

System (NAICS) codes of facilities associated with the activity of the respondents are: (1) Elemental Phosphorous—325180, (2) Phosphogypsum Stacks—212392, (3) Underground Uranium Mines—212291, and (4) Uranium Mill Tailings—212291.

*Respondent's obligation to respond:* Mandatory (CAA, Sec. 112; 40 CFR part 61).

*Estimated number of respondents:* 25 (total).

*Frequency of response:* Monthly, annual, or one-time depending on the source category and respondent activity.

*Total estimated burden:* 4,146 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$632,392 (per year), which includes \$338,600 annualized capital or operation and maintenance costs.

*Changes in the Estimates:* Total estimated respondent hours increased from 1,880 hours in the previous approved version of this ICR to 4,146. The primary source of this increase was the consolidation of this ICR with ICR 2060–0706. 1,806 hours of burden that were approved by OMB in 2021 for ICR 2060–0706 were added. Additionally, while no Subpart B facilities were reporting at the time of the last renewal in 2018, the Agency identified two respondents that are likely to submit annual reports in 2021. These two responses were added to the ICR, adding 460 hours of labor and \$10,600 of non-labor cost to the burden that was approved in 2019. For Subparts K, R, and W, there were no changes to the number of respondents, the annual time burden, or the annual non-labor cost compared to the most recent approvals of these ICRs. The requested burden reflects the sum of the two ICRs that are being consolidated.

In *Improving Competitive Broadband Access to Multiple Tenant Environments*, GN Docket No. 17–142, Report and Order and Declaratory Ruling, FCC 22–12 (Feb. 11, 2022), the Commission, among other things, adopted new rules requiring providers (common carriers and multichannel video programming distributors (MVPDs) subject to 47 U.S.C. 628(b)) to disclose the existence of exclusive marketing arrangements that they have with owners of multi-tenant premises (MTEs). An exclusive marketing arrangement is an arrangement, either written or in practice, between an MTE owner and a provider that gives the provider, usually in exchange for some consideration, the exclusive right to certain means of marketing its service to tenants of the MTE. The required disclosure must be included on all written marketing material from the provider directed at tenants or prospective tenants of an MTE subject to the arrangement. The disclosure must explain in clear, conspicuous, legible, and visible language that the provider has the right to exclusively market its communications services to tenants in the MTE, that such a right does not suggest that the provider is the only entity that can provide communications services to tenants in the MTE, and that service from an alternative provider may be available. The purposes of the compelled disclosure are to remedy tenant confusion regarding the impact of exclusive marketing arrangements, prevent the evasion of our exclusive access rules, and, in turn, promote competition for communications services in MTEs.
