Tapered Roller Bearings and Parts Thereof, Finished or Unfinished, from the People's Republic of China: Extension of Time Limit for the Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: April 28, 2006.

FOR FURTHER INFORMATION CONTACT:

Ryan Radford or Eugene Degnan, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-4037 or (202) 482-0414, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 21, 2005, the Department of Commerce ("the Department") published in the **Federal Register** a notice of the initiation of the antidumping duty administrative review of tapered roller bearings ("TRBs") from the People's Republic of China ("PRC") for the period June 1, 2004, through May 31, 2005. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 70 FR 42028 ("Initiation Notice").

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue preliminary results within 245 days after the last day of the anniversary month of an order. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time period to a maximum of 365 days. On February 28, 2006, the Department published in the **Federal Register** a notice extending the time limit for the preliminary results of the administrative review from March

2, 2006, to May 1, 2006. See *Extension of Time Limit for the Preliminary Results of Antidumping Duty Administrative Review: Tapered Roller Bearings, and Parts Thereof, Finished or Unfinished from the People's Republic of China* 71 FR 10010 (February 28, 2006). The preliminary results of review are currently due no later than May 1, 2006. However, completion of the preliminary results of this review by May 1, 2006, is not practicable because the Department needs additional time to verify the respondent's constructed export price sales in the United States, and its export price sales and factors of production in the PRC.

Because it is not practicable to complete this review within the time specified under the Act, we are extending the time period for issuing the preliminary results of review by an additional 60 days until June 30, 2006, in accordance with section 751(a)(3)(A) of the Act. The final results continue to be due 120 days after the publication of the preliminary results of review.

This notice is published pursuant to sections 751(a) and 777 (i) of the Act.

Dated: April 24, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:

I. Abstract

Authorized under the Magnuson-Stevens Act, participants are required to purchase, install, and operate a National Marine Fisheries Service (NMFS)-approved vessel monitoring system (VMS) under certain circumstances, to provide more precise location information in the Bering Sea, Aleutian Islands, and Gulf of Alaska. This information supports enforcement efforts in relation to: (1) A number of fisheries, including: Atka mackerel, pollock, Pacific cod, BSAI crab; (2) essential fish habitat; and (3) habitat areas of particular concern in the Aleutian Islands and Gulf of Alaska. VMS requirements are described at 50 CFR part 679.28. The VMS transmitter automatically determines the vessels position several times per hour using Global Positioning System (GPS) satellite. A communications service provider receives the transmission and relays it to NMFS. The VMS transmitters are designed to be tamper-resistant and automatic. In most cases, the vessel owner is unaware of exactly when the unit is transmitting and is unable to alter the signal or the time of transmission.

II. Method of Collection

VMS check-in, by FAX, is required from participants upon installation of a VMS on a vessel. Thereafter, submittal is automatic by satellite.

III. Data

OMB Number: 0648-0445.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households; business or other for-profits organizations.

Estimated Number of Respondents: 1,854.

Estimated Time Per Response: 12 minutes for VMS check-in report; 6 seconds for VMS transmission; 6 hours for VMS installation; 4 hours for VMS maintenance.

Estimated Total Annual Burden Hours: 23,882.

Estimated Total Annual Cost to Public: \$1,145,000.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance

of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
