SUPPLEMENTARY INFORMATION:

Title: FERC–516A, Standardization of Small Generator Interconnection Agreements and Procedures.

OMB Control No.: 1902–0203.

Type of Request: Three-year extension of the FERC–516A information collection requirements with no changes to the current reporting requirements.¹

Abstract: Sections 205 and 206 of the Federal Power Act (FPA) (16 U.S.C. 824d and 824e) require the Commission to ensure just and reasonable electric transmission rates and charges, and ensure that jurisdictional providers do not subject any person to any undue prejudice or disadvantage. In order to implement these Commission responsibilities, the regulation at 18 CFR 35.28(f)(1) requires transmission providers to include the following information in their open-access transmission tariffs (OATTs):²

- Commission-approved, standard, *pro forma* interconnection procedures (*i.e.*, small generator interconnection procedures or SGIP); and
- A single, uniformly applicable interconnection agreement (*i.e.*, a small generator interconnection agreement or SGIA).

This information helps the Commission ensure that transmission providers consider and process interconnection requests by small generators consistently and in compliance with the FPA.

Type of Respondents: Jurisdictional transmission service providers and interconnection customers.

Estimate of Annual Burden:³ The Commission estimates the annual public reporting burden for the information collection as follows:

Requirements ⁴	Number of respondents annually (1)	Annual number of responses per respondent (2)	Total number of responses (1) * (2) = (3)	Average burden & cost per response ⁵ (4)	Total annual burden hours & total annual cost (3) * (4) = (5)	Cost per respondent (\$) (5) ÷ (1)
Maintenance of Documents—Transmission Providers.	46	1	46	1 hr.; \$87.00	46 hrs.; \$4,002	\$87.00
Filing of Agreements—Transmission Providers.	95	1	95	25 hrs.; \$2,175.00	2,375 hrs.; \$206,625	2,175.00
Pre-Application Report—Interconnection Customers ⁶ .	800	1	800	1 hr.; \$87.00	800 hrs.; \$69,600	87.00
Pre-Application Report—Transmission Providers.	142	6	852	2.5 hrs.; \$217.50	2,130 hrs.; \$185,310	1,305
Supplemental Review—Interconnection Customers.	500	1	500	0.5 hr.; \$43.50	250 hrs.; \$21,750	43.50
Supplemental Review—Transmission Providers.	142	3.52	* 500	20 hrs.; \$1,740.00	10,000 hrs.; \$870,000	* 6,126.76

¹ This information collection request does not include the revisions in the information collection request involving FERC–516 and FERC–516A in the proposed rule in FERC Docket No. RM22–14–000.

² The regulation at 35.28(c)(1) requires an OATT “of general applicability” for every public utility that owns, controls, or operates facilities used for the transmission of electric energy in interstate commerce. The OATT must be the *pro forma* tariff promulgated by the Commission, as amended from time to time, or such other tariff as may be approved by the Commission consistent with the principles set forth in Commission rulemaking proceedings promulgating and amending the *pro forma* tariff.

³ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For

further explanation of what is included in the information collection burden, see 5 CFR 1320.3.

⁴ All requirements for transmission providers are mandatory. All requirements for interconnection customers are voluntary.

⁵ Commission staff assumes that the average hourly cost (including wages and benefits) for the industry is comparable to the \$87.00 average hourly cost in FY2021 (including wages and benefits) for Commission employees.

⁶ We assume each request for a pre-application report corresponds with one Interconnection Customer.

Requirements ⁴	Number of respondents annually	Annual number of responses per respondent	Total number of responses	Average burden & cost per response ⁵	Total annual burden hours & total annual cost	Cost per respondent (\$)
	(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
Review of Required Upgrades—Inter-connection Customers.	250	1	250	1 hr.; \$87.00	250 hrs.; \$21,750	87.00
Review of Required Upgrades—Transmission Providers.	142	1.76	250	2 hrs.; \$174	500 hrs.; \$43,500	* 306.34
Totals			3,293		16,351 hrs.; \$1,422,537	

* (rounded).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: December 15, 2022.

Deputy Secretary.
