

unit located on the fuel dock accessible to all boaters. The dump station is located next to the marina store. This marina has utilized Clean Vessel Act funding to upgrade its sanitary waste handling capacity. The marina's sewage disposal hours of operation are 9 am–5 pm, year round. Lakeside Marina is located off State Route 626 in Pittsylvania County. The marina operates a stationary pumpout unit located on the fuel dock accessible to all boaters. The dump station is located on land near the septic tank and drainfield. The marina's sewage disposal hours of operation are 8 am–4 pm, six months per year.

Lumpkin Marina is located off State Route 626 in Pittsylvania County. The marina completed construction of a new pumpout system accessible to all boaters in the 1999 season using Clean Vessel Act funding. It provides a dump station facility for portable toilets at the septic tank behind the boathouse. The marina's sewage disposal hours of operation are 8 am–7 pm, May through October.

Smith Mountain Dock & Lodge is located off State Route 626 in Pittsylvania County. The marina operates a stationary pumpout unit located on the fuel dock accessible to all boaters. The marina uses existing sanitary facilities as a dump station. These facilities are located on a fixed pier next to the boating facility. The marina's sewage disposal hours of operation are 8 am–9 pm, April through October.

The Virginia Department of Health Marina Regulations address treatment of collected vessel sewage from pumpouts and dump stations (found at 12 VAC 5–570–180 C.5 and 12 VAC 5–570–190 C. respectively). No public sewer systems are available to service the above described marina facilities. All wastes from these marinas are treated by on-site septic systems and the treatment of collected sewage is in compliance with Federal, State and local regulations.

According to the State's petition, there are a total of 18,840 vessels registered in Virginia where the principal area of usage is in one of the three counties surrounding Smith Mountain Lake. This assumes that: (1) When boats are used in one of the three counties they are used on Smith Mountain Lake; and that (2) the boats may be stored anywhere in Virginia but are principally used on Smith Mountain Lake, so a good number of regular transient vessels are included in the figure. Most of the recreational vessel population is limited to the season from April to October.

Transient boats from other states and Virginia registered boats that are principally used elsewhere, but may at times be brought to Smith Mountain Lake, are not included in this number. An assumption can be made that the majority of such boats would be trailerable. This is supported by Health Department marina inspection slip counts which indicate only 53 out of 2,417 slips or moorings at commercial marinas are designated as transient vessel slips. Low demand for transient slips probably indicates boats are trailered and ramp launched. Most of the trailerable boats would not be of a size expected to have a holding tank.

All 18,840 vessels would not occupy the lake at the same time. The information suggests that as far as simultaneous occupancy of the lake this number is high, or more likely, it is very high for the smaller, easily trailered boats, and somewhat more accurate for the larger, site-committed boats. The vessel population based on length is 4,705 vessels less than 16 feet in length, 13,309 vessels between 16 feet and 26 feet in length, 749 vessels between 26 feet and 40 feet in length, and 77 vessels greater than 40 feet in length. Based on number and size of boats, and using various methods to estimate the number of holding tanks, it is estimated that six pumpouts and seven dump stations are needed for Smith Mountain Lake. As described above, there are currently 17 operational pumpout facilities and 27 operational dump stations in Smith Mountain Lake.

The EPA hereby makes a tentative affirmative determination that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for Smith Mountain Lake, Bedford, Franklin and Pittsylvania Counties, Virginia. A final determination on this matter will be made following the 30-day period for public comment and may result in a Virginia State prohibition of any sewage discharges from vessels in Smith Mountain Lake.

Comments and views regarding this petition and EPA's tentative determination may be filed on or before September 21, 2000. Comments or requests for information or copies of the applicant's petition should be addressed to Edward Ambrogio, U.S. Environmental Protection Agency, Region III, Office of Ecological Assessment and Management, 1650 Arch Street, Philadelphia, PA 19103; Telephone: (215) 814–2758, Fax: (215) 814–2782, Email: ambrogio.edward@epa.gov.

Dated: August 19, 2000.

Bradley M. Campbell,

Regional Administrator, Region III.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority; Comments Requested

August 16, 2000.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number.

Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before October 23, 2000. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 1 A–804, 445 Twelfth Street, S.W., Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418–0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0261.

Title: Transmitter Measurements.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; business or other for-profit entities; not-for-profit institutions; state, local or tribal governments.

Number of Respondents: 129,900.

Estimated Time Per Respondent: .033 hours.

Frequency of Responses: On occasion.

Total Annual Burden: 4,287 hours.

Needs and Uses: This information collection requires technical measurements on each transmitter upon initial installation. This information helps assure proper operation of transmitters, thereby reducing instances of interference.

OMB Control No.: 3060-0295.

Title: Supplemental information to be furnished by applicants for facilities under this subpart.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions; state, local or tribal governments.

Number of Respondents: 2,028.

Estimated Time Per Respondent: .025 hours.

Frequency of Responses: On occasion.

Total Annual Burden: 507 hours.

Needs and Uses: This information collection requires certain applicants requesting 800 MHz facilities to furnish a list of any other licensed facilities they hold within 40 miles of the applied for base station. This information is used to determine if an applicant's proposed system is necessary in light of communications facilities it already owns.

Federal Communications Commission.

William F. Canton,

Deputy Secretary.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

August 16, 2000.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this

opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before October 23, 2000. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commissions, 445 12th Street, S.W., Room 1-A804, Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0625.

Title: Amendment of the Commission's Rules to Establish New Personal Communications Services (Interference Protection).

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households; business or other for-profit; not-for-profit institutions; and state, local or tribal government.

Number of Respondents: 100.

Estimated Time Per Response: 2 hours.

Frequency of Response: On occasion.

Total Annual Burden: 200 hours.

Total Annual Cost: \$40,000.00.

Needs and Uses: Section 24.237 requires that the results of the coordination process between incumbent microwave users and PCS

licensees be reported to the Commission only if the parties fail to agree. Additionally, the Commission requires that each broadband PCS licensee perform an engineering analysis to assure that the proposed facilities will not cause interference to existing OFS stations within the specified coordination distance of a magnitude greater than a specified criteria, unless there is prior agreement with the affected OFS licensee. This collection is revised because the requirement in Section 24.204 was eliminated and removed from the Commission's rules.

OMB Control No.: 3060-0626.

Title: Regulatory Treatment of Mobile Services.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 1,074.

Estimated Time Per Response: 1-10 hours.

Frequency of Response: On occasion.

Total Annual Burden: 6,673 hours.

Needs and Uses: This information collection provides the Commission with technical, operational and licensing data for common carriers and private mobile radio services. This information is necessary to establish regulatory symmetry among similar mobile services.

Federal Communications Commission.

William F. Caton,

Deputy Secretary.
