The allocation change to the Wind River Reservation caused a reduction in the total pool available to non-Native American utility and nonutility allottees. Therefore, the final allocation of power to non-Native American utility and nonutility allottees was changed accordingly.

The final allocations of power shown in the tables above are based on the LAP marketable resource available at this time. If the LAP marketable resource is reduced in the future, all allocations will be adjusted accordingly. Long-term firm energy with associated capacity made available for marketing because an allocation(s) has been reduced or withdrawn may be administratively reallocated by Western's Administrator without further public process.

IV. Review Under the Regulatory Flexibility Act

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601, *et seq.*) requires Federal agencies to perform a regulatory flexibility analysis if a final rule is likely to have a significant economic impact on a substantial number of small entities and there is a legal requirement to issue a general notice of proposed rulemaking. Western has determined that this action does not require a regulatory flexibility analysis since it is a rulemaking of particular applicability involving rates or services applicable to public property.

V. Review Under the National Environmental Policy Act

Western has completed an environmental impact statement on the Program, pursuant to the National Environmental Policy Act of 1969

(NEPA). The Record of Decision was published in the **Federal Register** (60 FR 53181, October 12, 1995). Western's NEPA review assured all environmental effects related to this process have been analyzed.

VI. Determination Under Executive Order 12866

DOE has determined that this is not a significant regulatory action because it does not meet the criteria of Executive Order 12866 (58 FR 51735). Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget (OMB) is required.

VII. Determination Under the Small Business Regulatory Enforcement Fairness Act

Western has determined that this rule is exempt from congressional notification requirements under 5 U.S.C. 801 because the action is a rulemaking of particular applicability relating to rates or services and involves matters of procedure.

Dated: December 18, 2001.

Michael S. HacsKaylo,

Administrator.
