* * * * *

Note 6 to § 76.501: In applying paragraph (a) of § 76.501, for purposes of paragraph note 2(i) of this section, attribution of ownership interests in an entity covered by this rule that are held indirectly by any party through one or more intervening organizations will be determined by successive multiplication of the ownership percentages for each link in the vertical ownership chain and application of the relevant attribution benchmark to the resulting product. The ownership percentage for any link in the chain that exceeds 50% shall be included. [For example, if A owns 10% of company X, which owns 60% of company Y, which owns 25% of "Licensee," then X's interest in "Licensee" would be 15% (0.6x0.25), and A's interest in "Licensee" would be 1.5% (0.1x0.6x0.25).]

Broadcast Services; Radio Stations, Television Stations

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document resolves a number of issues concerning the transition to digital broadcast television (DTV). Among the issues resolved in the Report and Order are: when to require election by licensees of their post-transition DTV channel; whether to require replication by DTV licensees of their NTSC Grade B service contours; whether to require enhanced service to the principal community served by DTV licensees; and how we should process mutually exclusive applications. We also address in this document a host of technical issues and determine that at this time there is no persuasive information to indicate that there is any deficiency in the 8-VSB modulation system of the DTV transmission standard that would cause us to revisit
