

application of the electrical current. NNSA estimates that dissolution will be complete in less than 24 hours per charge. After each dissolution cycle is complete, solution samples will be obtained to ensure complete dissolution of the FCA fuel. If necessary, a subsequent heating step will be performed to complete the dissolution process. NNSA estimates that 18 batches would be required to complete processing of the FCA fuel. After completion of each batch, the material will be transferred to an accountability tank in H-Canyon and then to a canyon vessel for storage and eventual transfer to the H-Tank Farm. Immobilization and storage of the material will occur at DWPF pending disposal in a geologic repository. NNSA estimates that vitrification of the FCA fuel along with HLW at DWPF will result in three waste canisters.

The electrolytic dissolution process is very similar to the chemical dissolution process as described in Appendix B, section B.1.3, of the SPD Supplemental EIS. Dissolved FCA fuel solutions will be very similar to those resulting from chemical dissolution, and compatible with transfer to the H-Area Tank Farm pending immobilization in DWPF. FCA dissolution operations would be scheduled in conjunction with other H-Canyon operations and coordinated with tank farm and DWPF operations.

In the SPD Supplemental EIS, NNSA evaluated disposition of 6 MT of plutonium using both the H-Canyon/HB-Line to DWPF Alternative and the WIPP Alternative. The impact assessment of both alternatives includes up to 350 kg of FCA fuel. In the Supplement Analysis for Disposition of FCA Plutonium, NNSA compared the impacts of processing 350 kg of FCA fuel using both alternatives.

Differences in doses and potential latent cancer fatalities to workers and the public between the WIPP Alternative and the H-Canyon/HB-Line Alternative are minor. In the case of electrolytic dissolution, worker dose would be lower than the H-Canyon/HB-Line chemical dissolution and WIPP alternatives. Both would require handling and de-cladding of the fuel prior to processing. In the SPD Supplemental EIS (Tables 4–3 and 4–4), NNSA estimated radiation doses and impacts, in terms of latent cancer fatalities (LCFs), from operations for the H-Canyon/HB-Line Alternative (including the material evaluated in the SA) to workers and the public. Worker doses were estimated to be less than the SRS administrative limit of 500 millirem (mrem) per year, resulting in no LCFs on an annual basis. Over the

life of the H-Canyon/HB-Line to DWPF Alternative (13 years), NNSA estimated that operations could result in an estimated 2 LCFs to involved workers and none to members of the public or the maximally exposed individual. The proposed action was included in the estimates for the H-Canyon/HB-Line Alternative. No LCFs in addition to those NNSA previously estimated would result from implementation of the proposed action.

Vitrification of the FCA fuel in DWPF would result in an estimated three HLW glass canisters. Less CH-TRU waste would be generated using the H-Canyon/HB-Line Alternative because WIPP alternative processing results in TRU waste for disposal at WIPP. Other differences in waste generation are minor.

To ensure safe and secure operations, NNSA, in conjunction with DOE/EM, which owns the facilities, would review and revise, as needed, safety basis documents for all involved facilities at SRS.

Basis for Decision

To disposition the FCA fuel the H-Canyon/HB-Line Alternative can be implemented at a substantially lower cost than the WIPP Alternative. The SRS H-Canyon has used electrolytic dissolution in the past. The process is well known and can be implemented with little technology maturation. The impacts from activities related to the disposition of FCA fuel have been evaluated in the SPD Supplemental EIS. There are no substantial differences in environmental impacts between using the electrolytic dissolver and the standard H-Canyon dissolver for this amount of material (up to 350 kg). All processes downstream of the dissolver are the same as those analyzed in the H-Canyon/HB-Line to DWPF Alternative. The FCA fuel would be prepared for disposition and safely stored at SRS in existing facilities pending the availability of a geologic repository.

Amended Decision

NNSA has decided to change the disposition pathway for up to 350 kg FCA fuel from the WIPP Disposal Alternative to the H-Canyon/HB-Line to DWPF Alternative, as described and evaluated in the SPD Supplemental EIS. NNSA will use electrolytic dissolution instead of chemical dissolution because the FCA fuel is clad in stainless steel.

FCA fuel comprises less than half of the 0.9 MT of gap material plutonium evaluated in DOE/EA–2024, and less than 6 percent of the 6 MT NNSA decided to disposition using the WIPP

Disposal Alternative. NNSA remains committed to dispositioning 6 MT of surplus plutonium using the WIPP Disposal Alternative, as NNSA previously decided (81 FR 19588, April 5, 2016).

Signing Authority

This document of the Department of Energy was signed on March 1, 2021, by Charles P. Verdon, Acting Under Secretary for Nuclear Security and Administrator, NNSA, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on March 3, 2021.

Treena V. Garrett,

*Federal Register Liaison Officer, U.S.
Department of Energy.*

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP15–554–009; CP15–555–007]

Atlantic Coast Pipeline, LLC, Eastern Gas Transmission and Storage, Inc.; Notice of Amendment of Certificates and Opening of Scoping Period

Take notice that on January 4, 2021, Atlantic Coast Pipeline, LLC (ACP), 120 Tredegar Street, Richmond, VA 23219, filed its Atlantic Coast Project Disposition and Restoration Plan, and on November 20, 2020, Eastern Gas Transmission and Storage, Inc. (EGTS),¹ 6603 West Broad Street, Richmond, Virginia 23230, filed the Supply Header Project Restoration Plan.² On July 5, 2020, Dominion Energy Transmission,

¹ On November 1, 2020, Dominion Energy sold certain companies including Dominion Energy Transmission, Inc., the Supply Header Project developer, to Berkshire Hathaway Energy Company and Dominion Energy Transmission, Inc. changed its name to Eastern Gas Transmission and Storage, Inc.

² Both plans were submitted in response to Commission staff's October 27, 2020 Data Request.

Inc. and Duke Energy issued a press release announcing the cancellation of the Atlantic Coast Project, which the Commission authorized on October 13, 2017.³ The Restoration Plans describe ACP's and EGTS's plans for the disposition of Atlantic Coast and Supply Header Projects, including proposed restoration activities which would modify their original authorizations to such an extent that it is appropriate to treat the plans as amendments to the certificates of public convenience and necessity issued for the projects. The two plans are on file with the Commission and open for public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact the Federal Energy Regulatory Commission at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions regarding the proposed project should be directed to Sharon L. Burr, Chief Deputy Counsel, Atlantic Coast Pipeline, LLC, 120 Tredegar Street, Richmond, VA 23219, or by phone at 804-624-0988, or email at sharon.l.burr@dominionenergy.com; or Matthew R. Bley, Director, Gas Transmission Certificates Eastern Gas Transmission and Storage, Inc., 6603 West Broad Street, Richmond, Virginia 23230; or by phone at 804-771-4399, or email at matthew.r.bley@dominionenergy.com.

ACP and EGTS are directed to provide this notice to all affected landowners and towns, communities, and local, state and federal governments and agencies involved in the project within 10 business days of its publication in the **Federal Register**.

This notice also announces the opening of a scoping period the Commission will use to gather input

from the public and interested agencies regarding the proposed restoration activities associated with the disposition of the Atlantic Coast and Supply Header Projects. By this notice, the Commission requests public comments on the scope of issues to address in the environmental document.

Pursuant to Section 157.9 of the Commission's Rules of Practice and Procedure,⁴ within 90 days of this Notice the Commission staff will either: Complete its environmental review and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Public Participation

There are two ways to become involved in the Commission's review of the companies' proposals: You can file comments on the proposals, and you can file a motion to intervene in the proceeding. There is no fee or cost for filing comments or intervening. The deadline for filing a motion to intervene is 5:00 p.m. Eastern Time on April 16, 2021.

Comments

Any person wishing to comment on the proposals may do so. Comments may include statements of support or objections to the proposals as a whole or specific aspects of the proposal. The more specific your comments, the more useful they will be. To ensure that your comments are timely and properly recorded, please submit your comments on or before April 16, 2021.

There are three methods you can use to submit your comments to the Commission. In all instances, please reference the Project docket numbers CP15-554-009 and/or CP15-555-007 in your submission.

(1) You may file your comments electronically by using the eComment feature, which is located on the

Commission's website at www.ferc.gov under the link to Documents and Filings. Using eComment is an easy method for interested persons to submit brief, text-only comments on a project;

(2) You may file your comments electronically by using the eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to Documents and Filings. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Comment on a Filing"; or

(3) You can file a paper copy of your comments by mailing them to the following address below. Your written comments must reference the Project docket number CP15-554-009 and/or CP15-555-007.

To mail via USPS, use the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426

To mail via any other courier, use the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852

The Commission encourages electronic filing of comments (options 1 and 2 above) and has eFiling staff available to assist you at (202) 502-8258 or FercOnlineSupport@ferc.gov.

Persons who comment on the environmental review of this project, and provide their mailing address, will be placed on the Commission's environmental mailing list, and will receive notification when the environmental documents (EA or EIS) are issued for this project and will be notified of meetings associated with the Commission's environmental review process.

The Commission considers all comments received about the project in determining the appropriate action to be taken. However, the filing of a comment alone will not serve to make the filer a party to the proceeding. To become a party, you must intervene in the proceeding. For instructions on how to intervene, see below.

Interventions

All intervenors in the previous proceedings for the projects (CP15-554-000; CP15-554-001; CP15-555-000) will be considered intervenors in this amendment proceeding and do not need to file a new motion to intervene.

³ Atlantic Coast Pipeline, LLC & Dominion Energy Transmission, Inc. 161 FERC ¶ 61,042 (2017) (Certificate Order), *reh'g denied*, 164 FERC ¶ 61,100 (2018).

⁴ 18 CFR (Code of Federal Regulations) 157.9.

Any other person, which includes individuals, organizations, businesses, municipalities, and other entities,⁵ has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁶ and the regulations under the NGA⁷ by the intervention deadline for the project, which is April 16, 2021. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. [For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene.] For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to/intervene.asp>.

There are two ways to submit your motion to intervene. In both instances, please reference the Project docket number CP15-554-009 and/or CP15-555-007 in your submission.

(1) You may file your motion to intervene by using the Commission's eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to Documents and Filings. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Intervention." The eFiling feature includes a document-less intervention option; for more information, visit <https://www.ferc.gov/docs-filing/efiling/document-less-intervention.pdf>; or

(2) You can file a paper copy of your motion to intervene, along with three copies, by mailing the documents to the address below. Your motion to intervene must reference the Project docket number CP15-554-009 and/CP15-555-007.

To mail via USPS, use the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426

To mail via any other courier, use the following address: Kimberly D. Bose,

Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852

The Commission encourages electronic filing of motions to intervene (option 1 above) and has eFiling staff available to assist you at (202) 502-8258 or FercOnlineSupport@ferc.gov.

Motions to intervene must be served on the applicant either by mail or email at: Sharon L. Burr, Chief Deputy Counsel, Atlantic Coast Pipeline, LLC, 120 Tredegar Street, Richmond, VA 23219; sharon.l.burr@dominionenergy.com; or Matthew R. Bley, Director, Gas Transmission Certificates Eastern Gas Transmission and Storage, Inc., 6603 West Broad Street, Richmond, Virginia 23230; matthew.r.bley@dominionenergy.com. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online. Service can be via email with a link to the document.

All timely, unopposed⁸ motions to intervene are automatically granted by operation of Rule 214(c)(1).⁹ Motions to intervene that are filed after the intervention deadline are untimely, and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations.¹⁰ A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website at www.ferc.gov using the "eLibrary" link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific

dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to register, go to www.ferc.gov/docs-filing/esubscription.asp.

Intervention and Scoping Comments Deadline: 5:00 p.m. Eastern Time on April 16, 2021.

Nathaniel J. Davis, Sr.,
Deputy Secretary.
