Docket No. 01–ASW–10]

**RIN 2120–AA66**

**Amendment to Time of Designation for Restricted Area R–4403; Gainesville, MS**

**AGENCY:** Federal Aviation  
Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action reduces the time of designation for Restricted Area 4403 (R–4403), Gainesville, MS, from “Continuous,” to “Intermittent, 0600–2300 local time daily; other times by NOTAM 24 hours in advance.” The FAA is taking this action in response to a request from the National Aeronautics and Space Administration (NASA) which is the designated using agency for R–4403.

**EFFECTIVE DATE:** 0901 UTC, December 27, 2001.

**FOR FURTHER INFORMATION CONTACT:** Paul Gallant, Airspace and Rules Division, ATA–400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–8783.

**SUPPLEMENTARY INFORMATION:**

**Background**

As a result of a review of restricted area activity, NASA has requested the FAA to reduce the time of operation for R–4403 to more accurately reflect actual requirements for the airspace. This change reduces the burden on the flying public. This action does not alter the boundaries, designated altitudes, or type of activities conducted within the restricted area.

**The Rule**

This amendment to 14 CFR part 73 changes the time of designation for R–4403, Gainesville, MS, from “continuous” to “Intermittent, 0600–2300 local time daily; other times by NOTAM 24 hours in advance.” The FAA is taking this action in response to written notification from the using agency that a reduction in the time of designation for the restricted area is appropriate.

Since this change reduces the burden on the flying public by reducing the amount of time that R–4403 is activated, and because this action does not affect the boundaries, designated altitudes, or activities conducted therein; I find that notice and public procedures under 5 U.S.C. 553(b) are unnecessary.

**Environmental Review**

In accordance with FAA Order 1050.1D, “Policies and Procedures for Handling Environmental Impacts,” and the National Environmental Policy Act of 1969, this action is not subject to environmental assessments and procedures.

**List of Subjects in 14 CFR Part 73**

Airspace, Navigation (air).

**Adoption of the Amendment**

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 73 as follows:

**PART 73—SPECIAL USE AIRSPACE**

1. The authority citation for part 73 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

**§ 73.44 [Amended]**

2. § 73.44 is amended as follows:

\* \* \* \* \*

**R–4403 Gainesville, MS [Amended]**

By removing “Time of Designation. Continuous.” and inserting “Time of Designation. Intermittent, 0600–2300 local time daily; other times by NOTAM 24 hours in advance.”

\* \* \* \* \*

Issued in Washington, DC, on October 18, 2001.

**CONSUMER PRODUCT SAFETY COMMISSION**

**16 CFR 1700**

**Household Products Containing Hydrocarbons; Final Rules**

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Final Rules.

**SUMMARY:** These rules, promulgated under authority of the Poison Prevention Packaging Act (PPPA), require child-resistant (CR) packaging for certain products that contain low-viscosity hydrocarbons. (The Commission voted 3–0 to issue this final rule. The statements of Chairman Brown and Commissioners Gall and Moore concerning the vote are available from the CPSC Office of the Secretary.) This requirement is intended to protect children under five years of age from serious injury associated with aspiration of hydrocarbon products. The requirement applies to certain prepackaged nonemulsion-type liquid household chemical products, including drugs and cosmetics, that contain ten (10) percent or more hydrocarbons by weight and have a viscosity of less than one hundred (100) Saybolt Universal Seconds (SUS) at 100 °F (covered products). For purposes of these rules, hydrocarbons are defined as compounds that consist solely of carbon and hydrogen. For a product that contains multiple hydrocarbons, the total percentage of hydrocarbons in the product is the sum of the percentages by weight of the individual hydrocarbon components.

**DATES:** These rules become effective October 25, 2002, and apply to covered products packaged on or after that date.

**ADDRESSES:** Copies of documents relevant to this rulemaking can be
