Upon publication of this notice in the  
**Federal Register**, the above described  
 land will be segregated from all forms of

## INTERNATIONAL TRADE COMMISSION

### [Investigations Nos. 731-TA-839-840 (Final)]

#### Certain Cold-Rolled Steel Products From Turkey and Venezuela

##### Determinations

On the basis of the record<sup>1</sup> developed in the subject investigations, the United States International Trade Commission determines,<sup>2</sup> pursuant to section 735(b) of the Tariff Act of 1930 (19 U.S.C. § 1673d(b)) (the Act), that an industry in the United States is not materially injured or threatened with material injury, and the establishment of an industry in the United States is not materially retarded, by reason of imports of certain cold-rolled steel products from Turkey and Venezuela that have been found by the Department of Commerce to be sold in the United States at less than fair value (LTFV).

##### Background

The Commission instituted these investigations effective June 2, 1999, following receipt of petitions filed with the Commission and the Department of Commerce by Bethlehem Steel Corporation (Bethlehem, PA); U.S. Steel Group (Pittsburgh, PA); Ispat Inland, Inc. (East Chicago, IL); LTV Steel Co., Inc. (Cleveland, OH); National Steel Corporation (Mishawaka, IN); Gulf States Steel, Inc. (Gadsden, AL); Steel Dynamics, Inc. (Butler, IN); Weirton Steel Corporation (Weirton, WV); and the United States Steelworkers of America, Pittsburgh, PA. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by the Department of Commerce that imports of cold-rolled steel from Turkey and Venezuela were

being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. § 1673b(b)). Notice of the scheduling of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of December 1, 1999 (64 FR 67307). The hearing was held in Washington, DC, on January 20, 2000, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on May 4, 2000. The views of the Commission are contained in USITC Publication 3297 (May 2000), entitled Certain Cold-Rolled Steel Products from Turkey and Venezuela: Investigations Nos. 731-TA-839-840 (Final).

Issued: May 11, 2000.

#### Electrolytic Manganese Dioxide From Greece and Japan

##### Determinations

On the basis of the record<sup>1</sup> developed in the subject five-year reviews, the United States International Trade Commission determines, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act), that revocation of the antidumping duty orders on electrolytic manganese dioxide from Greece and Japan would not be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.<sup>2</sup>

##### Background

The Commission instituted these reviews on May 3, 1999 (64 FR 23675) and determined on August 25, 1999 that it would conduct full reviews (64 FR 46407, August 25, 1999). Notice of the scheduling of the Commission's reviews

and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on October 6, 1999 (64 FR 54353). The hearing was held in Washington, DC, on March 2, 2000, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these reviews to the Secretary of Commerce on May 9, 2000. The views of the Commission are contained in USITC Publication 3296 (May 2000), entitled Electrolytic Manganese Dioxide from Greece and Japan: Investigations Nos. 731-TA 406 and 408 (Review).
