BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY**Office of Energy Efficiency and Renewable Energy****Proposed Agency Information Collection**

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Comments regarding this proposed information collection must be received on or before November 10, 2015. If you anticipate difficulty in submitting comments within that period, contact the person listed in **ADDRESSES** as soon as possible.

ADDRESSES: Written comments may be sent to Mr. Chris Early, U.S. Department of Energy, Building Technologies Office, Mail Stop EE-5B, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585-0121 or by fax at 202-586-4617 or by email at Chris.Early@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Mr. Chris Early, U.S.

Department of Energy, Building Technologies Office, Mail Stop EE-5B, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585-0121. Chris.Early@ee.doe.gov.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) OMB No. New; (2) Information Collection Request Title: Programs for Improving Energy Efficiency in Residential Buildings (3) Type of Request: New; (4) Purpose: The proposed collection will enable DOE to understand the universe of organizations participating in four voluntary programs: Zero Energy Ready Home Program, the Better Buildings Residential Network, the Home Energy Score, and the Home Performance with ENERGY STAR Program (HPwES). The DOE published a notice and request for comments for 60 days related to this current request to collect information on May 15, 2014 (79 FR 27867) and received no comments. That notice asked for comments for four voluntary programs at DOE, three of which are the same as for this current request for clearance and one is different. The DOE decided not to collect information for one of the four programs that was part of that May 15, 2014 request for comments, the Building America Program. The DOE, however, is adding the HPwES program to this current request for comments. The purpose of this 15 day notice and request for comments is to again request public comments on the three programs that were in the earlier 60 day notice and request for comments and also request comments on the HPwES program which was not included in that earlier 60 day FR notice. Through these four programs DOE encourages and assists the people and organizations that volunteer to participate in them to build and renovate new and existing houses to use less energy. The program partners who voluntarily participate in the programs consist of most of the actors in the home building industry including home owners, home builders, home builder tradesman and associations, home design professionals, students in architecture and related building construction industries, home energy raters, home energy auditors, home inspectors, building consultants, manufacturers of building products, professional trainers, utility companies, home building and manufacturing

industry associations, consumer and home building industry advocacy organizations, financial institutions, non-profit organizations, educational institutions, nonprofit organizations, energy program administrators and implementers, Home Performance with ENERGY STAR sponsors, state or local government energy offices or agencies, clean energy non-profits with existing residential energy programs and other organizations who believe peer sharing will help them improve their effectiveness in encouraging homeowners to complete energy upgrades. DOE proposes to collect information about the participants such as their names and addresses, their evaluations of training they received about the programs, descriptions of their qualifications to conduct training for the programs, their plans to get people to participate in the programs, their certifications describing how they can assess homes, estimates of how many homes they can get to participate in the programs, and information about the homes. The collected information will help DOE understand the participating partners' activities and progress toward achieving scheduled milestones enabling DOE to make decisions about the best way to run the programs and respond to partners' needs to improve their operations and actions to lower energy consumption. The portion of the HPwES Program for which DOE is requesting comments was run by EPA. The operation of part of the HPwES program is to be transferred to the DOE from the Environmental Protection Agency (EPA). The DOE intends to operate HPwES substantially similarly to the way EPA operates the program. The difference in estimates of numbers of responses, number of respondents, burden hours, and costs to respond between the HPwES that was approved by OMB for EPA and the one requested to be approved by DOE are minor. The OMB did give the EPA clearance for collection of information in the HPwES program on August 14, 2014. OMB gave it the ICR Control Number 2060-0586. EPA did not receive any comments in either the 30 or 60 day **Federal Register** Notices for that collection of information; (5) Annual Estimated Number of Respondents: 11,585. (6) Annual Estimated Number of Total Responses: 46,909. (7) Annual Estimated Number of Burden Hours:

22,926. (8) Annual Estimated Reporting and Recordkeeping Cost Burden: zero dollars. DOE estimates that there are no additional costs to respondents associated with the surveys other than the costs associated with the burden hours.

Statutory Authority: The U.S. Code, Title 42, Chapter 149, Subchapter IX, Part A, Section 16191—Energy Efficiency.

Issued in Washington, DC, on October 2, 2015.

Roland J. Risser,

*Director, Building Technologies Office,
Energy Efficiency and Renewable Energy.*

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permits for Shell Chemical LP Deer Park Chemical Plant and Shell Oil Company Deer Park Refinery in Texas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: Pursuant to Clean Air Act (CAA) Section 505(b)(2) and 40 CFR 70.8(d), the EPA Administrator signed an Order, dated September 24, 2015, granting in part and denying in part two petitions asking EPA to object to operating permits issued by the Texas Commission on Environmental Quality for Shell Chemical LP's Deer Park Chemical Plant and Shell Oil Company's Deer Park Refinery (Title V operating permit numbers O1668 and O1669). The EPA's September 24, 2015 Order responds to the two petitions, dated May 19, 2014, submitted by the Environmental Integrity Project (EIP), Sierra Club, and Air Alliance Houston. Sections 307(b) and 505(b)(2) of the CAA provide that a petitioner may ask for judicial review by the United States Court of Appeals for the appropriate circuit of those portions of the Order that deny issues raised in the petition. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307(b) of the CAA. **ADDRESSES:** You may review copies of the final Order, the petition, and other supporting information at EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202–2733.

EPA requests that if at all possible, you contact the individual listed in the

FOR FURTHER INFORMATION CONTACT section to view copies of the final Order, petitions, and other supporting information. You may view the hard copies Monday through Friday, from 9:00 a.m. to 3:00 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final September 24, 2015 Order is available electronically at: <http://www2.epa.gov/title-v-operating-permits/order-responding-2014-petition-requesting-administrator-object-deer-park>.

FOR FURTHER INFORMATION CONTACT:

Aimee Wilson at (214) 665–7596, email address: wilson.aimee@epa.gov or the above EPA, Region 6 address.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review, and object, as appropriate, to a title V operating permit proposed by a state permitting authority. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator, within 60 days after the expiration of this review period, to object to a title V operating permit if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise such objections during the comment period or unless the grounds for the objection arose after this period.

The Petitioners maintain that the Shell Deer Park title V operating permits are inconsistent with the Act based on the following contentions: (1) The proposed permits' incorporation by reference of minor NSR authorizations fails to assure compliance; (2) The proposed permits' incorporation by reference of permits by rule fails to assure compliance; (3) The proposed permits fail to require monitoring, recordkeeping, and reporting sufficient to assure compliance with applicable requirements; (4) The proposed permit for the Deer Park Refinery impermissibly uses the permit shield provisions; (5) The proposed permits fail to require Shell to obtain SIP-approved authorizations for qualified facilities changes; (6) The proposed permit for the Chemical Plant fails to address Shell's non-compliance with 30 Texas Administrative Code section 116.116(d), which requires PBRs for previously permitted facilities to be incorporated into existing permits on renewal or amendment; (7) The Executive Director's revision to draft permits' special condition 28 in O1668

and special condition 29 in O1669 are improper; and (8) The proposed permits must clarify that credible evidence may be used by citizens to enforce the terms and conditions of the permits. The claims are described in detail in Section IV of the Order.

Pursuant to sections 505(b) and 505(e) of the Clean Air Act (42 U.S.C. 7661d(b) and (e)) and 40 CFR 70.7(g) and 70.8(d), the Texas Commission on Environmental Quality (TCEQ) has 90 days from the receipt of the Administrator's order to resolve the objections identified in Claims 2., 3.B., 3.C., and 6. of the Order and submit a proposed determination or termination, modification, or revocation and reissuance of the Shell Deer Park title V permits in accordance with EPA's objections. The Order issued on September 24, 2015 responds to the Petitions and explains the basis for EPA's decisions.

Dated: October 15, 2015.

Samuel Coleman,

Acting Regional Administrator, Region 6.

Notification of a Public Teleconference of the Clean Air Scientific Advisory Committee Secondary National Ambient Air Quality Standards Review Panel for Oxides of Nitrogen and Sulfur

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office announces a public teleconference of the Clean Air Scientific Advisory Committee (CASAC) Secondary National Ambient Air Quality Standards (NAAQS) Review Panel for Oxides of Nitrogen and Sulfur to peer review EPA's *Integrated Review Plan (IRP) for the Secondary (welfare-based) National Ambient Air Quality Standards for Oxides of Nitrogen and Oxides of Sulfur*.

DATES: The CASAC Secondary NAAQS Review Panel for Oxides of Nitrogen and Sulfur will hold a teleconference on Tuesday December 1, 2015 from 1:00 p.m. to 5:00 p.m. (Eastern Standard Time).

Location: The public teleconference will take place by telephone only.
