Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: The WARN Act gives the Commission authority to adopt relevant technical standards, protocols, procedures and other technical requirements governing Wireless Emergency Alerts (WEA). The Commission adopted rules to implement the WEA system (previously known as the Commercial Mobile Service Alert System) pursuant to the WARN Act to satisfy the Commission's mandate to promote the safety of life and property through the use of wire and radio communication. The WEA system transmits emergency alerts to WEA-capable mobile devices, providing consumers with timely warnings and information in emergencies. In 2018, the Commission issued a Report & Order requiring that Participating Commercial Mobile Service Providers (providers) implement enhanced geo-targeting functionality by November 30, 2019 to allow WEA alert originators (e.g., local emergency management offices) to target a WEA alert to eligible devices in a prescribed geographic area (e.g., an area where there is imminent threat of the loss of life or property). See Federal Communications Commission, Wireless Emergency Alerts; Emergency Alert System, 83 FR 8619, 8623 (Feb. 28, 2018) (announcing a Nov. 30, 2019 amendment to 47 CFR 10.450).

The Commission now seeks to evaluate WEA performance, particularly with respect to the accuracy of providers' geo-targeting capabilities. To do so, the Commission will use surveys to collect information and evaluate performance during a WEA test. Survey respondents affiliated with two alert originators, partnered with the Commission in different geographic areas of the country, will be asked to complete a preliminary survey. This survey will improve the utility of a "live test" survey, which respondents will subsequently receive via a hyperlink embedded in a WEA test alert. The Commission has developed survey templates, which are available at <https://www.fcc.gov/files/preliminarysurvey0719pdf> and <https://www.fcc.gov/files/livetestsurvey0719pdf>, that are representative of how the surveys will appear on the Commission's Public Safety Support Center, and seeks OMB approval of these templates as a new information collection. The information sought in

this collection is necessary and vital to ensuring that WEA is effective at protecting the life and property of the public.
