsequent spread of invasive, non-native plant species that displace native vegetation; eliminate new invaders before they become established; contain and reduce known and potential weed seed sources throughout the forest; prevent or limit the spread of established weeds into areas containing little or no infestation; protect sensitive and unique habitats including research natural areas, wetlands, riparian areas, and sensitive plant populations; and develop criteria to prioritize invasive weed species and treatment areas. Prioritization will be given to treating areas that may contribute to the spread of weeds into Lemhi, Custer, and Butte Counties within the Salmon-Challis National Forest (S-CNF).

SUPPLEMENTARY INFORMATION:**Background**

The Salmon-Challis NF embraces Integrated Pest Management (IPM) practices (as defined in Forest Service Handbook 3409) in managing various pests, including noxious and invasive non-native weeds. This philosophy is
