

Agenda: The agenda items for the June 2015 meeting will include, but are not limited to: Updates from ACCV Adult Immunization Workgroup, the Division of Injury Compensation Programs (DICP), Department of Justice (DOJ), National Vaccine Program Office (NVPO), Immunization Safety Office (Centers for Disease Control and Prevention), National Institute of Allergy and Infectious Diseases (National Institutes of Health), and Center for Biologics, Evaluation and Research (Food and Drug Administration). A draft agenda and additional meeting materials will be posted on the ACCV Web site (<http://www.hrsa.gov/vaccinecompensation/accv.htm>) prior to the meeting. Agenda items are subject to change as priorities dictate.

Public Comment: Persons interested in providing an oral presentation should submit a written request, along with a copy of their presentation to: Annie Herzog, Division of Injury Compensation Programs (DICP), Healthcare Systems Bureau (HSB), Health Resources and Services Administration (HRSA), Room 11C-26, 5600 Fishers Lane, Rockville, Maryland 20857 or email: aherzog@hrsa.gov. Requests should contain the name, address, telephone number, email address, and any business or professional affiliation of the person desiring to make an oral presentation. Groups having similar interests are requested to combine their comments and present them through a single representative. The allocation of time may be adjusted to accommodate the level of expressed interest. DICP will notify each presenter by email, mail, or telephone of their assigned presentation time. Persons who do not file an advance request for a presentation, but desire to make an oral statement, may announce it at the time of the public comment period. Public participation and ability to comment will be limited to space and time as it permits.

For Further Information Contact: Anyone requiring information regarding the ACCV should contact Annie Herzog, DICP, HSB, HRSA, Room 11C-26, 5600 Fishers Lane, Rockville, Maryland 20857; telephone (301) 443-6593, or email: aherzog@hrsa.gov.

Jackie Painter,

Director, Division of the Executive Secretariat.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Recruitment of Sites for Assignment of Corps Personnel Obligated Under the National Health Service Corps Scholarship Program

AGENCY: Health Resources and Services Administration, HHS.

ACTION: General notice.

SUMMARY: The Health Resources and Services Administration (HRSA)

announces that the listing of entities and associated Health Professional Shortage Area (HPSA) scores, which will receive priority for the assignment of National Health Service Corps (NHSC) scholarship recipients available for service during the period October 1, 2015, through September 30, 2016, is posted on the NHSC Jobs Center Web site at <http://nhscjobs.hrsa.gov>. The NHSC Jobs Center includes sites that are approved for service by NHSC scholars; however, entities on this list may or may not have current job vacancies.

Eligible HPSAs and Entities

To be eligible to receive assignment of Corps members, entities must: (1) Have a current HPSA status of “designated” by the Division of Policy and Shortage Designation, Bureau of Health Workforce, HRSA as of January 1, 2015, for placements October 1, 2015, through December 31, 2015, or as of January 1, 2016, for placements January 1, 2016, through September 30, 2016; (2) not deny requested health care services or discriminate in the provision of services to an individual because the individual is unable to pay for the services or because payment for the services would be made under Medicare, Medicaid, or the Children’s Health Insurance Program (CHIP); (3) enter into an agreement with the state agency that administers Medicaid and CHIP, accept assignment under Medicare, see all patients regardless of their ability to pay and post such policy, and use and post a discounted fee plan; and (4) be determined by the Secretary to have (a) a need and demand for health manpower in the area; (b) appropriately and efficiently used Corps members assigned to the entity in the past; (c) general community support for the assignment of Corps members; (d) made unsuccessful efforts to recruit health professionals; (e) a reasonable prospect for sound fiscal management by the entity with respect to Corps members assigned there; and (f) demonstrated a willingness to support and facilitate mentorship, professional development, and training opportunities for Corps members.

Priority in approving applications for assignment of Corps members goes to sites that (1) provide primary medical care, mental health, and/or oral health services that matches the discipline to a primary medical care, mental health, or dental HPSA of greatest shortage, respectively; (2) are part of a system of care that provides a continuum of services, including comprehensive primary health care and appropriate referrals (e.g. ancillary, inpatient, and specialty referrals) or arrangements for

secondary and tertiary care; (3) have a documented record of sound fiscal management; (4) will experience a negative impact on the capacity to provide primary health services if a Corps member is not assigned to the entity, and (5) are a nonprofit or public entity to which Corps members may be assigned. Sites that provide specialized care, or a limited set of services, will receive greater scrutiny and may not receive approval as NHSC service sites. This may include clinics that focus on one disease or disorder or offer limited services, such as a clinic that only provides immunizations or a substance abuse clinic.

Entities at which NHSC scholars are performing their service obligations must assure that (1) the position will permit the full scope of practice and that the clinician meets the credentialing requirements of the state and site; and (2) the NHSC scholar assigned to the entity is engaged in the requisite amount of clinical practice, as defined below, to meet his or her service obligation:

Full-Time Clinical Practice

“Full-time clinical practice” is defined as a minimum of 40 hours per week for at least 45 weeks per service year. The 40 hours per week may be compressed into no less than 4 work days per week, with no more than 12 hours of work to be performed in any 24-hour period. Time spent on-call does not count toward the full-time service obligation, except to the extent the provider is directly treating patients during that period.

For all health professionals, except as noted below, at least 32 of the minimum 40 hours per week must be spent providing direct patient care in the outpatient ambulatory care setting(s) at the NHSC-approved service site(s) during normally scheduled office hours. The remaining 8 hours per week must be spent providing direct patient care for patients at the approved practice site(s), providing direct patient care in alternative settings as directed by the approved practice site(s), or performing practice-related administrative activities.

Teaching activities at the approved service site shall not exceed 8 hours of the minimum 40 hours per week, unless the teaching takes place in a HRSA-funded Teaching Health Center (see Section 340H of the Public Health Service Act, 42 U.S.C. Section 256h). Teaching activities in a HRSA-funded Teaching Health Center shall not exceed 20 hours of the minimum 40 hours per week.

For obstetrician/gynecologists, certified nurse midwives, family medicine physicians who practice obstetrics on a regular basis, providers of geriatric services, pediatric dentists, and behavioral/mental health providers, at least 21 of the minimum 40 hours per week must be spent providing direct patient care in the outpatient ambulatory care setting(s) at the NHSC-approved service site(s) during normally scheduled office hours. The remaining 19 hours per week must be spent providing direct patient care for patients at the approved practice site(s), providing direct patient care in alternative settings as directed by the approved practice site(s), or performing practice-related administrative activities. Of the remaining 19 hours per week, no more than 8 hours can be spent performing practice-related administrative activities. Teaching activities at the approved service site shall not exceed 8 hours of the minimum 21 hours per week providing direct patient care, unless the teaching takes place in a HRSA-funded Teaching Health Center, as noted above.

For physicians (including psychiatrists), physician assistants, nurse practitioners (including those specializing in psychiatry or mental health), and certified nurse midwives serving in a Critical Access Hospital (CAH) that is certified by the Centers for Medicare & Medicaid Services (CMS) as a CAH under section 1820 of the Social Security Act, the full-time service requirements are as follows: At least 16 of the minimum 40 hours per week must be spent providing direct patient care in the CAH-affiliated outpatient ambulatory care setting(s) specified in the NHSC's Customer Service Portal, during normally scheduled office hours. The remaining 24 hours of the minimum 40 hours per week must be spent providing direct patient care for patients at the CAH(s) or the CAH-affiliated outpatient ambulatory care setting specified in the Customer Service Portal, providing direct patient care in the CAH's skilled nursing facility or swing bed unit, or performing practice-related administrative activities. Of the remaining 24 hours per week, no more than 8 hours can be spent on practice-related administrative activities and teaching activities at the approved service site(s) shall not exceed 8 of the minimum 16 hours per week providing direct patient care, unless the teaching takes place in a HRSA-funded Teaching Health Center (see Section 340H of the Public Health Service Act, 42 U.S.C. Section 256h). Teaching activities in a HRSA-funded Teaching

Health Center shall not exceed 20 hours of the minimum 40 hours per week.

Half-Time Clinical Practice

"Half-time clinical practice" is defined as a minimum of 20 hours per week (not to exceed 39 hours per week), for at least 45 weeks per service year. The 20 hours per week may be compressed into no less than 2 work days per week, with no more than 12 hours of work to be performed in any 24-hour period. Time spent on-call does not count toward the half-time service obligation, except to the extent the provider is directly treating patients during that period.

For all health professionals, except as noted below, at least 16 of the minimum 20 hours per week must be spent providing direct patient care in the outpatient ambulatory care setting(s) at the NHSC-approved service site(s), during normally scheduled office hours. The remaining 4 hours per week must be spent providing direct patient care for patients at the approved practice site(s), providing direct patient care in alternative settings as directed by the approved practice site(s), or performing practice-related administrative activities. Teaching and practice-related administrative activities shall not exceed a total of 4 hours of the minimum 20 hours per week.

For obstetrician/gynecologists, certified nurse midwives, family medicine physicians who practice obstetrics on a regular basis, providers of geriatric services, pediatric dentists, and behavioral/mental health providers, at least 11 of the minimum 20 hours per week must be spent providing direct patient care in the outpatient ambulatory care setting(s) at the NHSC-approved service site(s) during normally scheduled office hours. The remaining 9 hours per week must be spent providing direct patient care for patients at the approved practice site(s), providing direct patient care in alternative settings as directed by the approved practice site(s), or performing practice-related administrative activities. Teaching and practice-related administrative activities shall not exceed 4 hours of the minimum 20 hours per week.

For physicians (including psychiatrists), physician assistants, nurse practitioners (including those specializing in psychiatry or mental health), and certified nurse midwives serving in a CAH, the half-time service requirements are as follows: At least 8 of the minimum 20 hours per week must be spent providing direct patient care in the CAH-affiliated outpatient ambulatory care setting(s) specified in the Customer Service Portal, during

normally scheduled office hours. The remaining 12 hours of the minimum 20 hours per week must be spent providing direct patient care for patients at the CAH(s) or the CAH-affiliated outpatient ambulatory care setting specified in the Practice Agreement, providing direct patient care in the CAH's skilled nursing facility or swing bed unit, or performing practice-related administrative activities. Teaching and practice-related administrative activities shall not exceed 4 hours of the minimum 20 hours per week.

Half-time clinical practice is not an option for scholars serving their obligation through the Private Practice Option.

In addition to utilizing NHSC scholars in accordance with their full-time or half-time service obligation (as defined above), NHSC service sites are expected to: (1) Report to the NHSC all absences through clinician in-service verifications every 6 months, including those in excess of the authorized number of days (up to 35 full-time days per service year in the case of full-time service and up to 35 half-time days per service year in the case of half-time service); (2) report to the NHSC any change in the status of an NHSC clinician at the site; (3) provide the time and leave records, schedules, and any related personnel documents for NHSC scholars (including documentation, if applicable, of the reason(s) for the termination of an NHSC clinician's employment at the site prior to his or her obligated service end date); and (4) submit a Uniform Data System (UDS) report in the case of entities receiving HRSA grant support under Section 330 of the Public Health Service Act. The UDS report, as applicable, requires the site to assess the age, sex, race/ethnicity of, and provider encounter records for its user population and are aggregated at the organization level. Providers fulfilling NHSC commitments are approved to serve at a specific site or, in some cases, more than one site.

Evaluation and Selection Process

For a site to be eligible for placement of NHSC scholars, it must be approved by the NHSC following the site's submission of a site application. Processing of site applications from solo or group practices will involve additional screening, including a site visit by NHSC representatives. The site application approval is good for a period of 3 years from the date of approval.

In approving applications for the assignment of Corps members, the Secretary shall give priority to any such application that is made regarding the

provision of primary health services in a HPSA with the greatest shortage. For the program year October 1, 2015, through September 30, 2016, HPSAs of greatest shortage for determination of priority for assignment of NHSC scholarship-obligated Corps personnel will be defined as follows: (1) Primary medical care HPSAs with scores of 16 and above are authorized for the assignment of NHSC scholars who are primary care physicians, family nurse practitioners, physician assistants, or certified nurse midwives; (2) mental health HPSAs with scores of 16 and above are authorized for the assignment of NHSC scholars who are psychiatrists or mental health nurse practitioners; and (3) dental HPSAs with scores of 16 and above are authorized for the assignment of NHSC scholars who are dentists. The NHSC has determined that a minimum HPSA score of 16 for all service-ready NHSC scholars will enable it to meet its statutory obligation to identify a number of entities eligible for placement at least equal to, but not greater than, twice the number of NHSC scholars available to serve in the 2015–2016 placement cycle.

The number of new NHSC placements through the Scholarship Program allowed at any one site is limited to one of the following provider types: Physician (MD/DO), nurse practitioner, physician assistant, certified nurse midwife, or dentist. The NHSC will consider requests for up to two scholar placements at any one site on a case-by-case basis. Factors that are taken into consideration include community need, as measured by demand for services, patient outcomes, and other similar factors. Sites wishing to request an additional scholar must complete an Additional Scholar Request form available at <http://nhsc.hrsa.gov/downloads/additionalrequestform.pdf>.

NHSC-approved sites that do not meet the authorized threshold HPSA score of 16 may post job openings on the NHSC Jobs Center; however, scholars seeking placement between October 1, 2015, and September 30, 2016, will be advised that they can only compete for open positions at sites that meet the threshold placement HPSA score of 16. While not eligible for scholar placements in 2015–2016, vacancies in HPSAs scoring less than 16 will be used by the NHSC in evaluating the HPSA threshold score for the next scholarship placement cycle.

Application Requests, Dates, and Address

The list of HPSAs and entities that are eligible to receive priority for the placement of NHSC scholars may be updated periodically. New entities may

be added to the NHSC Jobs Center during a site application competition. Likewise, entities that no longer meet eligibility criteria, including those sites whose 3-year approval as an NHSC service site has lapsed or whose HPSA designation has been withdrawn or proposed for withdrawal, will be removed from the priority listing.

Additional Information

Entities wishing to provide additional data and information in support of their inclusion on the proposed list of entities that would receive priority in assignment of NHSC Scholars, or in support of a higher priority determination, must do so in writing no later than *June 8, 2015*. This information should be submitted to: Beth Dillon, Director, Division of Regional Operations, Bureau of Health Workforce, 1961 Stout Street, Denver, CO 80294. This information will be considered in preparing the final list of entities that are receiving priority for the assignment of scholarship-obligated Corps personnel.

The program is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal Programs (as implemented through 45 CFR part 100).

Dated: April 30, 2015.

James Macrae,

Acting Administrator.

BILLING CODE 4165–15–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

[Document Identifier: HHS–OS–0990–New–60D]

Agency Information Collection Activities; Proposed Collection; Public Comment Request

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, announces plans to submit a new Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, OS seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on the ICR must be received on or before July 7, 2015.

ADDRESSES: Submit your comments to *Information.CollectionClearance@hhs.gov* or by calling (202) 690–6162.

FOR FURTHER INFORMATION CONTACT: Information Collection Clearance staff, *Information.CollectionClearance@hhs.gov* or (202) 690–6162.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the document identifier HHS–OS–0990–New–60D for reference. Information Collection Request Title: State and Territorial Health Disparities Survey Abstract: The Office of Minority Health (OMH), Office of the Secretary (OS) is requesting approval from the Office of Management and Budget (OMB) for a new data collection activity for the State and Territorial Health Disparities Survey (STHD Survey).

OMH has a long history of collaborating with states to improve minority health outcomes and reduce health and health care disparities. A strong partnership with state and territorial offices is a key to continue progress toward eliminating health disparities. To best facilitate continued partnerships, OMH needs information about the current activities, challenges, and resources within state and territorial offices of minority health. The State and Territorial Health Disparities Survey is intended to support OMH informational needs by collecting, organizing, and presenting a variety of information about states and U.S. territories, including the current status of minority health and health disparities, the organization and operation of state and territorial offices of minority health, and state/territorial implementation of federal standards and evidence-based practices designed to address disparities and improve minority health. The STHD Survey, which will focus on the activities, staffing, and funding of State Minority Health Entities, is part of a larger project to catalog the extent of health disparities and the activities underway to reduce them in each state and U.S. territory. The STHD Survey supports OMH's goals of working with states and territories to improve the health of racial and ethnic minority populations and eliminate health disparities. While existing, state/territorial-specific information sources (e.g., quantitative data points available from the Agency for Healthcare Research and Quality's *National Healthcare Disparities Report State Snapshots*) offer important facts about the status of health disparities, they do not provide context around the efforts underway to reduce them.
