

section by the deadlines set forth in paragraphs (a) through (g) of this section.

§ 54.1515 Disaster preparation and response measures.

(a) Each recipient of fixed and mobile support from Stage 2 of the Uniendo a Puerto Rico Fund and the Connect USVI Fund shall create, maintain, and submit to the Wireline Competition Bureau for its review and approval a detailed Disaster Preparation and Response Plan document that describes and commits to the methods and procedures that it will use, during the period in which it receives Stage 2 support, to prepare for and respond to disasters in the Territories, including detailed descriptions of methods and processes to strengthen infrastructure; to ensure network diversity; to ensure backup power; to monitor its network; and to prepare for emergencies.

(b) Each Stage 2 support recipient shall submit the Disaster Preparation and Response Plan to the Bureau for its review and approval prior to receiving Stage 2 support. The Bureau shall approve submitted Disaster Preparation and Response Plans that are complete and thoroughly address the criteria enumerated in paragraph (a) of this section. The Bureau shall notify the support recipient of deficiencies identified in the Disaster Preparation and Response Plan and withhold authorization to receive funding until the support recipient has cured the deficiencies. Recipients shall materially comply with the representations in the document, once approved.

(c) Recipients shall amend their Disaster Preparation and Response Plan following any material change(s) to internal processes and responsibilities and provide the updated Disaster Preparation and Response Plan to the Bureau within 10 business days following the material change(s).

(d) Stage 2 support recipients shall use the Disaster Information Reporting System for mandatory reporting. (See www.fcc.gov/general/disaster-information-reporting-system-dirs-0 for more information.)

50 CFR Part 679

[Docket No. 180713633-9174-02]

RIN 0648-XY052

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amount of Pacific cod total allowable catch (TAC) from trawl catcher vessels and vessels using jig gear to catcher/processors using pot gear and catcher vessels less than 60 feet (18.3 meters) length overall (LOA) using hook-and-line or pot gear in the Bering Sea and Aleutian Islands management area. This action is necessary to allow the 2019 TAC of Pacific cod to be harvested.

DATES: Effective November 6, 2019, through 2400 hours, Alaska local time (A.l.t.), December 31, 2019.

FOR FURTHER INFORMATION CONTACT: Josh Keaton 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Bering Sea and Aleutian Islands (BSAI) according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2019 Pacific cod TAC specified for catcher vessels using trawl gear in the BSAI is 34,660 metric tons (mt) as established by the final 2019 and 2020 harvest specifications for groundfish in the BSAI (84 FR 9000, March 13, 2019), and two reallocations (84 FR 2068, February 6, 2019, 84 FR 43727, August 21, 2019).

The 2019 Pacific cod TAC specified for vessels using jig gear in the BSAI is 559 mt as established by the final 2019 and 2020 harvest specifications for groundfish in the BSAI (84 FR 9000, March 13, 2019), and two reallocations (84 FR 2068, February 6, 2019, 84 FR 43727, August 21, 2019).

The 2019 Pacific cod TAC specified for catcher/processors using pot gear in the BSAI is 2,410 mt as established by the final 2019 and 2020 harvest specifications for groundfish in the BSAI (84 FR 9000, March 13, 2019).

The 2019 Pacific cod TAC allocated to catcher vessels less than 60 feet (18.3 meters(m)) length overall (LOA) using hook-and-line or pot gear in the BSAI is 6,235 mt as established by the final 2019 and 2020 harvest specifications for groundfish in the BSAI (84 FR 9000, March 13, 2019) and two reallocations (84 FR 2068, February 6, 2019, 84 FR 43727, August 21, 2019).

The Administrator, Alaska Region, NMFS, (Regional Administrator) has determined that catcher vessels using trawl gear will not be able to harvest 2,500 mt of the 2019 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(9) and jig vessels will not be able to harvest 400 mt of the 2019 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(1).

Therefore, in accordance with § 679.20(a)(7)(iii), NMFS reallocates 2,500 mt from the trawl catcher vessel apportionment to the annual amount specified for catcher/processors using pot gear and catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear. Also, in accordance with § 679.20(a)(7)(iv)(C), NMFS reallocates 400 mt of Pacific cod from the jig gear apportionment to the annual amount specified for catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear.

The harvest specifications for Pacific cod included in final 2019 and 2020 harvest specifications for groundfish in the BSAI (84 FR 9000, March 13, 2019) and two reallocations (84 FR 2068, February 6, 2019, 84 FR 43727, August 21, 2019) are revised as follows: 32,160 mt to catcher vessels using trawl gear, 159 mt to vessels using jig gear, 2,745 mt to catcher/processors using pot gear, and 8,800 mt to catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries

data in a timely fashion and would delay the reallocations of Pacific cod to catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear. Since the fishery is currently open, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential

disruption to the fishing fleet as well as processors. NMFS was unable to publish a notification providing time for public comment because the most recent, relevant data only became available as of October 21, 2019.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 31, 2019.

Ngagne Jafnar Gueye,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
