

manufacturing cyanide, an RTR amendment for carbon black production (OMB Number 2060–0738, EPA ICR Number 2677.02) was finalized on November 19, 2021 (86 FR 66096) and an RTR amendment for cyanide production (OMB Number 2060–0739, EPA ICR Number 2678.02) was finalized on November 19, 2021 (86 FR 66096). Now that these two subcategories are covered under separate ICRs, the burden for these requirements is not included in this renewal. Additionally, an RTR for ethylene production was finalized on July 6, 2020 (85 FR 40386). These requirements have been included in the burden calculations. While overall burden decreased, Capital/Startup and O&M costs have increased due to the additional requirements finalized for sources manufacturing ethylene.

Abstract: Water quality standards (WQS) under the Clean Water Act (hereafter referred to as “the Act”) are provisions of state, Tribal, or Federal law which consist of designated uses for waters of the United States, water quality criteria to protect those uses, and antidegradation requirements. WQS are established to protect public health or welfare, protect and enhance the quality of water, and serve the purposes of the Act. Such standards serve the dual purposes of establishing the water quality goals for water bodies and serving as the regulatory basis for the establishment of water quality-based treatment controls and strategies beyond technology-based levels of treatment required by sections 301(b) and 306 of the Act. The WQS regulation, consisting of 40 CFR part 131, establishes the framework for states and authorized Tribes to adopt standards, and for the EPA to review and approve or disapprove them.

This ICR renews the WQS Regulation ICR, OMB control no. 2040–0049, expiration date February 28, 2025. This ICR renewal describes the estimated burden for states and authorized Tribes associated with the information collections to implement the requirements of 40 CFR part 131 (Water Quality Standards) and required to obtain or retain benefits (e.g., relaxed regulatory requirements) under the WQS regulation. This WQS Regulation
