Federal Transit Administration

[FTA Docket No. FTA-2001-10120]

Agency Information Collection Activity Under OMB Review

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for approval. The **Federal Register** Notice with a 60-day comment period soliciting comments was published on April 20, 2001.

DATES: Comments must be submitted before August 15, 2001. A comment to OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT:

Sylvia L. Marion, Office of Administration, Office of Management Planning, (202) 366-6680.

SUPPLEMENTARY INFORMATION: *Title:* 49 CFR part 611 Major Capital Investment Projects

Abstract: On June 9, 1998, the Transportation Equity Act for the 21st Century (TEA-21) (Pub. L. 105-178)

was enacted. Section 3009(e)(5) of TEA-21 requires FTA to issue regulations on the manner in which candidate projects for capital investment grants and loans for new fixed guideway systems and extensions to existing systems ("new starts") will be evaluated and rated for purposes of the FTA Capital Investment Grants and Loans program for new starts under 49 U.S.C. Section 5309.

The Notice of Proposed Rulemaking (NPRM) for this regulation was issued on April 7, 1999, (64 FR 17062). The docket was open for public comment through July 6, 1999, though late-filed comments were accepted through July 19, 1999. Comments were received from a total of 41 individuals and organizations. During the comment period, FTA held three additional public outreach workshops to solicit comments on the proposed rule: one in Toronto, Ontario, on May 24, 1999, in conjunction with the 1999 American Public Transit Association's Commuter Rail/Rapid Transit Conference; one in Oakland, California, on June 3, 1999; and one in Washington, DC, on June 8, 1999. Notes from these workshops have been placed in the docket for this rule (Docket No. FTA-99-5474-48).

The Final Rule was issued on December 7, 2000, (65 FR 76864) noting that a separate burden analysis would be published for public comment and that FTA would seek a control number from the Office of Management and Budget (OMB) authorizing FTA to collect the required information. This notice serves that purpose. It is important to note that while the new starts project evaluation and rating regulation is new, the requirements for project evaluation and data collection for the new starts program are not. FTA's requirement to evaluate proposed new starts against a prescribed set of statutory criteria is longstanding. The Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA) established in law a set of criteria that proposed projects had to meet in order to be eligible for federal funding. The requirement for summary project ratings has been in place since 1998.

In general, the information used by FTA for new starts project evaluation and rating purposes should arise as a part of the normal planning process. Prior to this Rule, FTA collected project evaluation information from project sponsors under a Paperwork Reduction Act request (OMB No. 2132-0529) approved under the joint FTA/FHWA planning regulations. However, as the project evaluation criteria have expanded under TEA-21, it has become apparent that some information required
