

following: (i) The names of the dealers; (ii) the names of the securities; (iii) the prices quoted; and (iv) the times and dates the quotations were received. In the case of variable rate demand notes, the same records shall be maintained except that the rates of return quoted will be substituted for the prices quoted.

b. Records sufficient to verify compliance with the volume limitations contained in condition (4) above. JPMSI will provide the Money Market Funds with all records and information necessary to implement this requirement.

The records required by this condition (7) will be maintained and preserved in the same manner as records required under rule 31a-1(b)(1) under the Act.

8. The legal and compliance departments of JPMSI and the Advisers will prepare and administer guidelines for personnel of JPMSI and the Advisers to make certain that transactions conducted pursuant to the order comply with the conditions set forth in the order and that the parties generally maintain arm's-length relationships. In the training of JPMSI's personnel, particular emphasis will be placed upon the fact that the Money Market Funds are to receive rates as favorable as other institutional purchasers buying the same quantities. The legal and compliance departments will periodically monitor the activities of JPMSI and the Advisers to make certain that the conditions set forth in the order are adhered to.

9. The Trustees who are not "interested persons," as defined in section 2(a)(19) of the Act ("Independent Trustees"), will approve, periodically review, and update as necessary, guidelines for the Money Market Funds and the Advisers that are reasonably designed to make certain that the transactions conducted pursuant to the exemption comply with the conditions set forth therein and that the above procedures are followed in all respects. The Independent Trustees will periodically monitor the activities of the Money Market Funds and the Advisers in this regard to ensure that these goals are being accomplished.

10. The Trustees, including a majority of the Independent Trustees, will have approved each Money Market Fund's participation in transactions conducted pursuant to the exemption and determined that such participation by the Money Market Fund is in the best interests of the Money Market Fund and its shareholders. The minutes of the meeting of the Trustees at which this approval was given must reflect in detail the reasons for the Trustees'

determination. The Trustees will review no less frequently than annually each Money Market Fund's participation in transactions conducted pursuant to the exemption during the prior year and determine whether the Money Market Fund's participation in such transactions continues to be in the best interests of the Money Market Fund and its shareholders. Such review will include (but not be limited to) (a) a comparison of the volume of transactions in each type of security conducted pursuant to the exemption to the market presence of JPMSI in the market for that type of security, which market data may be based on good faith estimates to the extent that current formal data is not reasonably available, and (b) a determination that the Money Market Funds are maintaining appropriate trading relationships with other sources for each type of security, to ensure that there are appropriate sources for the quotations required by condition 3. The minutes of the meetings of the Trustees at which these determinations are made will reflect in detail the reasons for the Trustees' determinations.

11. A majority of Trustees will be Independent Trustees and these Independent Trustees will select and nominate any other Independent Trustees. Any person who acts as legal counsel for the Independent Trustees will be an independent legal counsel within the meaning of rule 0-1 under the Act.

For the Commission, by the Division of Investment Management, under delegated authority.

Jill M. Peterson,

Assistant Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49668; File No. SR-Amex-2004-21]

Self-Regulatory Organizations; Notice of Filing and Order Granting Accelerated Approval of a Proposed Rule Change by American Stock Exchange LLC Relating to Trust Certificates Linked to a Basket of Investment Grade Fixed Income Securities

May 7, 2004.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on March 29, 2004, the American Stock Exchange LLC ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons and is

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

approving the proposal on an accelerated basis.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to approve for listing and trading under Section 107A of the Amex Company Guide ("Company Guide"), trust certificates linked to a basket of investment grade fixed income debt instruments.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Amex included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The Amex has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

Under Section 107A of the Company Guide, the Exchange may approve for listing and trading securities which cannot be readily categorized under the listing criteria for common and preferred stocks, bonds, debentures, or warrants.³ The Amex proposes to list for trading under Section 107A of the Company Guide, the asset-backed securities ("ABS Securities") representing ownership interests in the Select Notes Trust 2004-03 ("Trust"), a special purpose trust to be formed by Structured Obligations Corporation ("SOC"),⁴ and the trustee of the Trust pursuant to a trust agreement, which will be entered into on the date that the ABS Securities are issued. The assets of the Trust will consist primarily of a basket or portfolio of up to approximately twenty-five (25) investment-grade fixed-income securities ("Underlying Corporate Bonds") and United States Department of Treasury STRIPS or securities issued by the United States Department of the Treasury ("Treasury Securities") or

government sponsored entity securities ("GSE Securities"). In the aggregate, the component securities of the basket or portfolio will be referred to as the "Underlying Securities."

The ABS Securities will conform to the initial listing guidelines under Section 107A⁵ and continued listing guidelines under Sections 1001-1003⁶ of the Company Guide. At the time of issuance, the ABS Securities will receive an investment grade rating from a nationally recognized securities rating organization ("NRSRO"). The issuance of the ABS Securities will be a repackaging of the Underlying Corporate Bonds together with the addition of either Treasury Securities or GSE Securities,⁷ with the obligation of the Trust to make distributions to holders of the ABS Securities depending on the amount of distributions received by the Trust on the Underlying Securities.

However, due to the pass-through and passive nature of the ABS Securities, the Exchange intends to rely on the assets and stockholder equity of the issuers of

⁵ The initial listing standards for the ABS Securities require: (1) A minimum public distribution of one million units; (2) a minimum of 400 shareholders; (3) a market value of at least \$4 million; and (4) a term of at least one year. However, if traded in thousand dollar denominations, then there is no minimum holder requirement. In addition, the listing guidelines provide that the issuer have assets in excess of \$100 million, stockholder's equity of at least \$10 million, and pre-tax income of at least \$750,000 in the last fiscal year or in two of the three prior fiscal years. In the case of an issuer which is unable to satisfy the earning criteria stated in Section 101 of the Company Guide, the Exchange pursuant to Section 107A of the Company Guide will require the issuer to have the following: (1) Assets in excess of \$200 million and stockholders' equity of at least \$10 million; or (2) assets in excess of \$100 million and stockholders' equity of at least \$20 million.

⁶ The Exchange's continued listing guidelines are set forth in Sections 1001 through 1003 of Part 10 to the Exchange's Company Guide. Section 1002(b) of the Company Guide states that the Exchange will consider removing from listing any security where, in the opinion of the Exchange, it appears that the extent of public distribution or aggregate market value has become so reduced to make further dealings on the Exchange inadvisable. With respect to continued listing guidelines for distribution of the ABS Securities, the Exchange will rely on the guidelines for bonds in Section 1003(b)(iv). Section 1003(b)(iv)(A) provides that the Exchange will normally consider suspending dealings in, or removing from the list, a security if the aggregate market value or the principal amount of bonds publicly held is less than \$400,000.

⁷ A GSE Security is a security that is issued by a government-sponsored entity such as Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), Student Loan Marketing Association (Sallie Mae), the Federal Home Loan Banks and the Federal Farm Credit Banks. All GSE debt is sponsored but not guaranteed by the federal government, whereas government agencies such as Government National Mortgage Association (Ginnie Mae) are divisions of the U.S. government whose securities are backed by the full faith and credit of the U.S.

the Underlying Corporate Bonds, as well as GSE Securities, rather than the Trust to meet the requirement in Section 107A of the Company Guide. The corporate issuers of the Underlying Corporate Bonds and GSE Securities will meet or exceed the requirements of Section 107A of the Company Guide. The distribution and principal amount/aggregate market value requirements found in Section 107A(b) and (c), respectively, will otherwise be met by the Trust as issuer of the ABS Securities. In addition, the Exchange for purposes of including Treasury Securities will rely on the fact that the issuer is the United States Government rather than the asset and stockholder tests found in Section 107A.

The basket of Underlying Securities will not be managed and will generally remain static over the term of the ABS Securities. Each of the Underlying Securities provides for the payment of interest on a semi-annual basis and the ABS Securities will provide for monthly or quarterly distributions of interest. Neither the Treasury Securities or GSE Securities will make periodic payments of interest.⁸ The Exchange represents that, to alleviate this cash flow timing issue, the Trust will enter into an interest distribution agreement ("Interest Distribution Agreement") as described in the prospectus supplement related to the ABS Securities ("Prospectus Supplement").⁹ Principal distributions on the ABS Securities are expected to be made on dates that correspond to the maturity dates of the Underlying Securities (*i.e.*, the Underlying Corporate Bonds and Treasury Securities or GSE Securities). However, some of the Underlying Securities may have redemption provisions and in the event of an early redemption or other liquidation (*e.g.*, upon an event of default) of the Underlying Securities, the proceeds from such redemption (including any make-whole premium associated with such redemption) or liquidation will be distributed pro rata to the holders of the ABS Securities. Each Underlying Corporate Bond will be issued by a

⁸ A stripped fixed income security, such as a Treasury Security or GSE Security, is a security that is separated into its periodic interest payments and principal repayment. The separate strips are then sold individually as zero coupon securities providing investors with a wide choice of alternative maturities.

⁹ Pursuant to the Interest Distribution Agreement, shortfalls in the amounts available to pay monthly or quarterly interest to holders of the ABS Securities due to the Underlying Securities paying interest semi-annually will be made to the Trust by JP Morgan Chase Bank or one of its affiliates and will be repaid out of future cash flow received by the Trust from the Underlying Securities.

corporate issuer and purchased in the secondary market.

In the case of Treasury Securities, the Trust will either purchase the securities directly from primary dealers or in the secondary market that consists of primary dealers, non-primary dealers, customers, financial institutions, non-financial institutions and individuals. Similarly, in the case of GSE Securities, the Trust will either purchase the securities directly from the issuer or in the secondary market.

Holders of the ABS Securities generally will receive interest on the face value in an amount to be determined at the time of issuance of the ABS Securities and disclosed to investors. The rate of interest payments will be based upon prevailing interest rates at the time of issuance and made to the extent that coupon payments are received from the Underlying Securities. Distributions of interest will be made monthly or quarterly. Investors will also be entitled to be repaid the principal of their ABS Securities from the proceeds of the principal payments on the Underlying Securities.¹⁰ The payout or return to investors on the ABS Securities will not be leveraged.

The ABS Securities will mature on the latest maturity date of the Underlying Securities. Holders of the ABS Securities will have no direct ability to exercise any of the rights of a holder of an Underlying Corporate Bond; however, holders of the ABS Securities as a group will have the right to direct the Trust in its exercise of its rights as holder of the Underlying Securities.

The proposed ABS Securities are virtually identical to a product currently listed and traded on the Exchange.¹¹ The only difference being the actual Underlying Securities in the basket of investment grade fixed-income securities. Accordingly, the Exchange

proposes to provide for the listing and trading of the ABS Securities where the Underlying Securities meet the Exchange's Bond and Debenture Listing Standards set forth in Section 104 of the Company Guide. The Exchange represents that all of the Underlying Securities in the proposed basket will meet or exceed these listing standards.

The Exchange's Bond and Debenture Listing Standards in Section 104 of the Company Guide provide for the listing of individual bond or debenture issuances provided the issue has an aggregate market value or principal amount of at least \$5 million and any of: (1) The issuer of the debt security has equity securities listed on the Exchange (or on the New York Stock Exchange, Inc. ("NYSE")) or on the Nasdaq National Market ("Nasdaq"); (2) an issuer of equity securities listed on the Exchange (or on the NYSE or on the Nasdaq) directly or indirectly owns a majority interest in, or is under common control with, the issuer of the debt security; (3) an issuer of equity securities listed on the Exchange (or on the NYSE or on the Nasdaq) has guaranteed the debt security; (4) an NRSRO has assigned a current rating to the debt security that is no lower than an S&P Corporation ("S&P") "B" rating or equivalent rating by another NRSRO; or (5) if no NRSRO has assigned a rating to the issue, an NRSRO has currently assigned (i) an investment grade rating to an immediately senior issue or (ii) a rating that is no lower than a S&P "B" rating or an equivalent rating by another NRSRO to a *pari passu* or junior issue.

In addition to the Exchange's Bond and Debenture Listing Standards, an Underlying Security must also be of investment grade quality as rated by an NRSRO and at least 75% of the underlying basket is required to contain Underlying Securities from issuances of \$100 million or more. The maturity of each Underlying Security is expected to match the payment of principal of the ABS Securities with the maturity date of the ABS Securities being the latest maturity date of the Underlying Securities. Amortization of the ABS Securities will be based on (1) The respective maturities of the Underlying Securities, including Treasury Securities or GSE Securities, (2) principal payout amounts reflecting the pro-rata principal amount of maturing Underlying Securities and (3) any early redemption or liquidation of the Underlying Securities, including Treasury Securities or GSE Securities.

Investors will be able to obtain the prices for the Underlying Securities through Bloomberg L.P. or other market

vendors, including the broker-dealer through whom the investor purchased the ABS Securities. In addition, The Bond Market Association ("TBMA") provides links to price and other bond information sources on its investor Web site at <http://www.investinginbonds.com>. Transaction prices and volume data for the most actively-traded bonds on the exchanges are also published daily in newspapers and on a variety of financial websites. The National Association of Securities Dealers, Inc. ("NASD") Trade Reporting and Compliance Engine ("TRACE") will also help investors obtain transaction information for the most active corporate debt securities, such as investment grade corporate bonds.¹² For a fee, investors can have access to intra-day bellwether quotes.¹³

Price and transaction information for Treasury Securities and GSE Securities may also be obtained at <http://www.publicdebt.treas.gov> and <http://www.govpx.com>, respectively. Price quotes are also available to investors via proprietary systems such as Bloomberg L.P., Reuters and Dow Jones Telerate. Valuation prices¹⁴ and analytical data may be obtained through vendors such as Bridge Information Systems, Muller Data, Capital Management Sciences, Interactive Data Corporation and Barra.

The ABS Securities will be listed in \$1,000 denominations with the Exchange's existing debt floor trading rules applying to trading.¹⁵ First, pursuant to Amex Rule 411, the Exchange will impose a duty of due diligence on its members and member firms to learn the essential facts relating to every customer prior to trading the ABS Securities.¹⁶ Second, the ABS Securities will be subject to the debt margin rules of the Exchange.¹⁷ Third,

¹⁴ "Valuation Prices" refer to an estimated price that has been determined based on an analytical evaluation of a bond in relation to similar bonds that have traded. Valuation prices are based on bond characteristics, market performance, changes in the level of interest rates, market expectations and other factors that influence a bond's value.

the Exchange will, prior to trading the ABS Securities, distribute a circular to the membership providing guidance with regard to member firm compliance responsibilities (including suitability recommendations) when handling transactions in the ABS Securities and highlighting the special risks and characteristics of the ABS Securities. With respect to suitability recommendations and risks, the Exchange will require members, member organizations and employees thereof recommending a transaction in the ABS Securities: (1) To determine that such transaction is suitable for the customer, and (2) to have a reasonable basis for believing that the customer can evaluate the special characteristics of, and is able to bear the financial risks of such transaction.

The Exchange represents that its surveillance procedures are adequate to properly monitor the trading of the ABS Securities. Specifically, the Amex will rely on its existing surveillance procedures governing debt, which have been deemed adequate under the Act. In addition, the Exchange also has a general policy which prohibits the distribution of material, non-public information by its employees.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6¹⁸ of the Act in general and furthers the objectives of section 6(b)(5)¹⁹ in particular in that it is designed to prevent fraudulent and manipulative acts and practices, promote just and equitable principles of trade, remove impediments to and perfect the mechanisms of a free and open market and a national market system, and, in general, protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange did not receive any written comments on the proposed rule change.

III. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing,

including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-2004-AMEX-21 on the subject line.

Paper comments:

- Send paper comments in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

All submissions should refer to File Number SR-2004-AMEX-21. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of such filing also will be available for inspection and copying at the principal office of the Amex. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-2004-AMEX-21 and should be submitted on or before June 4, 2004.

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange, and, in particular, with the requirements of section 6(b)(5) of the Act.²⁰ The

Commission finds that this proposal is similar to several approved equity-linked instruments currently listed and traded on the Amex.²¹ Accordingly, the Commission finds that the listing and trading of the ABS Securities is consistent with the Act and will promote just and equitable principles of trade, foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, and, in general, protect investors and the public interest consistent with section 6(b)(5) of the Act.²²

As described more fully above, the ABS Securities are asset-backed securities and represent a repackaging of the Underlying Corporate Bonds together with the addition of either Treasury Securities or GSE Securities, subject to certain distribution of interest obligations of the Trust. The ABS Securities are not leveraged instruments. The ABS Securities are debt instruments whose price will still be derived and based upon the value of the Underlying Securities. Investors are guaranteed at least the principal amount that they paid for the Underlying Securities. In addition, each of the Underlying Corporate Bonds will pay interest on a semi-annual basis while the ABS Securities themselves will pay interest on the monthly or quarterly basis, pursuant to the Interest Distribution Agreement. Neither the Treasury Securities or GSE Securities will make periodic payments of interest.²³ In addition, the ABS Securities will mature on the latest maturity date of the Underlying Securities.²⁴ However, due to the pass-through nature of the ABS Securities, the level of risk involved in the purchase or sale of the ABS Securities is similar to the risk involved in the purchase or sale of traditional common stock.

The Commission notes that the Exchange's rules and procedures that address the special concerns attendant to the trading of hybrid securities will

²³ See *supra* note 8.

²⁴ The Commission notes, however, that the Exchange has represented that the Underlying Securities may drop out of the basket upon maturity or upon payment default or acceleration of the maturity date of any default other than payment default. See Prospectus for a schedule of the distribution of interest and of the principal upon maturity of each Underlying Security and for a description of payment default and acceleration of the maturity date.

²⁰ *Id.*

be applicable to the ABS Securities. In particular, by imposing the hybrid listing standards, suitability disclosure, and compliance requirements noted above, the Commission believes the Exchange has addressed adequately the potential problems that could arise from the hybrid nature of the ABS Securities. Moreover, the Commission notes that the Exchange will distribute a circular to its membership calling attention to the specific risks associated with the ABS Securities.

The Commission notes that the ABS Securities are dependent upon the individual credit of the issuers of the Underlying Securities. To some extent this credit risk is similar minimized by the Exchange's listing standards in Section 107A of the Company Guide which provide that only issuers satisfying asset and equity requirements may issue securities such as the ABS Securities. In addition, the Exchange's "Other Securities" listing standards further provide that there is no minimum holder requirement if the securities are traded in thousand dollar denominations.²⁵ The Commission notes that the Exchange has represented that the ABS Securities will be listed in \$1000 denominations with its existing debt floor trading rules applying to the trading. In any event, financial information regarding the issuers of the Underlying Securities will be publicly available.²⁶

Due to the pass-through and passive nature of the ABS Securities, the Commission does not object to the Exchange's reliance on the assets and stockholder equity of the Underlying Securities rather than the Trust to meet the requirement in Section 107A of the Company Guide. The Commission notes that the distribution and principal amount/aggregate market value requirements found in Sections 107A(b) and (c), respectively, will otherwise be met by the Trust as issuer of the ABS Securities. Thus, the ABS Securities will conform to the initial listing guidelines under Section 107A and continued listing guidelines under Sections 1001–1003 of the Company Guide, except for the assets and stockholder equity characteristics of the Trust. At the time of issuance, the Commission also notes that the ABS Securities will receive an investment grade rating from an NRSRO.

The Commission also believes that the listing and trading of the ABS Securities should not unduly impact the market for the Underlying Securities or raise

manipulative concerns. As discussed more fully above, the Exchange represents that, in addition to requiring the issuers of the Underlying Securities meet the Exchange's Section 107A listing requirements (in the case of Treasury Securities, the Exchange will rely on the fact that the issuer is the United States Government rather than the asset and stockholder tests found in Section 107A), the Underlying Securities will also be required to meet or exceed the Exchange's Bond and Debenture Listing Standards pursuant to Section 104 of the Amex's Company Guide, which among other things, requires that underlying debt instrument receive at least an investment grade rating of "B" or equivalent from an NRSRO. Furthermore, at least 75% of the basket is required to contain Underlying Securities from issuances of \$100 million or more. The Amex also represents that the basket of Underlying Securities will not be managed and will remain static over the term of the ABS Securities. In addition, the Amex's surveillance procedures will serve to deter as well as detect any potential manipulation.

The Commission notes that the investors may obtain price information on the Underlying Securities through market vendors such as Bloomberg L.P., or through websites such as <http://www.investinginbonds.com> (for Underlying Corporate Bonds) and <http://www.publicdebt.treas.gov> and <http://www.govpx.com> (for Treasury Securities and GSE Securities, respectively).

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**. The Amex has requested accelerated approval because this product is similar to other asset-backed instruments currently listed and traded on the Amex.²⁷ The Commission believes that the ABS Securities will provide investors with an additional investment choice and that accelerated approval of the proposal will allow investors to begin trading the ABS Securities promptly. Additionally, the ABS Securities will be listed pursuant to Amex's existing hybrid security listing standards as described above. Based on the above, the Commission believes that there is good cause, consistent with Sections 6(b)(5) and 19(b)(2) of the Act²⁸ to approve the proposal on an accelerated basis.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,²⁹ that the proposed rule change (SR-Amex-2004-21) is hereby approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.³⁰

Assistant Secretary.
