

for other specific end uses. This survey was conducted in FY2015 and FY2020, and is intended to be repeated on a regular basis in order to track the growth of the U.S. Ocean Enterprise. The survey is a critical data collection piece of the project and is necessary in order to collect demographic, financial, and functional information for each organization with regard to their involvement with IOOS. The final deliverable of this project is an analytic report detailing the findings of the web survey and the analysis of the employer database. The results will demonstrate the size and economic impact of IOOS data to the United States marine ocean sector.

Affected Public: Business or other for-profit organizations and Not-for-profit institutions.

Frequency: Every 5 years.

Respondent's Obligation: Voluntary.

Legal Authority: Section 12304 of the Integrated Coastal and Ocean Observation System Act, part of the Omnibus Public Land Management Act of 2009 (Pub. L. 111–11), and reauthorized under the Coordinated Ocean Observations and Research Act of 2020 (Pub. L. 116–271).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0712.

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council's is convening its Scientific and Statistical Committee (SSC) via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This webinar will be held on Friday, January 20, 2023, beginning at 9 a.m. Webinar registration information: <https://attendee.gotowebinar.com/register/8683582624103713624>. Call in information: +1 (213) 929–4212, Access Code: 250–348–919.

ADDRESSES:

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT:

Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Scientific and Statistical Committee will meet to consider setting Acceptable Biological Catches (ABCs) for the Monkfish management areas to be included in the fishery management plan specifications for fishing years 2023–25 as the average of the I-Smooth approach (multipliers applied to recent 3-year catch) and the most recent method used to determine ABC (multipliers applied to recent ABCs). The Committee also plans to consider the corrected 2022 management stock assessment to develop a possible revised ABC recommendation for Atlantic halibut for fishing years 2023 through 2025 and will consider other business as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465–0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 3, 2023.

Ngagne Jafnar Gueye,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Northwest Region, Pacific Coast Groundfish Fishery: Trawl Rationalization Cost Recovery Program

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on September 13, 2022 (87 FR 56000) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Notice of Information Collection for the West Coast Region, Pacific Coast Groundfish Fishery: Trawl Rationalization Cost Recovery Program.

OMB Control Number: 0648–0663.

Form Number(s): None.

Type of Request: Regular submission; extension of a current information collection.

Number of Respondents: 65.

Average Hours per Response: Cost recovery fee forms: 1-hour, Annual report: 1 hour; Failure to Pay Report: 4 hours.

Total Annual Burden Hours: 580.

Needs and Uses: This request is for an extension of a currently approved information collection. The Magnuson-Stevens Fishery Conservation and Management Act (MSA) authorizes and requires that the Secretary of Commerce maintain a cost recovery program to cover part of the management, data collection and analysis, and enforcement costs of the limited access privilege programs, such as the Pacific Coast Groundfish Trawl Rationalization Program (Trawl Program). Cost recovery fees may not exceed three percent of the ex-vessel value. The Trawl Program cost recovery program requires fish sellers to submit fees to fish buyers who then submit those fees to NOAA's National Marine Fisheries Service (NMFS). Fish buyers must also submit information to NMFS on the volume and value of harvested groundfish when submitting the fees. Information is collected from monthly and annual reports as well as non-payment documents when necessary.

The information collected is used to track the payment of cost recovery fees, reconcile cost recovery payments with landings data from other sources, calculate average ex-vessel values, and, if necessary, help in the resolution of non-payment issues.

This program is authorized under the Pacific coast groundfish fishery regulations, trawl rationalization cost recovery program at 50 CFR 660.115.

Affected Public: Business or other for-profit organizations.

Frequency: Monthly and annually.

Respondent's Obligation: Mandatory.

Legal Authority: NMFS and the

Pacific Fisheries Management Council (Council) manage the groundfish fisheries in the exclusive economic zone seaward of California, Oregon, and Washington under the Pacific Coast Groundfish Fishery Management Plan (FMP). The Council prepared the FMP under the authority of the MSA, 16 U.S.C. 1801 *et seq.* Regulations governing United States fisheries and implementing the FMP appear at 50 CFR parts 660.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or

by using the search function and entering either the title of the collection or the OMB Control Number 0648–0663.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; South Pacific Tuna Act

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on September 6, 2022 (87 FR 54481) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: South Pacific Tuna Act.

OMB Control Number: 0648–0218.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 21.

Average Hours per Response: License application, 1 hour; Vessel Monitoring System (VMS) registration application, 45 minutes; catch report, 1 hour; unloading logsheet, 30 minutes; expression of interest, 2 hours; and renewal, 15 minutes.

Total Annual Burden Hours: 207.

Needs and Uses: The National Oceanic and Atmospheric Administration (NOAA) collects vessel license, vessel registration, catch, and unloading information from operators of U.S. purse seine vessels fishing under the provisions of the Treaty on Fisheries between the Governments of Certain Pacific Island States and the

Government of the United States of America (Treaty). The Treaty provides access for U.S. purse seine vessels to fish in the exclusive economic zones (EEZs) of Pacific Island Parties to the Treaty (PIPs). The PIPs include Australia, Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, New Zealand, Niue, Palau, Papua New Guinea, Samoa, Solomon Islands, Tonga, Tuvalu, and Vanuatu. This collection of information is required to meet U.S. obligations under the Treaty.

The South Pacific Tuna Act of 1988 (16 U.S.C. 973–973r) and U.S. implementing regulations (50 CFR part 300, subpart D) authorize the collection of information from U.S. purse seine vessels fishing in the EEZs of PIPs under the Treaty. Vessel operators must submit annual vessel license and registration (including registration of vessel monitoring system (VMS) units) applications and periodic written reports of catch and unloading of fish from licensed vessels. They are also required to ensure the continued operation of VMS units on board licensed vessels, which is expected to require periodic maintenance of the units. The information collected is submitted to the Pacific Islands Forum Fisheries Agency (FFA) through the U.S. government, NOAA's National Marine Fisheries Service (NMFS). The license and registration application information is used by the FFA to determine the operational capability and financial responsibility of a vessel operator interested in fishing under the Treaty. Information obtained from vessel catch and unloading reports is used by the FFA to assess fishing effort and fishery resources in the region and to track the amount of fish caught within each PIP's EEZ. Maintenance of VMS units is needed to ensure the continuous operation of the VMS units, which, as part of the VMS administered by the FFA, are used as an enforcement tool. If the information is not collected, the U.S. government will not meet its obligations under the Treaty, and the lack of fishing information will result in poor management of the fishery resources.

There are no changes to the collection.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

Legal Authority: 16 U.S.C. 973–973r.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.
