

comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,³ the Commission will aim to issue an order acting on the request within 45 days.⁴ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁵ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act (NEPA).⁶ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.⁷ The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.

Federal Energy Regulatory Commission

[Project No. 6055–008]

Jeffersonville Hydroelectric Co.; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed Jeffersonville Hydroelectric Co.'s application to surrender the exemption of the Lake Jefferson Project No. 6055 and have prepared an Environmental Assessment (EA) for the proposed surrender. The exemptee proposes to surrender the exemption by: (1) leaving the turbines and all generating equipment disconnected from the grid; (2) securing the power generation area of the powerhouse/residence by means of a locked barricade; and (3) upon surrender, keeping the lake level as low as possible, mainly through operation of the low-level drain valve. The project is located on the East Branch Callicoon Creek, in Sullivan County, New York, and does not occupy Federal lands.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed surrender of the exemption, and concludes that the proposed surrender, would not constitute a major Federal action that would significantly affect the quality of the human environment.

The final EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "elibrary" link. Enter the docket number (P–6055–008) in the docket number field to access the document.
