SUPPLEMENTARY INFORMATION:

I. Background

This guidance describes internal office procedures to ensure that an advisory panel reviewing a premarket submission or other regulatory documents includes or consults with one or more pediatric experts, when appropriate.

FDA is making this guidance effective immediately because there is a statutory requirement that requires immediate implementation, and guidance is needed to help effect such implementation. On October 26, 2002, the Medical Device User Fee and Modernization Act of 2002 (MDUFMA) was signed into law. MDUFMA amended section 515(c) (21 U.S.C. 360e(c)) Application for Premarket Approval of the Federal Food, Drug, and Cosmetic Act to read in part, "Where appropriate, the Secretary shall ensure that such panel includes, or consults with, one or more pediatric experts." The guidance describes circumstances where FDA believes that pediatric expertise on the advisory panel is appropriate as well as the steps FDA will take to ensure pediatric expertise is available.

II. Significance of Guidance

This guidance is being issued consistent with FDA's GGPs regulation (21 CFR 10.115). The guidance represents the agency's current thinking on pediatric expertise in FDA advisory panels. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statute and regulations.

III. Comments

Interested persons may submit to the Dockets Management Branch (see **ADDRESSES**) written or electronic

comments regarding this document. Submit a single copy of electronic comments or two paper copies of any mailed comments, except that individuals may submit one paper copy.
