DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of Economic Analysis.

Title: Annual Survey of Construction, Engineering, Architectural, and Mining Services Provided by U.S. Firms to Unaffiliated Foreign Persons.

Form Number(s): BE-47.

Agency Approval Number: 0608-0015.

Type of Request: Extension of a currently approved collection without any change in the substance or in method of collection.

Burden: 700 hours.

Number of Respondents: 155.

Avg Hours Per Response: 4.5.

Needs and Uses: The Government requires data from the BE-47, Annual Survey of Construction, Engineering, Architectural, and Mining Services Provided by U.S. Firms to Unaffiliated Foreign Persons, to obtain accurate and up-to-date information on sales to unaffiliated foreign persons of construction, engineering, architectural, and mining services. It will use the data collected in monitoring U.S. exports of construction, engineering, architectural, and mining services, analyzing their impact on the U.S. and foreign economies, supporting U.S. international trade policy on such services, compiling the international transactions, national income and product, and input-output accounts of the United States, assessing U.S. competitiveness in international trade in services, and improving the ability of U.S. businesses to identify and evaluate market opportunities. For example, the Uruguay round of multilateral trade negotiations produced an agreement, the General Agreement on Trade in Services (GATS), that will liberalize market

access rules and promote more equal treatment of U.S. construction and engineering firms. The BE-47 data help measure gains, by individual foreign country, obtained in construction and related services under the GATS. Similar needs arise with respect to the North American Free Trade Agreement among the United States, Canada, and Mexico.

Affected Public: U.S. businesses or other for-profit institutions providing construction, engineering, architectural, and mining services to unaffiliated foreign persons.

Frequency: Annual.

Respondent's Obligation: Mandatory.

Legal Authority: Title 22 U.S.C., Sections 3101-3108, as amended.

OMB Desk Officer: Paul Bugg, (202) 395-3093.

Copies of the above information collection proposal can be obtained by calling or writing Departmental Paperwork Clearance Officer, Madeleine Clayton, (202) 482-3129, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW., Washington, DC 20230 or by e-mail to MClayton@doc.gov.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Paul Bugg, OMB Desk Officer, Room 10201, New Executive Office Building, Washington DC 20503.

Dated: October 9, 2001.

SUPPLEMENTARY INFORMATION:

I. Abstract

The economic census, conducted under authority of Title 13, United States Code (U.S.C.), is the primary source of facts about the structure and functioning of the United States economy, including Puerto Rico, Guam, Northern Mariana Islands, the U.S. Virgin Islands, and American Samoa. The economic census, is the primary source of dependable facts about each of the outlying areas' economies, and features the only recognized source of data at a geographic level equivalent to U.S. counties. Outlying areas economic census statistics serve to benchmark estimates of local net income and gross product, and provide essential information for government (Federal and local), business, and the general public. Economic data are the Census Bureau's primary program commitment during nondecennial census years. The 2002 Economic Census of Outlying Areas will cover the following sectors (as defined by the North American Industry Classification System (NAICS)): Mining, Utilities, Construction, Manufacturing; Wholesale and Retail Trades, Transportation and Warehousing, Information; Finance and Insurance; Real Estate and Rental and Leasing; Professional, Scientific, and Technical Services; Management of Companies and Enterprises; Administrative and Support, Waste Management and Remediation Services, Educational Services; Health Care and Social Assistance; Arts, Entertainment, and Recreation; Accommodation and Food Services, and Other Services

(except Public Administration). This scope is equivalent to that of the stateside economic census. The information collected will produce basic statistics by kind of business on the number of establishments, sales/shipments/receipts/revenue, payroll, and employment. It will also yield a variety of industry-specific statistics, including sales/receipts by commodity/merchandise/receipt line, sales/shipments by class of customer, and number of hotel rooms. The primary strategy for reducing burden in Census Bureau economic data collections is to increase electronic reporting through broader use of electronic collection methods, including the introduction of electronic formats in the Outlying Areas economic data collection for 2002.

II. Method of Collection

The 2002 Economic Census of Outlying Areas will be conducted using mailout/mailback procedures. Establishments will be selected from the Census Bureau's Business Register. An establishment will be included in the 2002 Outlying Areas Economic Census if: (a) It is engaged in any of the sectors within the scope of the census listed above; (b) it is an active operating establishment with payroll; and (c) it is located in Puerto Rico, Guam, Northern Mariana Islands, the U.S. Virgin Islands, or American Samoa. Generally, non-employer establishments are excluded from the Census of the Outlying Areas. However, this economic data collection will be the first in American Samoa. The inclusion of non-employer establishments is still being examined in light of significant deficiencies in administrative records for this area as well as the lack of economic statistics.
