

under section 764.8 of the EAR. The information collected will allow BIS to conduct investigations of the disclosed incidents more immediately by than would be the case if BIS had to detect the violations without such disclosures.

II. Method of Collection

Submitted in paper form.

III. Data

OMB Control Number: 0694–0132.

Form Number(s): None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 10.

Estimated Time per Response: 10 to 600 hours (depending on the size of the company).

Estimated Total Annual Burden Hours: 1,280.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: July 21, 2010.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Vessel Monitoring System Requirements in Western Pacific Pelagic and Bottomfish Fisheries

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before September 24, 2010.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Walter Ikehara, (808) 944–2275 or Walter.Ikehara@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a revision of a currently approved information collection. As part of fishery management plans developed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (MSA), owners of commercial fishing vessels in the Hawaii pelagic longline fishery, American Samoa pelagic longline fishery (only vessels longer than 50 feet), and Northern Mariana Islands bottomfish fishery (only vessels longer than 40 feet) must allow the National Oceanic and Atmospheric Administration (NOAA) to install vessel monitoring system (VMS) units on their vessels when directed to do so by NOAA enforcement personnel. VMS units automatically send periodic reports on the position of the vessel. NOAA uses the reports to monitor the vessel's location and activities, primarily to enforce regulated fishing areas. NOAA pays for the units and messaging. There is no public burden for the automatic messaging; however,

VMS installation and annual maintenance are considered public burden.

This request combines three OMB approved collections for VMS requirements, OMB Control No. 0648–0441 (Vessel Monitoring System Requirements in the Western Pacific Pelagic Longline Fishery), OMB Control No. 0648–0519 (Vessel Monitoring System Requirement for American Samoa Pelagic Longline Fishery), and the VMS requirement from OMB Control No. 0648–0584 (Permitting, Vessel Identification and Vessel Monitoring System Requirements for the Commercial Bottomfish Fishery in the Commonwealth of the Northern Mariana Islands), into one collection (OMB Control No. 0648–0441).

II. Method of Collection

Automatic.

III. Data

OMB Control Number: 0648–0441.

Form Number: None.

Type of Review: Regular submission (revision of a currently approved information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 209.

Estimated Time per Response: 4 hours for installation or replacement of a VMS unit; 2 hours for annual maintenance.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

Estimated Total Annual Burden Hours: 478 (estimated 15 installations per year).

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: July 21, 2010.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

Certain Hot-Rolled Carbon Steel Flat Products From India: Final Results of Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On January 11, 2010, the U.S. Department of Commerce (the Department) published in the **Federal Register** its preliminary results of the administrative review of the countervailing duty (CVD) order on certain hot-rolled carbon steel flat products (hot-rolled carbon steel) from India for the period of review (POR) January 1, 2008, through December 31, 2008. *See Certain Hot-Rolled Carbon Steel Flat Products from India: Preliminary Results of Countervailing Duty Administrative Review*; 75 FR 1495 (January 11, 2010) (*Preliminary Results*). We preliminarily found that Tata Steel Limited (Tata) received countervailable subsidies during the POR. We received comments on our *Preliminary Results* from the Government of India (GOI), petitioners, and the respondent company, Tata.¹ The final results are listed in the section "Final Results of Review" below.

DATES: *Effective Date:* July 26, 2010.

FOR FURTHER INFORMATION CONTACT: Gayle Longest at (202) 482-3338, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On December 3, 2001, the Department published in the **Federal Register** the CVD order on certain hot-rolled carbon steel flat products from India. *See Notice of Amended Final Determination and Notice of Countervailing Duty Order: Certain Hot-Rolled Carbon Steel Flat Products from India*, 66 FR 60198 (December 3, 2001). On February 2,

2009, the Department initiated an administrative review covering Essar Steel Limited (Essar), Ispat Industries Limited (Ispat), JSW Steel Limited (JSW), and Tata. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 74 FR 5821 (February 2, 2009) (*Initiation*). As a result of withdrawals of request for review, the Department rescinded this review, in part, with respect to Essar, Ispat, and JSW. *See Certain Hot-Rolled Carbon Steel Flat Products from India: Partial Rescission of Countervailing Duty Administrative Review*, 74 FR 26847 (June 4, 2009).

On January 11, 2010, the Department published in the **Federal Register** its *Preliminary Results* of the administrative review of this order for the period January 1, 2008, through December 31, 2008. *See Preliminary Results*, 75 FR 1495. In accordance with 19 CFR 351.213(b), this administrative review covers Tata, a producer and exporter of subject merchandise.

In the *Preliminary Results*, we invited interested parties to submit briefs or request a hearing. On February 12, 2010, we received comments from the GOI and Tata. On February 19, 2010, we received rebuttal comments from petitioners.

Scope of Order

The merchandise subject to this order is certain hot-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, or a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included in the scope of this order are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF) steels, high-strength low-alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low-carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize

carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTS), are products in which: (i) Iron predominates, by weight, over each of the other contained elements; (ii) the carbon content is 2 percent or less, by weight; and (iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

1.80 percent of manganese, or
2.25 percent of silicon, or
1.00 percent of copper, or
0.50 percent of aluminum, or
1.25 percent of chromium, or
0.30 percent of cobalt, or
0.40 percent of lead, or
1.25 percent of nickel, or
0.30 percent of tungsten, or
0.10 percent of molybdenum, or
0.10 percent of niobium, or
0.15 percent of vanadium, or
0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this order.

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, ASTM specifications A543, A387, A514, A517, A506).
 - SAE/AISI grades of series 2300 and higher.
 - Ball bearings steels, as defined in the HTS.
 - Tool steels, as defined in the HTS.
 - Silico-manganese (as defined in the HTS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
 - ASTM specifications A710 and A736.
 - USS Abrasion-resistant steels (USS AR 400, USS AR 500).
 - All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
 - Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTS.
- The merchandise subject to this order is currently classifiable in the HTS at

¹Petitioners are the United States Steel Corporation and Nucor Corporation (collectively, petitioners).
