Direct Sale of Public Land in Shoshone
County, ID****AGENCY:** Bureau of Land Management,
Interior.**ACTION:** Notice of Realty Action.**SUMMARY:** The Bureau of Land
Management (BLM) proposes to sell a
0.07-acre parcel of public land in
Shoshone County, Idaho, to Sunshine
Precious Metals, Inc. (Sunshine) for the
appraised fair market value of \$280.**DATES:** Comments regarding the
proposed sale must be received by the
BLM on or before April 15, 2011.**ADDRESSES:** Written comments
concerning this proposed sale may be
submitted to Field Manager, BLM Coeur
d'Alene Field Office, 3815 Schreiber
Way, Coeur d'Alene, Idaho 83815.**FOR FURTHER INFORMATION CONTACT:**
Janna Paronto, Realty Specialist, at 3815
Schreiber Way, Coeur d'Alene, Idaho
83815 or phone (208) 769-5037.**SUPPLEMENTARY INFORMATION:** On
February 6, 2008, a Notice of Realty
Action (NORA) was published in the
Federal Register announcing the
proposed direct sale and segregation of
5.07 acres of public land in Shoshone
County, Idaho. No public comments
were received as a result of the
publication of the NORA. At this time,
the BLM is no longer proposing to sell
the 5-acre parcel and is announcing the
proposal to sell only the 0.07-acre
parcel, measuring 952 feet long and
averaging about 3 feet wide. This sale
will be made by direct sale to Sunshine
in accordance with Sections 203 and
209 of the Federal Land Policy and
Management Act of 1976 (FLPMA), as
amended (43 U.S.C. 1713 and 1719):**Boise Meridian**T. 48 N., R. 3 E.,
Sec. 15 lot 24.

Containing 0.07 acre, more or less.

The area described contains 0.07 acre
in Shoshone County, and its appraised
fair market value is \$280 based on an
approved BLM appraisal. A copy of the
appraisal is available for review at the
location identified in **ADDRESSES** above.
The 2007 BLM Coeur d'Alene Resource
Management Plan identifies this parcel
of public land as suitable for disposal
through direct sale to the historic land
user. This parcel is not needed for any
Federal purpose and is difficult anduneconomic to manage as public land.
The BLM is proposing a direct sale of
the 0.07-acre parcel, which is the
smallest legal subdivision that can be
used to describe this sliver of public
land, to Sunshine. A direct sale is
appropriate because Sunshine has used/
occupied a building(s) located on this
parcel since the 1930s. The public
interest would be best served by
disposing of this parcel to the user/
occupant by direct sale. The disposal
parcel contains no known mineral
values and the conveyance would
include the simultaneous conveyance of
the Federal mineral interests with the
sale of the land. In addition to the
appraised fair market value, Sunshine
would be required to pay a \$50
nonrefundable filing fee for conveyance
of the mineral interests. Any patent
issued will be subject to all valid
existing rights of record and contain the
following terms, conditions, and
reservations.a. A reservation of a right-of-way to
the United States for ditches and canals
constructed by authority of the United
States under the Act of August 30, 1890
(43 U.S.C. 945);b. A notice and indemnification
statement under the Comprehensive
Environmental Response, Compensation
and Liability Act (CERCLA), 42 U.S.C.
9620(h), indemnifying and holding the
United States harmless from any release
of hazardous materials that may have
occurred. To the extent required by law,
the sale will be subject to the
requirements of section 120(h) of
CERCLA, 42 U.S.C. 9620(h).Detailed information concerning the
proposed land sale including the
appraisal, planning and environmental
documents, and a mineral report are
available for review at the BLM Coeur
d'Alene Office at the location identified
in the **ADDRESSES** section above. Normal
business hours are 7:45 a.m. to 4:30
p.m., Monday through Friday, except
Federal holidays.**Public Comments:** Public comments
regarding the proposed sale may be
submitted in writing to the BLM Coeur
d'Alene Field Manager (*see* **ADDRESSES**
section) on or before April 15, 2011.
Comments received in electronic form,
such as e-mail or facsimile, will not be
considered. Any adverse comments
regarding the proposed sale will be
reviewed by the BLM Idaho State
Director or other authorized official of
the Department of the Interior, who may
sustain, vacate, or modify this realty
action in whole or in part. In the
absence of timely filed objections, this
realty action will become the final
determination of the Department of theInterior not less than 60 days from
March 1, 2011.Before including your address, phone

SUPPLEMENTARY INFORMATION:**Request for Comments**

Comments are solicited as to: (1) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used; (3) the quality, utility, and clarity of the information to be collected; and (4) minimization of the burden of the proposed information collection on those who are to respond (including through the use of appropriate automated, electronic, mechanical, or other technological forms of information technology, *e.g.*, permitting electronic submission of responses).

Summary of the Proposed Information Collections*(1) Need for the Proposed Information Collections*

The information requested in questionnaires and five-year sunset review institution notices issued under the generic survey clearance is utilized by the Commission in the following statutory investigations: Antidumping duty, countervailing duty, escape clause, North American Free Trade Agreement (NAFTA) safeguard, market disruption, and interference with programs of the U.S. Department of Agriculture (USDA). The Commission's generic survey clearance to issue questionnaires will not apply to repetitive questionnaires such as those issued on a quarterly or annual basis or to other investigations and research studies conducted under section 332 of the Trade Act of 1974. The information provided by firms in response to the questionnaires provides the basis for the Commission's determinations in the

above-cited statutory investigations. The submitted data are consolidated by Commission staff and provided to the Commission in the form of a staff report. In addition, in the majority of its investigations, the Commission releases completed questionnaires returned by industry participants to representatives of parties to its investigations under the terms of an administrative protective order, the terms of which safeguard the confidentiality of any business proprietary or business confidential information. Representatives of interested parties also receive a confidential version of the staff report under the administrative protective order. Subsequent party submissions to the Commission during the investigative process are based, in large part, upon their review of the information collected. Included in the proposed generic clearance are the institution notices for the five-year sunset reviews of antidumping and countervailing duty orders and suspended investigations. Responses to the institution notices will be evaluated by the Commission and form much of the record for its determinations to conduct either expedited or full five-year sunset reviews of existing antidumping and countervailing duty orders.

(2) Information Collection Plan

Questionnaires for specific investigations are sent to all identified domestic producers manufacturing the product(s) in question. Importer and purchaser questionnaires are also sent to all substantial importers/purchasers of the product(s). Finally, all foreign manufacturers of the product(s) in question that are represented by counsel are sent questionnaires, and, in addition, the Commission attempts to contact any other foreign manufacturers, especially if they export the product(s) in question to the United States. Firms receiving questionnaires include businesses, farms, and/or other for-profit institutions; responses are mandatory. The institution notices for the five-year sunset reviews are published in the **Federal Register** and solicit comment from interested parties (*i.e.*, U.S. producers within the industry in question as well as labor unions or representative groups of workers, U.S. importers and foreign exporters, and involved foreign country governments).

(3) Description of the Information To Be Collected

Although the content of each questionnaire will differ based on the needs of a particular investigation, questionnaires are based on long-established, generic formats. Producer

questionnaires generally consist of the following four parts: (part I) General questions relating to the organization and activities of the firm; (part II) data on capacity, production, inventories, employment, and the quantity and value of the firm's shipments and purchases from various sources; (part III) financial data, including income-and-loss data on the product in question, data on asset valuation, research and development expenses, and capital expenditures; and (part IV) pricing and market factors. (Questionnaires may, on occasion, also contain part V, an abbreviated version of the above-listed parts, used for gathering data on additional product categories.) Importer questionnaires generally consist of three parts: (part I) General questions relating to the organization and activities of the firm; (part II) data on the firm's imports and the shipment and inventories of its imports; and (part III) pricing and market factors similar to that requested in the producer questionnaire. Purchaser questionnaires generally consist of five parts: (part I) General questions relating to the organization and activities of the firm; (part II) data concerning the purchases of the product by the firm; (part III) market characteristics and purchasing practices; (part IV) comparisons between imported and U.S.-produced product; and (part V) actual purchase prices for specific types of domestic and subject imported products and the names of the firm's vendors. Foreign producer questionnaires generally consist of (part I) general questions relating to the organization and activities of the firm; (part II) data concerning the firm's manufacturing operations; and may include (part III) market factors. The notices of institution for the five-year sunset reviews include 11 specific requests for information that firms are to provide if their response is to be considered by the Commission.

(4) Estimated Burden of the Proposed Information Collection

The Commission estimates that information collections issued under the requested generic clearance will impose an average annual burden of 186,002 burden hours on 4,221 respondents (*i.e.*, recipients that provide a response to the Commission's questionnaires or the notices of institution of five-year sunset reviews). Table 1 lists the projected annual burden for each type of information collection for the July 2011–June 2014 period.

(5) Minimization of Burden

The Commission periodically reviews its investigative processes, including data collection, to reduce the

information burden. Questionnaires clearly state that estimates are acceptable for certain items. They are designed in part with check-in type formats to simplify the response. The reporting burden for smaller firms is reduced in that the sections of the questionnaire that are applicable to their operations are typically more limited. Requests by parties to expand the data collection or add items to the questionnaire for specific investigations

may not be accepted if the Commission believes such requests will increase the response burden while not substantially adding to the investigative record. Completed questionnaires have traditionally been returned to the Commission in paper form, however the Commission is promoting options for electronic submission. For example, the Commission provides the questionnaires on the Commission's Web site in a fillable Word format and

has created a secure drop box which questionnaire respondents can use to securely upload completed questionnaires. The information provided in response to its notices of institution for the five-year sunset reviews is typically submitted in document form directly to the Office of the Secretary although it may be submitted to the Commission's Electronic Data Information System (EDIS) and Electronic Docket.

TABLE 1—PROJECTED ANNUAL BURDEN DATA, BY TYPE OF INFORMATION COLLECTION, JULY 2008–JUNE 2011
