

River Datum 0.0 while in the closed-to-navigation position, and provides 125 feet of horizontal clearance with half the span open. This bridge operates in accordance with 33 CFR 117.897. This deviation allows the double bascule span of the Broadway Bridge across the Willamette River, mile 11.7, to operate the bridge in single leaf mode to marine traffic. The deviation period will be from 1 a.m. on January 27, 2018 to 11:59 p.m. on February 23, 2018. The bridge shall operate in accordance to 33 CFR 117.897 at all other times.

Waterway usage on this part of the Willamette River includes vessels ranging from commercial tug and barge to small pleasure craft. One particular shipping company regularly requests a full bridge span opening in order to transit the river. In anticipation of this deviation, the shipping company has agreed to give a 7 day notice and a 24 hour notice to the bridge owner for a request of a full bridge span opening. If this procedure is followed, the bridge owner has agreed to comply with these requests.

Vessels able to pass through the bridge in the closed-to-navigation position may do so at anytime. The bridge will be able to open for emergencies, and there is no immediate alternate route for vessels to pass. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: January 16, 2018.

Steven M. Fischer,

Bridge Administrator, Thirteenth Coast Guard District.

LIBRARY OF CONGRESS

Copyright Office

37 CFR Parts 201 and 202

[Docket No. 2017-16]

Group Registration of Newspapers

AGENCY: U.S. Copyright Office, Library of Congress.

ACTION: Final rule.

SUMMARY: The U.S. Copyright Office is amending its regulation governing the group registration option for newspapers. The final rule will make a number of changes to reflect current Office practices, improve the efficiency of the registration process, and encourage broader participation in the registration system by reducing the burden on applicants. Specifically, the final rule revises the definition of “newspaper issues” and clarifies that the group registration option may be used to register any qualifying “newspaper issue.” The final rule will also require applicants to file an online application rather than a paper application, and upload a complete digital copy of each issue through the Office’s electronic registration system instead of submitting them in physical form. Digital copies of newspapers received by the Office under this group registration option will be offered to the Library of Congress for use in its collections, and the Library intends to provide public access to these digital files, subject to the restrictions set forth in the final rule. Applicants may continue to submit their issues on

microfilm on a voluntary basis (in addition to and at the same time as submitting digital files) if the microfilm is received by December 31, 2019. After that date, the microfilm option will be eliminated. The final rule clarifies that each issue in the group must be a new collective work and a work made for hire, that the author and copyright claimant for each issue must be the same person or organization, and that the claim must be received within three months after the publication of the earliest issue in the group. Finally, the rule confirms that a group registration covers each issue in the group, as well as any contributions appearing within each issue if they are fully owned by the copyright claimant and if they were first published in those issues.

DATES: Effective March 1, 2018.

SUPPLEMENTARY INFORMATION: When Congress enacted the Copyright Act of 1976 (the “Act”), it authorized the Register of Copyrights (the “Register”) to specify by regulation the administrative classes of works for the purpose of seeking a registration, and the nature of the deposits required for each such class. In addition, Congress granted the Register the discretion to allow groups of related works to be registered with one application and one filing fee. See 17 U.S.C. 408(c)(1). Congress cited “the various editions or issues of a daily newspaper” as a specific example of a “group of related works” that would be suitable for a group registration. H.R. Rep. No. 94-1476, at 154 (1976), *reprinted in* 1976 U.S.C.C.A.N. 5659, 5770; S. Rep. No. 94-473, at 136 (1975).

On November 6, 2017, the Copyright Office (the “Office”) published a notice of proposed rulemaking (“NPRM”) setting forth proposed amendments to the current regulation governing the group registration option for newspapers. 82 FR 51369 (Nov. 6, 2017). The NPRM proposed modifying the requirements for this group registration option in several respects. First, the proposed rule would make any newspaper, as defined in the regulation, eligible for a group registration, regardless of whether the Library of Congress (the “Library”) has selected
