

3. Expenditure Limitation for President

The national party committees have an expenditure limitation for their general election nominee for President. The formula used to calculate the Presidential expenditure limitation considers not only the price index but also the total VAP of the United States. The Department of Commerce also publishes the total VAP of the United States annually in the **Federal Register**. 11 CFR 110.18. The formula used to calculate this expenditure limitation is

\$0.02 multiplied by the total VAP of the United States (227,719,424), multiplied by the price index. Amounts are rounded to the nearest \$100. See 2 U.S.C. 441a(d)(2) and 11 CFR 109.32(a). Based upon this formula, the expenditure limitation for 2008 Presidential nominees is \$19,151,200.

For the convenience of the readers, the Commission is also republishing the contribution limitations for individuals, non-multicandidate committees and for certain political party committees giving to U.S. Senate candidates for the 2007–2008 election cycle:

Statutory provision	Statutory amount	2007–2008 limitation
