

on his particular configuration, the determining factors being the number of physical connections a BOX Participant has and the bandwidth associated with each.¹⁸

Additionally, there would be certain installation and hosting costs which are related to the physical installation of equipment (generally routers, though possibly other hardware) at the PoP site. BOX Participants would be required to pay this fee only if they have physical installations at the BOX PoP and for which BOX incurs fees from its own service suppliers.

Finally, there is also a "Cross Connect" fee per physical connection which varies by size from the smallest (T-1) to the largest (CAT 5).¹⁹

There also would be fees for optional services such as:

CMS Order Routing Service Fee. This service is optional for BOX Participants and is offered as an alternative to the FIX and proprietary gateways to the BOX Trading Host. The CMS Gateway is a service provided by BOX to those BOX Participants who use the CMS protocol for routing orders. CMS may only be used for agency activities (and not proprietary orders and market maker activities). BOX has subcontracted with a software bureau for the operation of this gateway; the per firm, per month fee is to recuperate some of the costs BOX incurs in paying the software supplier to provide this service.²⁰ **Back Office Trade Management Software ("TMS") Fee.** TMS is optional software which BOX Participants may subscribe to in order to manage their BOX trades prior to their transmission by BOX to OCC. It is useful only to BOX Participants acting as agent for public customers or other broker-dealer accounts. If a firm is able to include all relevant clearing data on an order prior to sending it to BOX, this software is not required since the order entry formats of BOX messages allow the BOX Participant to achieve straight through processing.²¹

Testing and Support for Third Party Providers Fee. Third Party Service Providers, generally either Independent Software Vendors ("ISVs") who provide "front end" trading software systems or service bureaus which provide and operate order routing systems for broker dealers, may connect to the BOX Trading Host test platform. This is

necessary both to establish initial compatibility of their software as well as to maintain this connectivity as the BOX Trading Host implements upgrades and evolutions. This fee is charged directly to the Third Party Service Provider, not the Options Participant, and is not charged to BOX Participants who connect their proprietary software systems to the BOX Trading Host.²²

None of the technology related fees would be billed prior to the launch of trading on BOX.

In all instances, the Exchange has strived to structure its fees to eliminate complexity and hidden charges in its BOX fee schedule, and, to that end, is proposing a minimal number of fees at very competitive rates.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements under section 6(b) of the Act,²³ in general, and furthers the objective of section 6(b)(4) of the Act,²⁴ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among its members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange did not solicit or receive written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the Exchange consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

²² See section 5(d) of the proposed BOX Fee Schedule.

²³ 15 U.S.C. 78f(b).

²⁴ 15 U.S.C. 78f(b)(4).

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filings will also be available for inspection and copying at the principal office of the Exchange. All submissions should refer to File No. SR-BSE-2003-17 and should be submitted by December 11, 2003.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²⁵

Margaret H. McFarland,
Deputy Secretary.

[Public Notice 4540]

Bureau of Educational and Cultural Affairs Request for Grant Proposal: Elementary School Curriculum Development and Teacher Education Project for Azerbaijan

Summary: The Office of Global Educational Programs of the Bureau of Educational and Cultural Affairs in the Department of State announces an open competition for an assistance award to support planning, implementing and evaluating a project to improve elementary education in Azerbaijan through subject-related curriculum development and teacher training. Public and private non-profit organizations meeting the provisions described in IRS regulation 26 U.S.C. 501(c)(3) may submit proposals to cooperate with the Bureau in the administration of a three-year project to develop elementary school curricula in a limited range of subjects together with a related teaching methodology manual for elementary school teachers, and to pilot-test and disseminate the subject-related curricula and the teachers' manual in schools and at teacher training sites in Azerbaijan.

Important Note: This Request for Grant Proposals contains language in the "Shipment and Deadline for Proposals" that is significantly different from that used in the past. Please pay special attention to procedural changes as outlined.

Project Overview

The project is intended to assist Azerbaijan educators to improve elementary education in their country. The project will train a team of educators from Azerbaijan to develop curriculum in a limited range of elementary subjects. The same team will develop a handbook on teaching methodology for elementary school teachers that will relate to the subject-specific curricular materials. The materials and the teachers' handbook will be tested and disseminated in classrooms and at teacher training sites in Azerbaijan.

The rationale for this project is that by introducing more interactive, student-centered teaching practices tied to relevant elementary-level studies in Azerbaijan, educators in that country will be better equipped to prepare students to participate as citizens in a democratic society. As part of the effort to promote cooperative relationships within a democratic society, the project will also prepare teachers to relate effectively with other members of the educational community including administrators, parents, students, and officials responsible for educational oversight.

Project Design

The process for developing, testing, publishing, and disseminating the materials and the handbook should include a carefully designed series of exchange visits and related activities within a three-year period. Proposals should describe a strategy for administering the project effectively and for evaluating the results of project implementation. Proposals should also demonstrate that the project's objectives are feasible within the budget proposed and take into account local conditions that may affect recruitment, implementation, teacher training or pilot testing activities in Azerbaijan.

The project design should be outlined within the general framework of three project phases. (Full details for each project phase are contained in the POGI).

Phase One: Recruitment of Participants, Selection of Subjects, and Arrangement of Administrative Details

Although some of the activities in Phase I may be initiated and implemented through correspondence

or other kinds of distance communication, the U.S. grantee organization should include within Phase I a planning trip of approximately two to four weeks to Baku.

(1) Recruitment of participants: Within the first six months of the project, the U.S. grantee organization will communicate with the Public Affairs Section of the U.S. Embassy in Baku and with representatives of a local NGO active in the education sector or with other local educators to coordinate the recruitment and selection of approximately six Azerbaijan participants for the curriculum development team. The U.S. applicant should identify in the proposal an NGO or a network of elementary educators in Azerbaijan with which they propose to work in the recruitment effort. The curriculum development team should include participants with previous training and professional experience with elementary education, curriculum development and in-service teacher training.

(2) After the curriculum development team has been selected, the grantee organization should consult with the team members and with other elementary educators in Azerbaijan to assess the elementary educational curricula and related teaching materials that are currently in use in that country, as well as the U.S. materials that may be relevant to the needs of elementary teachers in Azerbaijan. Based on that analysis, the curriculum development team will select the elementary subjects in which the curricular materials will be developed and the methodologies which the teachers' manual will target.

(3) The grantee organization should consult with the Azerbaijan Ministry of Education regarding the following key features of the project (See POGI for contact information): (a) Approval of paid leave for the Azerbaijan participants during their stays in the U.S. and during subsequent periods of training in Azerbaijan; (b) facilitation of the logistics for the training sessions to be conducted in Azerbaijan through signed agreements with the Ministry of Education or other education authorities; (c) if the project includes activities that will ultimately require government approval, the proposal will include a plan for securing the approval of the Ministry or other relevant educational authorities.

Phase Two: U.S. Workshop

In Phase II of this project, members of the curriculum development team from Azerbaijan will spend approximately 12 weeks in the U.S. attending an intensive curriculum development workshop. The
