

order directed to domestic respondent Mextec. The ALJ also recommended that the Commission set a bond of 100 percent for products imported during the period of Presidential review.

On October 7, 2010, the Commission issued notice of its determination not to review the final ID, and to solicit submissions on remedy, the public interest, and bonding. On October 28, 2010, HP and the Commission investigative attorney filed submissions with respect thereto. After reviewing the relevant portions of the record, the Commission has determined to issue a general exclusion order with respect to claims 6 and 9 of the '687 patent and claims 1, 5, and 6 of the '301 patent, and a cease and desist order against Mextec with respect to the same claims.

The Commission has therefore terminated this investigation. The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and sections 210.16(c), 210.41–42, and 210.50 of the Commission's Rules of Practice and Procedure (19 CFR 210.16(c), 210.41–42, and 210.50).

By order of the Commission.

Issued: January 11, 2011.

Marilyn R. Abbott,

Secretary to the Commission.

Notice of Lodging of Consent Decree Under the Clean Air Act

Notice is hereby given that on December 30, 2010, a proposed Consent Decree in *United States v. Gasco Energy Inc., et al.*, Civil Action No. 2:10–CV–01282–PMW, was lodged with the United States District Court for the District of Utah.

In this action the United States seeks civil penalties and injunctive relief for alleged violations of the Clean Air Act (“CAA”), 42 U.S.C. 7401 *et seq.*, at Gasco Energy Inc.’s (“Gasco”) Riverbend compressor station in Uintah County, Utah. Specifically, the United States alleges that Gasco failed to control the emission of hazardous air pollutants (“HAPs”) as required by Section 112 of the CAA, 42 U.S.C. 7412, and 40 CFR part 63, subpart HH (applicable to certain glycol dehydrators at natural gas production facilities) and subpart ZZZZ (applicable to certain reciprocating internal combustion engines at natural gas production facilities). The proposed consent decree would require Gasco to

pay a civil penalty of \$350,000, comply with regulatory requirements, and make additional reductions in emissions through a requirement to retrofit or replace certain high bleed pneumatic controllers with “low bleed” components.
