

other statutory factors supports the conclusion that granting the application would create an unacceptable risk of diversion. Thus, in *Xtreme Enterprises*, 67 FR 76195, 76197 (2002), my predecessor denied an application observing that the respondent's "lack of a criminal record, compliance with the law and willingness to upgrade her security system are far outweighed by her lack of experience with selling List I chemicals and the fact that she intends to sell ephedrine almost exclusively in the gray market." More recently, I denied an application observing that the respondent's "lack of a criminal record and any intent to comply with the law and regulations are far outweighed by his lack of experience and the company's intent to sell ephedrine and pseudoephedrine exclusively to the gray market." *Jay Enterprises*, 70 FR at 24621. *Accord Planet Trading*, 72 FR at 11058; *Prachi Enterprises*, 69 FR 69407, 69409 (2004).

Here, the investigative file supports additional adverse findings beyond those which DEA has repeatedly held are sufficient to warrant the denial of an application to distribute list I chemicals. Respondent clearly lacks effective controls against diversion, has no experience in the licit wholesale distribution of List I chemical products, and yet intends to distribute these products to non-traditional retailers, a market in which the risk of diversion is substantial. See *Planet Trading*, 72 FR at 11058; *Taby Enterprises of Osceola, Inc.*, 71 FR 71557, 71559 (2006). Given these findings,¹ it is indisputable that granting Respondent's application would be "inconsistent with the public interest." 21 U.S.C. 823(h).

Order

Pursuant to the authority vested in me by 21 U.S.C. 823(h), as well as 28 CFR 0.100(b) & 0.104, I order that the application of Tim's Wholesale, for a DEA Certificate of Registration as a distributor of list I chemicals be, and it hereby is, denied. This order is effective November 16, 2007.

Dated: October 9, 2007.

Michele M. Leonhart,

Deputy Administrator.
