

questions to determine whether an otherwise-eligible applicant offered enrollment may pose a direct threat to self or others.

Added information to Instructions—To comply with regulatory requirements, language has been added to the instructions to ensure that applicants are provided with appropriate information before medical or disability. (Instructions)

Added direct threat questions—To determine whether an otherwise-eligible applicant offered enrollment may pose a direct threat to self or others. The purpose of these questions is to prevent illness, injury, or death on centers. (Question 8 l–w)

Added new conditions—To better determine the health and accommodation/ modification needs of the applicant who has been offered enrollment, several new conditions have been added. (Question 9)

Added authorization to provide basic oral care—This will eliminate the need for the student to sign a separate authorization to receive basic oral care and provides a description of what is included in basic oral care. (Authorization Section)

Added requirement for AC to provide information—To ensure all applicants are informed of the health care to be provided by Job Corps, the AC is now required to provide each applicant a copy of the types of care that are considered “basic routine health care” from the Job Corps Policy and Requirements Handbook (currently Exhibit 6–4) before the ETA 6–53 is signed. (General Instructions)

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice or at this Web site: <http://www.doleta.gov/OMBControlNumber.cfm>.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before June 4, 2007.

SUPPLEMENTARY INFORMATION:

I. Background

The Job Corps Program is described in its enabling legislation under Public Law 105–220, Workforce Investment Act of 1998, as amended by Public Law 105–277. Section 145 establishes standards and procedures for obtaining

data from each applicant relating to their needs. The Department of Labor’s regulation at 20 CFR 670.410 further details the recruitment and screening of applicants.

Individuals who wish to enroll in the Job Corps Program must first be determined to be eligible and selected for enrollment. This process is carried out by admissions agencies, including state employment services, contracted to recruit young people for the Job Corps Program. The admission process ensures that applicants meet all the admission criteria as defined in the *Policy and Requirement Handbook (PRH) Chapter 1, Outreach and Admissions, July 2001*. Nonmedical personnel in the admissions office (admissions counselors) conduct the admission interview and complete the required application forms. The ETA 6–53 is completed on all applicants that have been determined to be eligible and selected for the Job Corps Program.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have a practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 72 FR 3167, and no substantial comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science

Foundation, 725-17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send e-mail to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: International Cover Page Addendum.

OMB Control No.: 3145-New.

Expiration Date of Approval: Not applicable.

Abstract: The Office of International Science and Engineering within the Office of the NSF Director will use the International Cover Page Addendum. Principal Investigators submitting proposals to this Office will be asked to complete an electronic version of the International Cover Page Addendum. The Addendum requests foreign counterpart investigator/host information and participant demographics not requested elsewhere in NSF proposal documents.

The information gathered with the International Cover Page Addendum serves four purposes. The first is to enable proposal assignment to the program officer responsible for activity with the primary countries involved. No current component of a standard NSF proposal requests this information. (The international cooperative activities box on the standard NSF Cover Page applies only to one specific type of activity, not the wide range of activities supported by OISE.) NSF proposal assignment applications are program element-based and therefore can not be used to determine assignment by country. The second use of the information is program management. OISE is committed to investing in activities in all regions of the world. With data from this form, the Office can determine submissions by geographic region. Thirdly, funding decisions can not be made without details for the international partner not included in

any other part of the submission process. The fourth section, counts of scientists and students to be supported by the project, are also not available elsewhere in the proposal since OISE budgets do not include participant support costs. These factors are all important for OISE program management.

Estimated Number of Annual Respondents: 600.

Burden on the Public: 150 hours (15 minutes per respondent).

Dated: March 28, 2007.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-305]

Dominion Energy Kewaunee, Inc.; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Dominion Energy Kewaunee, Inc. (the licensee) to withdraw its April 6, 2006, application for proposed amendment to Facility Operating License No. DPR-43 for the Kewaunee Power Station, located in Kewaunee County, Wisconsin.

The proposed amendment would have revised the facility Updated Safety Analysis Report to allow the use of a different methodology for determining the design requirements necessary for protecting safety-related equipment from damage by tornado generated missiles.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on May 23, 2006 (71 FR 29673). However, by letter dated March 19, 2007, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated April 6, 2006, and the licensee's letter dated March 19, 2007, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and
